

concern regarding the industry's commitment to the safety of its passengers and employees. For example, the 2006 derailment of a CTA Blue Line train in Chicago involved aging infrastructure that did not meet agency safety standards and yet remained in service.

In response to this series of accidents, the Secretary of Transportation established TRACS for the purpose of providing a forum for the development, consideration, and communication of information from knowledgeable and independent perspectives regarding transit rail safety. The committee is chartered under the Federal Advisory Committee Act (5 U.S.C. App. 2) and became effective on December 8, 2009.

In addition, the Secretary of Transportation transmitted to Congress in December proposed legislation outlining comprehensive transit safety reforms. While Congress debates this important piece of legislation, the Department has decided to move forward with the selection process for the TRACS. The Department acknowledges that FTA cannot promulgate final regulations without new safety legislation, but given the urgent need for reform in this area, convening affected parties now will only help strengthen FTA's decision-making process later.

TRACS will be composed of no more than 25 voting members representing key constituencies affected by rail transit safety requirements. These key constituencies will include, but are not limited to: rail safety experts, labor unions, transit agencies, rider advocacy groups, State safety oversight agencies, and industry associations. Members are recommended for appointment by the FTA Administrator and appointed by and serve at the pleasure of the Secretary of Transportation. Terms of office will normally be two years, and members' terms of office will be staggered to assure adequate continuity of TRACS membership. Therefore, at least initially, some members may be appointed under this announcement to a one-year term of office.

Qualified individuals interested in serving on this committee are invited to apply to FTA for appointment. Nominations are sought from highly qualified individuals and should possess demonstrable expertise in the field of safety and/or rail transit operations/maintenance or represent stakeholder interests that would be affected by rail transit safety requirements. Nominees will also be evaluated based on the following factors: policy experience, leadership and organizational skills, region of

country represented, and diversity characteristics. Each nomination should include: proposed committee member's name and organizational affiliation, a cover letter describing the nominee's qualifications or interest in serving on the committee, a curriculum vitae or resume of the nominee's qualifications, and whether the nominee would like to be considered for a one year or two year term. Self-nominations are acceptable and each submission should include the following contact information: nominee's name, address, phone number, fax number, and e-mail address. FTA prefers electronic submission for all applications to TRACS@dot.gov. Applications will also be accepted via U.S. mail at the address identified in the **FOR FURTHER INFORMATION CONTACT** section of this notice. All applications must be submitted by February 26, 2010. Finally, in furtherance of the President's efforts to reduce the influence of special interests in Washington, we are interested in keeping TRACS free of individuals who currently are registered Federal lobbyists.

The TRACS will meet approximately twice a year, usually in Washington, DC, but may meet more often if the need arises. Members serve at their own expense and receive no salary, or other compensation from the Federal Government. FTA retains authority to review the participation of any TRACS member and to recommend changes at any time. TRACS meetings will be open to the public and one need not be a member to attend. Interested individuals may view the charter for TRACS at <http://fta.dot.gov>. The Secretary of Transportation expects to make final decisions regarding committee membership by April 30, 2010.

Issued this 27th day of January 2010 in Washington, DC.

Peter Rogoff,
Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Public Notice for Waiver of Aeronautical Land-Use Assurance; Indianapolis International Airport, Indianapolis, IN

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of intent of waiver with respect to land.

SUMMARY: The Federal Aviation Administration (FAA) is considering a proposal to change a portion of the airport from aeronautical use to non-aeronautical use and to authorize the release of 13.992 acres of vacant airport property for highway development. The land consists of portions of eight original airport acquired parcels. These parcels were acquired under grants: FAAP 9-12-008-10, FAAP 9-12-008-12, ADAP 6-18-0038-01, ADAP 6-18-0038-02, AIP 3-18-0038-54 or without Federal participation. There are no impacts to the airport by allowing the Indianapolis Airport Authority to dispose of the property. The land is not needed for aeronautical use. Approval does not constitute a commitment by the FAA to financially assist in the sale or lease of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA.

In accordance with section 47107(h) of title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

DATES: Comments must be received on or before March 3, 2010.

ADDRESSES: Written comments on the Sponsor's request must be delivered or mailed to: Melanie Myers, Program Manager, Chicago Airports District Office, 2300 East Devon Avenue, Des Plaines, IL 60018.

FOR FURTHER INFORMATION CONTACT: Melanie Myers, Program Manager, Federal Aviation Administration, Great Lakes Region, Chicago Airports District Office, CHI-ADO 609, 2300 East Devon Avenue, Des Plaines, IL 60018 Telephone Number (847-294-7525)/ FAX Number (847-294-7046).

Documents reflecting this FAA action may be reviewed at this same location or at Indianapolis International Airport, Indianapolis, Indiana.
