

B. The Petition

The Petition seeks to broaden the filing exemption to cover those instances where an NVOCC has individually negotiated rates with its shipping customers and memorialized those rates in writing.⁹ In other words, while the NSA rule exempts formal contracts from tariff publication and enforcement requirements, the Petition's request would cover short-term "spot market" rate agreements between NVOCCs and shippers, by far the most common transaction for NVOCCs. Other parties interested in this proceeding have submitted comments requesting that the Commission further expand the requested exemption to apply to service terms negotiated in conjunction with rates (*i.e.*, vessel capacity, cargo loss and damage rules, equipment needs and delivery requirements).

C. The Department Supports the Petition

The proposed elimination of the NVOCC tariff publication requirements is an appropriate exercise of the Commission's exemption authority under 46 U.S.C. 40103(a), which allows the Commission to exercise its exemption authority if the exemption "will not result in a substantial reduction in competition or be detrimental to commerce." That standard is clearly met here.

As the Department explained in prior comments, "exempting all NVOCCs from all tariff publication requirements would produce the greatest competitive benefits."¹⁰ Even the more limited approach set-forth in the Petition would create important benefits. The current tariff filing requirement hampers an NVOCC's ability to respond quickly in the marketplace. The proposed exemption will allow NVOCCs to be more flexible in a dynamic contractual environment, thereby allowing them to be more responsive to their shippers' needs. It would likely promote competition and commerce by eliminating substantial regulatory costs to NVOCCs, a savings that could be

⁹ The proposed exemption would incorporate the following principles: (1) The exemption would be voluntary, (2) the exemption would apply only to rate tariffs, not rules tariffs, (3) disputes concerning negotiated rates would be governed solely by contract law, (4) NSAs would continue to be filed with the FMC and NSA essential terms would continue to be published, (5) all negotiated rates would be required to be memorialized in writing, (6) the FMC would retain access to the negotiated agreements and any underlying written communications, (7) the exemption would not be construed to convey antitrust immunity to NVOCCs, and (8) the exemption would only apply to licensed or registered NVOCCs. passed on to its shipper customers in the form of lower shipping rates.

The costs associated with the tariff publication requirement greatly exceed any benefits. As the NCBFAA noted, tariffs are rarely, if ever, reviewed or consulted by shippers to determine ocean shipping rates.¹¹ When even the purported beneficiaries of tariff publication requirements find little value in them, the cost of requiring publication of those tariffs clearly exceeds any competitive or commercial benefits. Moreover, if tariff publications were of value to shippers, any NVOCC would remain free to publish them.

Conclusion

In conclusion, the Department supports the goal of the relief requested in the Petition to further exempt NVOCCs from tariff publishing and enforcement requirements.
