SUPPLEMENTARY INFORMATION:

Title: Rural Development—Customer Satisfaction Survey.

Type of Request: Continuation of information collection.

Abstract: USDA, Rural Development provides insured loans to low- and

moderate-income applicants located in rural geographic areas to assist them in obtaining decent, sanitary and safe dwellings. Rural Development currently processes loan originations through approximately 700 Field Offices. The Rural Development, Centralized Servicing Center (CSC), located in St. Louis, Missouri, provides support to the Field Offices and is responsible for loan servicing functions for Single Family housing direct program borrowers. The CSC was established to achieve a high level of customer service and operating efficiency. The CSC has established a fully integrated call center and is able to provide borrowers with convenient access to their loan account information.

To facilitate CSC's mission and in an effort to continuously improve its services, a survey has been developed that will measure the change in quality of service that borrower's receive when they contact the CSC. Three previous surveys have been completed under prior authorization. Respondents will only need to report information on a one-time basis.

The results of the survey will provide a general satisfaction level among borrowers throughout the nation. The data analysis will provide comparisons to prior surveys and reveal areas of increased satisfaction as well as areas in need of improvement. CSC's goal is to continuously improve program delivery, accessibility and overall customer service satisfaction. A follow up survey will be conducted in 18-24 months, but may or may not be sent to the same initial respondents. Additionally, in accordance with Government Performance and Results Act (GPRA), the survey will enable CSC to measure the results and overall effectiveness of customer services provided as well as implement action plans and measure improvements.
