SUPPLEMENTARY INFORMATION:

Additions

On 12/18/2009 (74 FR 67176-67177), the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed additions to the Procurement List.

Comments were received from the incumbent contractor indicating that adding Warehouse—Receiving & Distribution Services to the Procurement List would result in negative economic and business impact to its company. The contractor also commented that it has worked in partnership with the government for over nine years to provide consistently excellent service, innovation and best value. Finally, the contractor questioned the qualifications and capabilities of persons with certain disabilities to perform some of the functions of this service.

The Committee for Purchase From People Who Are Blind or Severely Disabled (Committee) operates pursuant to statutory and regulatory requirements. Committee decisions on what items are suitable for addition to the Procurement List are specifically

guided by regulations in 41 CFR Chapter 51. The Committee regulation states that for a commodity or service to be suitable for addition to the Procurement List each of the following criteria must be satisfied: Employment potential; nonprofit agency qualifications, capability, and level of impact on the current contractor for the commodity or service.

The Committee, as an independent federal agency, is responsible for implementing the Javits-Wagner-O'Day Act. In accordance with the Act and the Code of Federal Regulations, the Committee determines which products and services produced and/or provided by nonprofit agencies employing people who are blind or with other severe disabilities are suitable for procurement by the government. The members independently consider and appropriately decide whether each product or service meets its established criteria for addition to the Procurement List. While the incumbent contractor has stated that this addition would result in adverse impact to his company, the evaluation by the Committee had determined that it would not result in severe adverse financial impact. The Committee has also determined that the nonprofit agency—and its employees—is capable and qualified to provide the service to the government. Therefore, in this situation, all four criteria have been evaluated by the Committee and the service has been determined to be suitable for addition to the Procurement List.

The Committee appreciates the struggle of small business at the local level to maintain training and employment opportunities. However, the obligation of the Committee is to focus on increasing opportunities for nonprofit agencies employing people who are blind or with other severe disabilities.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the products and services and impact of the additions on the current or most recent contractors, the Committee has determined that the products and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or

other compliance requirements for small entities other than the small organizations that will furnish the products and services to the Government.

2. The action will result in authorizing small entities to furnish the products and services to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the products and services proposed for addition to the Procurement List.

End of Certification

Accordingly, the following products and services are added to the Procurement List:

Department of the Army; Corps of Engineers

Notice of Availability for a Draft General Conformity Determination for the Pacific L.A. Marine Terminal LLC Crude Oil Terminal Project, Port of Los Angeles, Los Angeles County, CA

AGENCY: Department of the Army—U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: In November 2008, the Los Angeles Harbor Department (LAHD) and the U.S. Army Corps of Engineers, Los Angeles District, Regulatory Division (Corps) published a joint Final Supplemental Environmental Impact Statement and Subsequent Environmental Impact Report (SEIS/SEIR) for the development of a marine oil terminal at Berth 408 on Pier 400 in the Port of Los Angeles, Los Angeles County, California (Project). The Corps is currently processing a permit application submitted by the LAHD to undertake various activities and construct structures in and over navigable waters of the U.S. associated with the Project. Issuance of a Corps permit is a Federal action, which must

comply with the air quality general conformity requirements specified in Section 176(c) of the Clean Air Act.

The general conformity regulations (40 CFR part 93, subpart B) allow general conformity determinations to be included in an EIS, but inclusion of these determinations is not required and can be separately noticed as it is in this case. The draft general conformity determination for the Federal action associated with the Project is available for public review during the next 30 days at the Los Angeles Harbor Department, 425 South Palos Verdes Street, San Pedro, California, on the Port's Web site: <http://www.portoflosangeles.org>, and on the Corps' Web site: <http://www.spl.usace.army.mil/regulatory/POLA.htm> (scroll down to the links under Pier 400 Crude Oil Marine Terminal). In addition, it is available at the following libraries: L.A. Public Library, Central Branch, 630 West 5th Street, Los Angeles California; L.A. Public Library, San Pedro Branch, 921 South Gaffey Street, San Pedro, California; and L.A. Public Library, Wilmington Branch, 1300 North Avalon, Wilmington, California.

Any comments received by the Corps on the draft general conformity determination during the next 30 days will be considered fully before the Corps makes a final general conformity determination and finalizes the Record of Decision (ROD) for the Federal action associated with the Project. The Corps will publish a notice of a final general conformity determination in the **Federal Register** within 30 days of rendering a final decision. The public can request from the Corps copies of the ROD, which includes responses to comments on the Final SEIS and draft general conformity determination, following publication of a final general conformity determination and upon execution of the ROD.

FOR FURTHER INFORMATION CONTACT:

Questions or comments concerning the draft general conformity determination should be directed within the next 30 days to Dr. Spencer D. MacNeil, Senior Project Manager, North Coast Branch, Regulatory Division, U.S. Army Corps of Engineers, 2151 Alessandro Drive, Suite 110, Ventura, California 93001, (805) 585–2152.

SUPPLEMENTARY INFORMATION: None.

David J. Castanon,

Chief, Regulatory Division, Los Angeles District.

Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the State of Alaska's Proposed Alaska Stand Alone Pipeline (ASAP) Natural Gas Transportation Pipeline

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of Intent; Extension of scoping period.

SUMMARY: In December 4, 2009, issue of the **Federal Register** (74 FR 63736), the Alaska District, U.S. Army Corps of Engineers (Corps), published a Notice of Intent to prepare a Draft Environmental Impact Statement (DEIS) to identify and analyze the potential impacts associated with the construction of the proposed Alaska Stand Alone Pipeline (ASAP) natural gas transportation pipeline. In that notice, the Alaska District stated that the scoping period would end on February 5, 2010. In response to several requests, the Alaska District has decided to extend the scoping period to March 8, 2010.
