Section 215 of Division G, Title II of Public Law 108–199, enacted January 23, 2004 (HUD’s 2004 Appropriations Act) amended section 224 of the Act, to change the debenture interest rate for purposes of calculating certain insurance claim payments made in cash. Therefore, for all claims paid in cash on mortgages insured under section 203 or 234 of the National Housing Act and endorsed for insurance after January 23,

2004, the debenture interest rate will be the monthly average yield, for the month in which the default on the mortgage occurred, on United States Treasury Securities adjusted to a constant maturity of 10 years, as found in Federal Reserve Statistical Release H–15. The Federal Housing Administration has codified this provision in HUD regulations at 24 CFR 203.405(b) and 24 CFR 203.479(b).

Section 221(g)(4) of the Act provides that debentures issued pursuant to that paragraph (with respect to the assignment of an insured mortgage to the Secretary) will bear interest at the “going Federal rate” in effect at the time the debentures are issued. The term “going Federal rate” is defined to mean the interest rate that the Secretary of the Treasury determines, pursuant to a statutory formula based on the average yield on all outstanding marketable Treasury obligations of 8- to 12-year maturities, for the 6-month periods of January through June and July through December of each year. Section 221(g)(4) is implemented in the HUD regulations at 24 CFR 221.255 and 24 CFR 221.790.

The Secretary of the Treasury has determined that the interest rate to be borne by debentures issued pursuant to section 221(g)(4) during the 6-month period beginning January 1, 2010, is 3 3/8 percent.

The subject matter of this notice falls within the categorical exemption from HUD’s environmental clearance procedures set forth in 24 CFR 50.19(c)(6). For that reason, no environmental finding has been prepared for this notice.

Assistant Secretary for Housing–Federal Housing Commissioner.

Information Collection Sent to the Office of Management and Budget (OMB) for Approval; Survey of National Wildlife Refuge Visitors

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) have sent an Information Collection Request (ICR) to OMB for review and approval. The ICR, which is summarized below, describes the nature of the collection and the estimated burden and cost. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: You must send comments on or before March 4, 2010.

ADDRESSES: Send your comments and suggestions on this information collection to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-5806 (fax) or OIRA_DOCKET@OMB.eop.gov (e-mail). Please provide a copy of your comments to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail) or hope_grey@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Hope Grey by mail or e-mail (see ADDRESSES) or by telephone at (703) 358–2482.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1018-NEW. This is a new collection.

Title: Survey of National Wildlife Refuge Visitors.

Service Form Number(s): None.

Type of Request: New.

Affected Public: Visitors to national wildlife refuges.

Respondent’s Obligation: Voluntary.

Frequency of Collection: One time.

Activity	Number of annual respondents	Number of annual responses	Completion time per response	Annual burden hours
Initial Contact Onsite	12,500	12,500	2 minutes	417
Visitor Survey	10,000	10,000	25 minutes	4,167
Nonresponse Bias Check Survey	750	750	5 minutes	63
Totals	23,250	23,250	4,647

Abstract: We have contracted with the U.S. Geological Survey (USGS) to conduct a survey of national wildlife refuge visitors so that we can better understand their recreational, educational, and information experiences. The Policy Analysis and Science Assistance Branch of the USGS will conduct the survey onsite at approximately 75 national wildlife refuges nationwide. Respondents will have the option to return the survey by mail or to complete it online.

We will use this survey to measure visitor satisfaction with current visitor services and facilities and their desire for future services and facilities. Information from this survey will provide refuge managers, planners, and visitor services professionals with scientifically sound data that can be used to:

- Prepare conservation planning documents,
 - Improve the design of visitor facilities,
 - Tailor visitor services and facilities to match visitor interests and needs,
 - Better protect refuge resources by combining this data with biological data, and
 - Understand the economic impact of visitors to the local community.
- Additionally, this survey can target public access and transportation planning issues related to wildlife-oriented recreational opportunities such as automobile tour routes, trails, parking lots, and roads.

Comments: On February 3, 2009, we published in the **Federal Register** (74 FR 5940) a notice of our intent to request that OMB approve this information collection. In that notice, we solicited comments for 60 days, ending on April 6, 2009. We received three comments and addressed them as follows:

Comment: One commenter requested that the survey include questions on:

- Whether the visitor is a consumptive or nonconsumptive wildlife user,
- What activities visitors do on national wildlife refuges,
- Whether or not visitors are aware that hunting and trapping are allowed on national wildlife refuges,
- Appropriateness of allowing sport hunting and trapping on national wildlife refuges, and
- Compatibility of sport hunting and trapping to the purpose of national wildlife refuges.

Response: The survey contains questions that directly address the first two issues. Measuring public understanding or perceptions about the appropriateness of hunting on national wildlife refuges is not an objective of

this study. However, the survey asks visitors to rate the importance of and their satisfaction with a list of uses and services provided on refuges, including hunting. The survey also provides an opportunity for visitors to express their opinions or concerns concerning national wildlife refuge policies (such as hunting and trapping on refuges).

Comment: The commenter stated that we have conducted this survey every 5 years and that is enough. The commenter also stated opposition to hunting.

Response: We believe the commenter is referring to the National Survey of Fishing, Hunting and Wildlife-Associated Recreation. That survey is of the general public and asks questions about activities on all types of lands (Federal, State, local, and private). The proposed survey is of visitors to national wildlife refuges only. Responses to questions on the proposed survey will help us better manage national wildlife refuges.

Comment: We received a request for a copy of the survey instrument and information on sampling frames.

Response: The USGS provided a copy of the draft survey instrument and a description of the sampling frames.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.
