Award applicants are estimated to spend an additional 20 hours on average to complete the awards application. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Estimated Number of Respondents: 357 state and local government; 1,319 private sector organizations, and 668 individuals per year.

Frequency of Response: Varies.

Estimated Total Annual Hour Burden: 21,250 hours.

Estimated Total Annual Cost: $3,369,814, this includes $1,793,181 in operation & maintenance costs.

Changes in the Estimates: The WaterSense program has been modified and expanded since the original ICR was approved. The program is expanding in the number of products certified, new partners joining and reporting, and the addition of the New Homes portion of the program. Despite this expansion, the overall burden estimate for this collection is 28,830 hours lower than the current ICR because EPA also has a better understanding of how long it actually takes partners to complete program forms now that the program is underway. Operation and maintenance cost estimates have risen substantially however, since product testing by certifying bodies was found to be more expensive than previously estimated and many more products are expected to undergo this testing in the next three years.

BILLING CODE 6560–50–P
the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: NESHAP for Area Sources: Polyvinyl Chloride and Copolymer Production, Primary Copper Smelting, Secondary Copper Smelting, and Primary Nonferrous Metals—Zinc, Cadmium, and Beryllium (Renewal), were proposed on October 16, 2006, and promulgated on January 23, 2007. These regulations apply to any new and existing primary copper smelter, a new secondary copper smelter, a new or existing primary zinc production facility or a primary beryllium production facility that is an area source of hazardous air pollutant (HAP) emissions. An affected source is existing, if they commenced construction or reconstruction before October 6, 2006, and a new source if they commenced construction or reconstruction on or after October 6, 2006.

Owners and operators of a new and existing area source is subject to the General Provisions (40 CFR part 63, subpart A). An existing affected source is required to submit an initial notification of applicability and a notification of compliance status. They are also required to certify initial compliance with particulate matter (PM) limits based on previous performance test results. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Any owner or operator subject to the provisions of this subpart must maintain a file of these measurements, and retain the file for at least five years following the collection of such measurements, maintenance reports, and records.

All reports are sent to the delegated State or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart EEEEEE; 40 CFR part 63, subpart FFBBBB; 40 CFR part 63, subpart DDDDDD; 40 CFR part 63, subpart GGGGGG; 40 CFR part 61, subpart F; 40 CFR part 61, subpart C; as authorized in sections 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that has been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA regulations listed in 40 CFR part 9 and 48 CFR chapter 15, are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information estimated to average 12 hour per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Polyvinyl Chloride and Copolymer Production, Primary Copper Smelting, Secondary Copper Smelting, and Primary Nonferrous Metals—Zinc, Cadmium, and Beryllium.

Estimated Number of Respondents: 5.
Frequency of Response: Initially.
Estimated Total Annual Hour Burden: 46.
Estimated Total Annual Cost: $4,326, which includes $4,326 in labor costs, no capital/startup costs, and no operation and maintenance (O&M) costs.

Changes in the Estimates: In this ICR, we have accounted for all five sources as compared to the previous ICR. There are no new sources and are not anticipated to change over the next three years; the growth rate for the industry is very low, negative or nonexistent, thus, there is no significant change in the overall number of sources. A change in the cost burden was due to an increase in the hourly labor rates.

Agency Information Collection Activities OMB Responses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This document announces the Office of Management and Budget (OMB) responses to Agency Clearance requests, in compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

FOR FURTHER INFORMATION CONTACT: Rick Westlund (202) 566-1682, or e-mail at westlund.rick@epa.gov and please refer to the appropriate EPA Information Collection Request (ICR) Number.

SUPPLEMENTARY INFORMATION:

OMB Responses to Agency Clearance Requests

OMB Approvals

EPA ICR Number 1156.11; NSPS for Synthetic Fiber Production Facilities; 40 CFR part 60, subpart A and 40 CFR part 60, subpart HHH; was approved on 12/01/2009; OMB Number 2060–0059; expires on 12/31/2012; Approved without change.

EPA ICR Number 0659.11; NSPS for Surface Coating of Large Appliances; 40 CFR part 60, subpart A and 40 CFR part 60, subpart SS; was approved on 12/01/2009; OMB Number 2060–0108; expires on 12/31/2012; Approved without change.

EPA ICR Number 1901.04; NSPS for Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units Constructed on or before August 30, 1999; 40 CFR part 60, subpart A and 40 CFR part 60, subpart BBBB; was approved on 12/01/2009; OMB Number 2060–0424; expires on 12/31/2012; Approved without change.

EPA ICR Number 0663.10; NSPS for Beverage Can Surface Coating; 40 CFR part 60, subpart A and 40 CFR part 60, subpart WW; was approved on 12/01/2009; OMB Number 2060–0001; expires on 12/31/2012; Approved without change.

EPA ICR Number 2344.03; Auto-Body Compliance Assessment Pilot Project (New); was approved on 12/01/2009;
