

This information collection conducted under TERA regulations at 25 CFR 224 will allow IEED to determine the capacity of tribes to manage the development of energy resources on tribal lands. Information collected:

- Enables IEED to engage in a consultation process with tribes that is designed to foster optimal pre-planning of development proposals and speed up the review and approval process for TERA agreements;
- Provides wide public notice and opportunity for review of TERA agreements by the public, industry, and government agencies;
- Ensures that the public has an avenue for review of the performance of tribes in implementing a TERA;
- Creates a process for preventing damage to sensitive resources as well as ensuring that the public has fully communicated with the tribe in the petition process;
- Ensures that a tribe is fully aware of any attempt by DOI to resume management authority over energy resources on tribal lands; and
- Ensures that the tribal government fully endorses any relinquishment of a TERA.

SUPPLEMENTARY INFORMATION:

I. Abstract

The USGS is currently conducting a “proof-of-concept” project to develop a series of linked physical, biological and socioeconomic models to address global climate change in the Yakima River Basin (YRB). In support of this effort, the USGS acknowledges that there is a need to better understand the Yakama Nation’s cultural connection and interactions with the resources of the YRB. We are working with tribal liaisons to develop a roster of potential Yakama Nation members to participate in a series of in-depth interviews. The anticipated outcome of the interviews will be critical information that is missing for YRB water resource management decisions.

II. Data

OMB Control Number: 1028–NEW.

Title: Yakima River Basin Global Climate Change Decision Support System.

Respondent’s Obligation: Voluntary.

Frequency of Collection: One-time.

Estimated Annual Number of Respondents: An estimated 32 Yakama Nation tribal members (proposing 2 individuals from the 14 tribes/bands and 4 Tribal Council members) will be asked to participate in this collection.

OMB Control Number: 1024-0029.

Title: Concessioner Annual Financial Reports.

Form(s): 10-356, 10-356A.

Abstract: The regulations at 36 CFR Part 51 primarily implement Title IV of the National Parks Omnibus Management Act of 1998 (Pub. L. 105-391 or the Act), which requires that the Secretary of the Interior exercise authority in a manner consistent with a reasonable opportunity for a concessioner to realize a profit on his operation as a whole commensurate with the capital invested and the obligations assumed. It also requires that franchise fees be determined with consideration to the opportunity for net profit in relation to both gross receipts and capital invested. The financial information being collected is necessary to provide insight into, and knowledge of the concessioner's operation so that this authority can be exercised and franchise fees determined in a timely manner and without an undue burden on the concessioner. This program will measure performance in meeting goals as required by the 1995 Government Performance and Results Act.
