

Commission set a bond of five percent of entered value of accused products imported during the period of Presidential review.

On October 30, 2009, SCT and Barber ("SCT-Barber") filed a joint petition for review of the final ID. Tianrui filed a petition for review on November 2, 2009, and complainant Amsted filed a contingent petition for review that same day. Amsted filed responses to SCT-Barber's and Tianrui's petitions on November 9 and 10, respectively, and SCT-Barber and Tianrui filed their responses to Amsted's petition on November 10. The Commission investigative attorneys ("IAs") filed responses to the various petitions for review on November 10. The IAs did not petition for review of the ID.

On December 17, 2009, the Commission determined not to review the ID and requested briefing on remedy, the public interest, and bonding. 74 FR 68282-83 (Dec. 23, 2009). On December 29, 2009, the parties submitted written submissions on the issues for which the Commission requested further briefing, and submitted replies to the written submissions on January 6, 2010.

Having reviewed the record in this investigation, including the ID and the parties' written submissions, the Commission has determined that the appropriate remedy is a limited exclusion order lasting a period of ten (10) years as well as cease and desist orders, lasting the same period, directed to Respondents. The limited exclusion order prohibits the entry of cast steel railway wheels and products containing same, manufactured using any of the asserted ABC Trade Secrets by or on behalf of, or imported by or on behalf of, Respondents, or any of their affiliated companies, parents, subsidiaries, or other related business entities, or their successors or assigns, for consumption in the United States. The cease and desist orders prohibit Respondents from importing, selling, marketing, advertising, distributing, offering for sale, transferring (except for exportation), soliciting U.S. agents or distributors, or aiding or abetting other entities in the importation, sale for importation, sale after importation, transfer (except for exportation), or distribution of cast steel railway wheels and products containing the same manufactured using any of the asserted ABC Trade Secrets.

The Commission further determines that the public interest factors enumerated in section 337(d) and (f) (19 U.S.C. 1337(d), (f)) do not preclude issuance of the limited exclusion order. Finally, the Commission determines

that a bond of five percent of the entered value is required to permit temporary importation during the period of Presidential review (19 U.S.C. 1337(j)) of cast steel railway wheels and products containing the same that are subject to the order. The Commission's order and opinion were delivered to the President and to the United States Trade Representative on the day of their issuance.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in sections 210.50 of the Commission's Rules of Practice and Procedure, 19 CFR 210.50.

Issued: February 16, 2010.

By order of the Commission.

Secretary to the Commission.
