SUPPLEMENTARY INFORMATION:

A. Purpose

To protect the Government's interest
and to ensure timely delivery of items
of the requisite quality, contracting
officers, prior to award, must make an
affirmative determination that the
prospective contractor is responsible,
i.e., capable of performing the contract.
Before making such a determination, the
contracting officer must have in his
possession or must obtain information
sufficient to satisfy himself that the
prospective contractor (i) has adequate
financial resources, or the ability to
obtain such resources, (ii) is able to
comply with required delivery
schedule, (iii) has a satisfactory record
of performance, (iv) has a satisfactory
record of integrity, and (v) is otherwise
qualified and eligible to receive an
award under appropriate laws and
regulations. If such information is not in
the contracting officer's possession, it is
obtained through a preaward survey
conducted by the contract
administration office responsible for the
plant and/or the geographic area in
which the plant is located. The
necessary data is collected by contract
administration personnel from available
data or through plant visits, phone calls,
and correspondence. This data is
entered on to Standard Forms 1403,
1404, 1405, 1406, 1407, and 1408 in
detail commensurate with the dollar
value and complexity of the
procurement.

SUPPLEMENTARY INFORMATION:

A. Purpose

Title III of the Defense Production Act (DPA) of 1950 authorizes various forms of Government assistance to encourage expansion of production capacity and supply of industrial resources essential to national defense. The DPA Amendments of 1992 provide for the testing, qualification, and use of industrial resources manufactured or developed with assistance provided under Title III of the DPA.

FAR 34.1 and 52.234-1 require contractors, upon the direction of the contracting officer, to test Title III industrial resources for qualification, and provide the test results to the Defense Production Act Office. The FAR coverage also expresses Government policy to pay for such testing and provides definitions, procedures, and a contract clause to implement the policy. This information is used by the Defense Production Act Office, Title III Program, to determine whether the Title III industrial resource has been provided an impartial opportunity to qualify.
