

Possible Alternatives

No Action alternative: The Forest Service would not approve the SUPO and the BLM would not approve the APD. Current direction would continue to guide management of the project area. The USA and State South Branch 1–8 well would not be drilled, no flow lines would be installed, and no production facility would be constructed.

Alternative 2: Modification of Savoy's Proposal—The Forest Service would approve the SUPO and the BLM would approve the APD subject to additional conditions of approval necessary for resource protection. Alternative 2 would be the same as the proposed action except with additional conditions of approval to the SUPO and APD based on mitigation developed to respond to the issues raised.

Lead and Cooperating Agencies

The BLM and the Forest Service entered into an Memorandum of Understanding (MOU) in April 2006 “to establish procedures for the coordinated administration of oil and gas operations on Federal leases within the National Forest System (NFS).” The MOU identifies the responsibilities of the agencies to provide efficient, effective adherence to rules and regulations for each. Specifically, the MOU states,

“111A3. * * * the Forest Service has the full responsibility and authority to approve and regulate all surface-disturbing activities associated with oil and gas exploration and development through analysis and approval of the SUPO component of an APD.” [VB] Forest Service will: Serve as lead agency for oil and gas * * * environmental analyses required for APD: * * *

“111A2. The BLM has the authority and responsibility to provide final approval of all APDs, including those for operations on Federal leases on NFS lands * * * The BLM has the authority and responsibility to regulate all down-hole operations and directly related surface activities and use, and provide approval of the drilling plan and final approval of the APD on NFS lands.”

This MOU is consistent with the NEPA regulations, 40 CFR 1501.5 Lead Agency and 1501.6 Cooperating Agencies, identifying the Forest Service as the lead agency and the BLM as the cooperating agency.

Responsible Official for Lead Agency

Barry Paulson, Forest Supervisor, Huron-Manistee National Forests, 1755 S. Mitchell Street, Cadillac, MI 49601.

Responsible Official for Cooperating Agency

Mark Storzer, Field Manager, Bureau of Land Management, Milwaukee Field Office, 626 E Wisconsin Ave. Suite 200, Milwaukee, WI 53202–46 17.

Nature of Decision To Be Made

The Forest Supervisor of the Huron-Manistee National Forests will issue a decision on whether to approve, approve subject to specified conditions, or disapprove for stated reasons, the proposed Surface Use Plan of Operations or development of the well and construction and operation of the flowline/pipeline and production facilities. Similarly, the BLM Field Manager in Milwaukee will issue a decision on whether to approve the Application for Permit to Drill as submitted, approve subject to appropriate modifications or conditions, or disapprove for stated reasons.

Preliminary Issues

We expect issues to include possible effects of noise, odor and changes to the visual quality from the project on anglers and visitors to the Semi-Primitive Nonmotorized area and Mason Tract, as well as the possible effects of the project on tourism in the county.

Permits and Licenses Required

Savoy will be required to obtain a State permit for drilling from the Michigan Department of Natural Resources and Environment.

Additionally, pursuant to 7 CFR 1.27(d), any persons may request the agency to withhold a submission from the public record by showing how the FOIA (Freedom of Information Act) permits such confidentiality. Persons requesting such confidentiality should be aware that under FOIA confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality and, should the request be denied, return the submission and notify the requester that the comments may be resubmitted with or without name and address within 90 days.
