SUPPLEMENTARY INFORMATION: Effective July 1, 2007, the Federal Highway Administration (FHWA) assigned, and the California Department of Transportation (Caltrans) assumed, environmental responsibilities for this project pursuant to 23 U.S.C. 327. Notice is hereby given that the Caltrans has taken final agency actions subject to 23 U.S.C. 139(I)(1) by issuing licenses, permits, and approvals for the following highway project in the State of California: The Golden Gate Bridge Physical Suicide Deterrent System on US Route 101 at the San Francisco/Marin County line. The purpose of the project is to consider a physical suicide deterrent system on the Golden Gate Bridge (Bridge) that reduces the number of injuries and deaths associated with individuals jumping off the Bridge. The specific need for the project stems from the fact that the 4-foot height of the outside handrail does not sufficiently deter individuals, who are not using the sidewalk for its intended purposes, from climbing over the outside handrail. There is no other physical barrier beyond the outside handrail preventing an individual from jumping once the outside handrail is scaled.

The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Environmental Assessment (EA)/ Finding of No Significant Effect (FONSI) for the project, approved on January 19th, 2010. The EA/FONSI and other documents are available by contacting Caltrans at the addresses provided above. The EA/FONSI and other documents can also be viewed and downloaded from the project Web site at: <http://www.gbsuicidebarrier.org>.

This notice applies to all Federal agency decisions as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to:

1. National Environmental Policy Act of 1969 (NEPA) [42 U.S.C. 4321–4351];
2. Federal Aid Highway Act [23 U.S.C. 109 & 128];
3. Section 4(f) of the Department of Transportation Act of 1966 [23 CFR, 774];
4. Air Quality Conformity Determination [40 CFR 93.126];
5. Federal Endangered Species Act of 1973 [16 U.S.C. 1531–1544]; and
6. National Historic Preservation Act of 1966 [16 U.S.C. 470].

regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Authority: 23 U.S.C. 139(I)(1).

Drake Switching Company, LLC (DSC), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to operate approximately 4.12 miles of rail lines, located near Drake, Yavapai County, AZ, as follows: (1) A railroad yard consisting of six tracks (Tracks A–F) totaling approximately 3.46 miles (the Yard); and (2) two tracks (Track G and H) that extend approximately 0.66-miles, between Track C in the Yard and the facilities to be owned and operated by Drake Cement, LLC.¹

¹ Drake Cement, LLC filed a verified notice of exemption to acquire these track in STB Finance Docket No. 35350, *Drake Cement, LLC—Acquisition Exemption—Clarkdale Arizona Central Railroad, LLC*.

DSC certifies that the projected annual revenues as a result of the proposed transaction will not exceed those that would qualify it as a Class III carrier.

DSC states that it expects the transaction to be consummated no earlier than 30 days after the filing of the notice. The earliest this transaction can be consummated is March 4, 2010, the effective date of the exemption (30 days after the exemption was filed).

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Stay petitions must be filed no later than February 25, 2010 (at least 7 days before the exemption becomes effective).

[Docket No. FAA-2010-0109]

Petition for Waiver of the Terms of the Order Limiting Scheduled Operations at LaGuardia Airport

ACTION: Notice of a petition for waiver and solicitation of comments on grant of petition with conditions.

SUMMARY: Delta Air Lines and US Airways submitted a joint waiver request from the prohibition on purchasing operating authorizations ("slots" or "slot interests") at LaGuardia Airport (LGA). The carriers requested the waiver to allow them to consummate a transaction in which Delta would transfer 42 pairs of slot interests to US Airways at Ronald

Reagan Washington National Airport (DCA), international route authorities to São Paulo and Tokyo; and terminal space at the Marine Air Terminal at LGA. US Airways would transfer 125 pairs of slot interests to Delta at LGA, and would lease an additional 15 pairs of LGA slot interests with a purchase option, together with terminal space in LGA's Terminal C. We have evaluated the proposed transaction and tentatively determined that, while the proposed transaction has a number of benefits, a grant of the waiver in its entirety would result in a substantial increase in market concentration that would harm consumers. Accordingly, while we have tentatively decided to grant Delta Air Lines' and US Airways' joint waiver request in part, we have tentatively determined that the public interest would best be served by creating new and additional competition at the airports to counterbalance the potential harm to consumers. To achieve that goal, our proposed waiver would require the divestiture of 14 pairs of slot interests at DCA and 20 pairs of slot interests at LGA to new entrant and limited incumbent carriers.

DATES: Comments on the FAA's proposed grant of the petition for waiver with conditions must clearly identify the docket number and must be received on or before March 22, 2010.

FOR FURTHER INFORMATION CONTACT: Rebecca MacPherson, Assistant Chief Counsel for Regulations, by telephone at (202) 267-3073 or by electronic mail at Rebecca.macpherson@faa.gov.

SUPPLEMENTARY INFORMATION: The FAA currently limits the number of scheduled and unscheduled operations during peak hours at LaGuardia Airport by virtue of an order that the FAA published in December 2006 and subsequently amended (Order).¹ The High Density Rule (HDR)² limits scheduled and unscheduled operations at Ronald Reagan Washington National Airport. Because of the operating limitations, slots at LaGuardia and at Reagan National Airports are a scarce resource.

Two air carriers, Delta and US Airways, have proposed an exchange of slot interests at these two airports.³ This exchange, which could potentially impact as many as 182 round-trip operations⁴ at the two airports, would qualify as a purchase under both the Order and the HDR.⁵ The carriers consider the slot interest exchanges to be part of an integrated transaction because the sale of US Airways' slot interests to Delta at LGA is conditioned upon the purchase by US Airways of Delta's slot interests at DCA.

The Order currently does not allow for the purchase and sale of slot interests at LaGuardia. Instead, it contains a provision that limits carriers

¹ Operating Limitations at New York LaGuardia Airport, 71 FR 77,854 (Dec. 27, 2006); 72 FR 63,224 (Nov. 8, 2007) (transfer, minimum usage, and withdrawal amendments); 72 FR 48,428 (Aug. 19, 2008) (reducing the reservations available for unscheduled operations); 74 FR 845 (Jan. 8, 2009) (extending the expiration date through Oct. 24, 2009); 74 FR 2,646 (Jan. 15, 2009) (reducing the peak-hour cap on scheduled operations to 71); 74 FR 51,653 (Oct. 7, 2009) (extending the expiration date through Oct. 29, 2011).
