

**NATIONAL SCIENCE FOUNDATION****Proposal Review Panel for Physics;  
Notice of Meeting**

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting.

*Name:* University of Nebraska Site Visit in Physics (1208).

*Date and Time:* Monday, February 1, 2010; 8 a.m.–6 p.m.; Tuesday, February 2, 2010; 8 a.m.–3 p.m.

*Place:* University of Nebraska, Lincoln, Nebraska.

*Type of Meeting:* Partially Closed.

*Contact Person:* Dr. James Reidy, Program Director for Elementary Particle Physics, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: (703) 292-7392.

*Purpose of Meeting:* To provide an evaluation concerning the proposal submitted to the National Science Foundation.

**Agenda***Monday, February 1, 2010*

Closed 8–9

Executive Session.

Open 9–3

Open Discussions and/or presentations.

Closed 3–3:30

Executive Session.

Open 3:30–6

Open Discussions and/or presentations.

*Tuesday, February 2, 2010*

Closed 8–9

Executive Session.

Open 9–11:30

Open Discussions and/or presentations.

Closed 11:30–3:30

Executive Session & Close out with Lab Leaders.

*Reason For Closing:* The proposal contains proprietary or confidential material including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b (c) and (6) of the Government in the Sunshine Act.

Dated: January 14, 2010.

**Susanne Bolton,**

*Committee Management Officer.*

[FR Doc. 2010-967 Filed 1-20-10; 8:45 am]

**BILLING CODE 7555-01-P**

**NUCLEAR REGULATORY  
COMMISSION**

[Docket Nos. 50-275 and 50-323; NRC-2009-0552]

**Notice of Acceptance for Docketing of the Application, Notice of Opportunity for Hearing for Facility Operating License Nos. DPR-80 and DPR-82 for an Additional 20-Year Period; Pacific Gas & Electric Company, Diablo Canyon Nuclear Power Plant, Units 1 and 2; and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information (SUNSI) for Contention Preparation**

The U.S. Nuclear Regulatory Commission (NRC) is considering an application for the renewal of operating licenses DPR-80 and DPR-82, which authorize Pacific Gas & Electric Company (PG&E) to operate the Diablo Canyon Nuclear Power Plant (DCPP), Units 1 and 2, at 3411 megawatts thermal, each. The renewed licenses would authorize the applicant to operate DCPP, Units 1 and 2, for an additional 20 years beyond the period specified in the current licenses. DCPP, Units 1 and 2, are located near San Luis Obispo, California. The current operating licenses expire on November 2, 2024, and August 26, 2025, respectively.

PG&E submitted the application dated November 23, 2009, pursuant to Title 10 of the *Code of Federal Regulations*, Part 54 (10 CFR part 54) to renew operating licenses DPR-80 and DPR-82. A notice of receipt and availability of the license renewal application (LRA) was published in the **Federal Register** on December 11, 2009 (74 FR 65811).

The Commission has determined that PG&E has submitted sufficient information in accordance with 10 CFR Sections 2.101, 54.19, 54.21, 54.22, 54.23, 51.45, and 51.53(c), to enable the staff to undertake a review of the application, and the application is therefore acceptable for docketing. The Commission will retain the current Docket Nos. 50-275 and 50-323 for operating license Nos. DPR-80 and DPR-82. The determination to accept the LRA for docketing does not constitute a determination that the renewed licenses should be issued, and does not preclude the NRC staff from requesting additional information as the review proceeds.

Before issuance of the requested renewed licenses, the NRC will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. In accordance with 10 CFR 54.29, the NRC may issue a

renewed license on the basis of its review if it finds that actions have been identified and have been or will be taken with respect to: (1) Managing the effects of aging during the period of extended operation on the functionality of structures and components that have been identified as requiring aging management review, and (2) time-limited aging analyses that have been identified as requiring review, such that there is reasonable assurance that the activities authorized by the renewed license will continue to be conducted in accordance with the current licensing basis (CLB) and that any changes made to the plant's CLB will comply with the Act and the Commission's regulations.

Additionally, in accordance with 10 CFR 51.95(c), the NRC will prepare an environmental impact statement that is a supplement to the Commission's NUREG-1437, "Generic Environmental Impact Statement for License Renewal of Nuclear Power Plants," dated May 1996. In considering the LRA, the Commission must find that the applicable requirements of subpart A of 10 CFR part 51 have been satisfied, and that matters raised under 10 CFR 2.335 have been addressed. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold public scoping meetings. Detailed information regarding the environmental scoping meetings will be the subject of a separate **Federal Register** notice.

Within 60 days after the date of publication of this **Federal Register** notice, any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene with respect to the renewal of the licenses. Requests for a hearing or petitions for leave to intervene must be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309, which is available at the Commission's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852 and is accessible from the NRC's Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to the Internet or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR reference staff by telephone at 1-800-397-4209, or 301-415-4737,
