

2010-0006) to submit or view comments and to view supporting and related materials available electronically.

• **Postal Mail/Commercial Delivery:** Please send two copies of your comment to Docket No. APHIS-2010-0006, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2010-0006.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at (<http://www.aphis.usda.gov>).

FOR FURTHER INFORMATION CONTACT: For information on regulations for the commercial transportation of equines to slaughtering facilities, contact Mr. Joseph Astling, Compliance Specialist, Animal and Plant Health Inspection Service, 4700 River Road Unit 33, Riverdale, MD 20737; (817) 247-3704. For copies of more detailed information on the information collection, contact Mrs. Celeste Sickles, APHIS' Information Collection Coordinator, at (301) 851-2908.

SUPPLEMENTARY INFORMATION:

Title: Commercial Transportation of Equines for Slaughter.

OMB Number: 0579-0160.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Federal Agriculture Improvement and Reform Act of 1996 ("the Farm Bill"), Congress gave responsibility to the Secretary of Agriculture to regulate the commercial transportation within the United States of equines for slaughter. Sections 901-905 of the Farm Bill (7 U.S.C. 1901 note) authorized the Secretary to issue guidelines for the regulation of commercial transportation of equines for slaughter by persons regularly engaged in that activity within the United States. As a result of that authority, the Animal and Plant Health Inspection Service, U.S. Department of Agriculture, established regulations in 9 CFR part 88, "Commercial Transportation of Equines for Slaughter."

The minimum standards cover, among other things, the food, water, and

rest provided to such equines. The regulations require the owner/shipper of the equines to take certain actions in loading and transporting the equines and to certify that the commercial transportation meets certain requirements. Our regulations prohibit the commercial transportation to slaughter facilities of equines considered to be unfit for travel, the use of electric prods on such animals in commercial transportation to slaughter, and the use of double-deck trailers for commercial transportation of equines to slaughtering facilities.

These regulations require the use of two information collection activities: (1) The preparation of an owner-shipper certificate for each equine transported to slaughter and (2) the collection of business information from any individual or other entity found to be transporting horses to a slaughtering facility.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.388552238 hours per response.

Respondents: Owners and shippers of slaughter horses; owners/operators of slaughtering facilities; drivers of transport vehicles.

Estimated annual number of respondents: 300.

Estimated annual number of responses per respondent: 22.333333.

Estimated annual number of responses: 6,700.

Estimated total annual burden on respondents: 2,603 hours. (Due to

averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 3rd day of February 2010.

Kevin Shea

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-S

DEPARTMENT OF AGRICULTURE

Forest Service

Dixie National Forest, UT, Kitty Hawk Administrative Site Master Development Plan

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to Prepare an Environmental Impact Statement.

SUMMARY: The USDA Forest Service will prepare an Environmental Impact Statement (EIS) to analyze the master development plan for the Kitty Hawk Forest Service Administrative Site within the city limits of Cedar City, Utah. The site is administered by the Cedar City Ranger District, Dixie National Forest, Utah. The agency gives notice of the full environmental analysis and decision-making process that will occur on the proposal so that interested and affected people may become aware of how they can participate in the process and contribute to the final decision.

DATES: Comments concerning the scope of the analysis must be received by thirty days after publication of this Notice of Intent in the **Federal Register**. The draft environmental impact statement is expected in May, 2010. The final environmental impact statement is expected in September, 2010.

ADDRESSES: Send written comments to: Kitty Hawk Administrative Site Master Development Plan Analysis Coordinator, Cedar City Ranger District, Dixie National Forest, 1789 Wedgewood Lane, Cedar City, Utah 84721. Electronic comments must be submitted in rich text format (.rtf), or Word (.doc) to comments-intermtn-dixie@fs.fed.us.

FOR FURTHER INFORMATION CONTACT: Kitty Hawk Administrative Site Master Development Plan Analysis Coordinator, Cedar City Ranger District, Dixie National Forest, 1789 Wedgewood Lane, Cedar City, Utah 84721.

