Bureau of Indian Affairs

Renewal of Agency Information Collection for Tribal Energy Resource Agreements

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of request for comments.

SUMMARY: The Office of Indian Energy and Economic Development (IEED), in the Office of the Assistant Secretary—Indian Affairs, is proposing to submit the information collection titled "Tribal Energy Resource Agreements (TERAs)" to the Office of Management and Budget (OMB) for renewal pursuant to the Paperwork Reduction Act. The information collection is currently authorized by OMB Control Number 1076-0167, which expires March 31, 2010. The information collection requires Indian tribes interested in entering into a TERA or who already have a TERA to provide certain information, including information as part of the application for, and implementation, reassumption, and rescission of the TERA.

DATES: Interested persons are invited to submit comments on or before *March 30, 2010*.

ADDRESSES: You may submit comments on the information collection to Darryl Francois, Department of the Interior, Office of Indian Energy and Economic Development, Room 20—South Interior Building, 1951 Constitution Avenue, NW., Washington, DC 20245, fax (202) 208-4564; *e-mail:* Darryl.Francois@bia.gov.

FOR FURTHER INFORMATION CONTACT: You may request further information or obtain copies of the information collection request submission from Darryl Francois, Department of the Interior, Office of Indian Energy and Economic Development. Telephone (202) 219-0740.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Energy Policy Act of 2005 (Pub. L. 109-58) authorizes the Secretary to approve individual TERAs. The intent of these agreements is to promote tribal oversight and management of energy and mineral resource development on tribal lands and further the goal of Indian self-determination. A TERA offers a tribe an entirely new alternative for developing energy-related business agreements and awarding leases and granting rights-of-way for energy facilities without having to obtain further approval from the Secretary.

This information collection conducted under TERA regulations at 25 CFR 224 will allow IEED to determine the capacity of tribes to manage the development of energy resources on tribal lands. Information collected:

- Enables IEED to engage in a consultation process with tribes that is designed to foster optimal pre-planning of development proposals and speed up the review and approval process for TERA agreements;
- Provides wide public notice and opportunity for review of TERA agreements by the public, industry, and government agencies;
- Ensures that the public has an avenue for review of the performance of tribes in implementing a TERA;
- Creates a process for preventing damage to sensitive resources as well as ensuring that the public has fully communicated with the tribe in the petition process;
- Ensures that a tribe is fully aware of any attempt by DOI to resume management authority over energy resources on tribal lands; and
- Ensures that the tribal government fully endorses any relinquishment of a TERA.

II. Request for Comments

IEED requests that you send your comments on this collection to the location listed in the **ADDRESSES** section. Your comments should address: (a) The necessity of the information collection for the proper performance of the agencies, including whether the information will have practical utility; (b) the accuracy of our estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents, such as through the use of automated collection techniques or other forms of information technology.

Please note that an agency may not sponsor or conduct, and an individual need not respond to, a collection of information unless it has a valid OMB Control Number. Approval for this collection expires March 31, 2010. Response to the information collection is required to obtain a benefit.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section during the hours of 9 a.m.–5 p.m., Eastern Time, Monday through Friday except for legal holidays. Before including your address, phone number,

e-mail address or other personally identifiable information, be advised that your entire comment—including your personally identifiable information—may be made public at any time. While you may request that we withhold your personally identifiable information, we cannot guarantee that we will be able to do so.

SUPPLEMENTARY INFORMATION:

I. Abstract

The USGS is currently conducting a “proof-of-concept” project to develop a series of linked physical, biological and socioeconomic models to address global climate change in the Yakima River Basin (YRB). In support of this effort, the USGS acknowledges that there is a need to better understand the Yakama Nation’s cultural connection and interactions with the resources of the YRB. We are working with tribal liaisons to develop a roster of potential Yakama Nation members to participate in a series of in-depth interviews. The anticipated outcome of the interviews will be critical information that is missing for YRB water resource management decisions.

II. Data

OMB Control Number: 1028–NEW.
Title: Yakima River Basin Global Climate Change Decision Support System.

Respondent’s Obligation: Voluntary.
Frequency of Collection: One-time.

Estimated Annual Number of Respondents: An estimated 32 Yakama Nation tribal members (proposing 2 individuals from the 14 tribes/bands and 4 Tribal Council members) will be asked to participate in this collection.

Affected Public: Yakama Nation tribal members.

Estimated Completion Time: 2 hours per interview.

Annual Burden Hours: 64 hours.

Estimated Annual Reporting and Recordkeeping “Hour” Burden: We estimate the interviews to last no more than 2 hours per respondent.

Estimated Annual Reporting and Recordkeeping “Non-Hour Cost”: We have not identified any “non-hour cost” burdens associated with this collection of information.
