SUPPLEMENTARY INFORMATION:

OMB Control No: 3060-1128.

Title: National Broadband Plan Survey of Consumers.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; business or other for-profit.

Number of Respondents: 5,100 respondents; 5,100 responses.

Estimated Time Per Response: .33 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Voluntary. Statutory authority for this collection of information is contained in the Broadband Data Improvement Act of 2008, Pub. L. No. 110-385 and the American Recovery and Reinvestment Act of 2009, Pub. L. No. 111-5.

Total Annual Burden: 1,683 hours.

Privacy Act Impact Assessment: No personally identifiable information will be transmitted to the Commission from the survey contractor as a matter of vendor policy.

Nature and Extent of Confidentiality: There is no need for confidentiality.

Need and Uses: The Commission requested emergency OMB approval in October 2009 for this information collection which is only granted for six months. The Commission is now seeking an extension in order to obtain the full three year clearance from the OMB. There is no change in the reporting requirements. There is no change to the Commission's burden estimates.

This collection of information will be accomplished through a national telephone survey of 5,000 consumers and face-to-face workshops with approximately 100 individuals throughout the United States. Consistent with one of the key reasons for this information collection, workshop participants will be non-adopters of broadband. The reason for holding these workshops is to elicit more in-depth responses from individuals to the questions being asked of non-adopters in the telephone survey. The workshops will add a narrative dimension to the reasons for non-adoption to the statistical information being collected in the telephone survey.

The Commission's Office of Strategic Planning and Policy Analysis will use

the information collected under this survey to help determine the extent of broadband Internet adoption, and use the data to inform policy recommendations under the National Broadband Plan. Information on consumers without broadband Internet at home will be used to carefully identify the nature and extent of the problem and use to develop policy recommendations through the National Broadband Plan which is due to congress on March 17, 2010.

Federal Communications Commission.