SUPPLEMENTARY INFORMATION: The 14-acre Kitty Hawk Administrative Site is located in Cedar City at 1750 West Kitty Hawk Drive. The site is owned by the USDA-Forest Service and jointly occupied by the Dixie National Forest, the USDI-Bureau of Land Management Cedar City District Office and the USDI-National Park Service. The site is zoned as I&M1 (Industrial and Manufacturing). Management of the site is in compliance with City zoning as well as State and Federal regulations regarding administrative sites. The site has been developed over the past 30 years and currently has four permanent buildings, several parking areas, several sheds for equipment storage and open areas designated for a variety of vehicle and equipment storage.

Recent review indicates the need for a Master Development Plan to guide future development of the site. Preliminary analysis found that the presence of Utah prairie dogs (a Threatened species) on the site warranted an environmental impact statement of the new Master Development Plan.

The Proposed Action is a Master Development Plan (MDP) for the existing 14-acre administrative site. The MDP will detail planned facilities, other development and uses for the site into the foreseeable future.

Existing facilities include an Interagency Fire Center, Fire Cache, Old Fire Center/Future Building Pad and Fire Engine Building.

New facilities to be constructed include additions to the Interagency Fire Center, five new buildings (engine building, vehicle wash, HAZMAT storage, maintenance shop and equipment building).

Part of the site will be hardened for outside storage for ATV's, equipment, and supplies. Six large parking lots will also be developed.

Possible Alternatives: Two or more alternatives will be considered in the analysis. No action. Under this alternative, the existing administrative site will remain with no further development. This alternative will be fully evaluated and described.

Proposed Action (as described above).

Additional Alternatives—Additional alternatives may be developed in response to issues and resource conditions evaluated through the analysis.

Responsible Official: The responsible official for this EIS and the Record of Decision is: Robert G. MacWhorter, Forest Supervisor, Dixie National Forest, 1789 Wedgewood Lane, Cedar City, Utah 84721; FAX: (435) 865-3791.

Nature of Decision To Be Made: The Responsible Official will decide whether the proposed Master Development Plan would be adopted and the site developed accordingly.

Scoping Process: Public participation was initiated through scoping in December, 2009. A scoping notice was sent to individuals and organizations who are potentially affected parties and those that have expressed interest in projects. Comments and issues were received in response to scoping.

Scoping will continue. Public participation is especially important during scoping and review of the draft EIS. Individuals, organizations, Federal, State, and local agencies who are interested in or affected by the decision are invited to participate in the scoping process. This information will be used in the preparation of the draft EIS.

Preliminary Issue. The following issue was identified through public scoping and internal resource analyses:

The site has Utah prairie dog habitat and a colony of prairie dogs. This is a Threatened species listed under the Endangered Species Act. Consultation with the U.S. Fish and Wildlife Service have concluded that the prairie dog habitat will be adversely affected by the planned developments. Mitigation for the habitat loss will be developed during further consultation with USFWS.

Comments Requested. Comments will continue to be received and considered throughout the analysis process. Comments received in response to this notice and through scoping, including names and addresses of those who comment, will be considered part of the public record of this proposed action and will be available for public inspection. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The draft EIS is

expected to be filed with the EPA (Environmental Protection Agency) and to be available for public review. At that time the EPA will publish a notice of availability of the draft EIS in the **Federal Register**. The comment period for the draft environmental impact statement will be forty-five days from the date the EPA's notice of availability appears in the **Federal Register**. Comments on the draft EIS should be as specific as possible and may address the adequacy of the statement or the merits of the alternatives discussed (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points).

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could have been raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel* (9th Circuit, 1986), and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at the time it can meaningfully consider them and respond to them in the final environmental impact statement. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Parts 215. To assist the Forest Service in identifying and considering issues and concerns about the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the statement or the merits of the alternatives formulated and

discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

In the final EIS, the Forest Service is required to respond to substantive comments and responses received during the comment period that pertain to the environmental consequences discussed in the draft EIS and applicable laws, regulations, and policies considered in making a decision regarding the proposal. The Responsible Official will document the decision and rationale for the decision in a Record of Decision. The final EIS is scheduled for completion in September, 2010. The decision will be subject to review under Forest Service Appeal Regulations.

Dated: January 29, 2010.

Robert G. MacWhorter,

Forest Supervisor, Dixie National Forest.

Ouachita-Ozark Resource Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Meeting notice for the Ouachita-Ozark Resource Advisory Committee under Section 205 of the Secure Rural Schools and Community Self Determination Act of 2000, as part of Public Law 110-343.

SUMMARY: This notice is published in accordance with section 10(a)(2) of the Federal Advisory Committee Act. Meeting notice is hereby given for the Ouachita-Ozark Resource Advisory Committee pursuant to Section 205 of the Secure Rural Schools and Community Self Determination Act of 2000 as part of Public Law 110-343. Topics to be discussed include: General information, proposals, updates on current or completed Title II projects, and next meeting agenda.

DATES: The meeting will be held on March 2, 2010, beginning at 5:45 p.m. and ending at approximately 9 p.m.

ADDRESSES: The meeting will be held at the Janet Huckabee Arkansas River Valley Nature Center, 8300 Wells Lake Road, Barling, Arkansas.

FOR FURTHER INFORMATION CONTACT: Caroline Mitchell, Committee Coordinator, USDA, Ouachita National

Forest, P.O. Box 1270, Hot Springs, AR 71902. (501-321-5318).

SUPPLEMENTARY INFORMATION: The meeting is open to the public. Committee discussion is limited to Forest Service staff, Committee members, and elected officials. However, persons who wish to bring matters to the attention of the Committee may file written statements with the Committee staff before or after the meeting. Individuals wishing to speak or propose agenda items must send their names and proposals to Bill Pell, DFO, P.O. Box 1270, Hot Springs, AR 71902.

Dated: February 3, 2010.

Bill Pell,

Designated Federal Official.

BILLING CODE 3410-52-M

DEPARTMENT OF COMMERCE

National Telecommunications and Information Administration

[Docket No. 0907141137-0079-07]

RIN 0660-ZA28

Broadband Technology Opportunities Program

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice announcing OMB approval of an information collection and publication of an OMB Control Number.

SUMMARY: The National Telecommunications and Information Administration (NTIA) announces that the Office of Management and Budget (OMB) has approved the collection of information contained in the Notice of Funds Availability (NOFA) for the Broadband Opportunities Program (BTOP) published on January 22, 2010.

FOR FURTHER CONTACT INFORMATION: For general inquiries regarding BTOP, contact Anthony Wilhelm, Director, BTOP, Office of Telecommunications and Information Applications, National Telecommunications and Information Administration, U.S. Department of Commerce (DOC), 1401 Constitution Avenue, NW., HCHB, Room 4887, Washington, DC 20230; Help Desk e-mail: BroadbandUSA@usda.gov, Help Desk telephone: 1-877-508-8364. Additional information regarding BTOP may be obtained at <http://www.ntia.doc.gov/broadbandgrants/>.

SUPPLEMENTARY INFORMATION: On January 22, 2010, NTIA published a

Notice of Funds Availability (NOFA) (75 FR 3792) announcing general policy and application procedures for the Broadband Technology Opportunities Program (BTOP) established pursuant to the American Recovery and Reinvestment Act of 2009 (ARRA). In this second round of funding, NTIA will award grants in three categories of eligible projects: Comprehensive Community Infrastructure (CCI), Public Computer Centers (PCC), and Sustainable Broadband Adoption (SBA).

The application requirements for the BTOP contained in the NOFA are an information collection subject to the requirements of the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501 *et seq.*). However, NTIA indicated in the NOFA that the information collection associated with BTOP had not yet been approved by OMB and that it would publish a subsequent notice in the **Federal Register** when that event occurred.

By this notice, NTIA announces that OMB approved the amendment to the information collection approved under OMB Control Number 0660-0031. The expiration date for this information collection is July 31, 2010. This collection of information was approved by OMB in accordance with the emergency processing provisions under 5 CFR 1320.13 to allow NTIA to fulfill its ARRA requirements. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information subject to the Paperwork Reduction Act unless that collection displays a currently valid OMB Control Number.

Dated: February 5, 2010.

Kathy D. Smith,

Chief Counsel, National Telecommunications and Information Administration.
