Food and Drug Administration

[Docket No. FDA-2010-N-0080]

Device Improvements to Reduce Unnecessary Radiation Exposure From Medical Imaging; Public Meeting; Request for Comments

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of public meeting; request for comments.

The Food and Drug Administration (FDA) is announcing a public meeting entitled: "Device Improvements to Reduce Unnecessary Radiation Exposure From Medical Imaging." The purpose of this meeting is to discuss steps that could be taken by manufacturers of devices used in computed tomography (CT) and in fluoroscopy that would help reduce unnecessary patient exposure to ionizing radiation during CT and fluoroscopic procedures. FDA is seeking input on this topic and requests comments on a number of related questions.

Dates and Time: The public meeting will be held on March 30 and 31, 2010, from 8 a.m. to 5 p.m. Persons interested in attending and/or participating in the meeting must register by 5 p.m. on March 15, 2010. Submit written or electronic comments by April 15, 2010.

Location: The public meeting will be held at the Holiday Inn Gaithersburg, 2 Montgomery Village Ave., Gaithersburg, MD 20879. The meeting will not be videotaped or webcast.

Contact Person: Simon Choi, Food and Drug Administration, Center for Devices and Radiological Health, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 66, rm. 5400, Silver Spring, MD 20993-0002, 301-796-5426, e-mail: simon.choi@fda.hhs.gov.

Registration: If you wish to attend the public meeting, you must register by e-mailing CDRHimaginginitiative@fda.hhs.gov. Provide complete contact information for each attendee, including name, title, company or organization, address, e-mail, and telephone number. Registration requests must be received by March 15, 2010.

If you wish to make an oral presentation during any of the sessions at the meeting (see section II of this document, Public Meeting), you must indicate this at the time of registration. FDA has included specific questions for comment in section III of this document, Questions for Comment. You should also identify the session(s) during which you would like to present, as well as the question(s) you would like to address in each session. In order to keep each session focused on the topic at hand, presentations given during each session should address only the topic specified for that session. FDA will do its best to accommodate requests to speak. Individuals and organizations with common interests are urged to consolidate or coordinate their presentations, and to request time for a joint presentation. FDA will determine the amount of time allotted to each

presenter and the approximate time that each oral presentation is scheduled to begin.

If you would like to participate in any of the four planned roundtable discussions (see section II of this document, Public Meeting), you must indicate this interest at the time of registration, and also submit a brief statement that describes your experience with CT or fluoroscopic devices. FDA is seeking participants interested in engaging in one of four wrap-up roundtable discussions related to the presentations given during each of the earlier sessions of the meeting. Each roundtable discussion will include no more than 10 nonFDA participants. Only one participant from an organization or company will be assigned to each discussion group. FDA will attempt to have a range of constituencies represented in each discussion group. Others in attendance at the public meeting will have an opportunity to listen to each roundtable discussion.

Registration is free and will be on a first-come, first-served basis. Early registration is recommended because seating is limited. FDA may limit the number of participants from each organization based on space limitations. Registrants will receive confirmation once they have been accepted. Onsite registration on the day of the public meeting will be provided on a space-available basis beginning at 7 a.m.

If you need special accommodations due to a disability, please contact Simon Choi at 301-796-5426, simon.choi@fda.hhs.gov at least 7 days in advance of the meeting.

Comments: FDA is holding this public meeting to obtain information on a number of questions regarding steps manufacturers of CT and fluoroscopic devices could take to help reduce unnecessary patient exposure to ionizing radiation from these medical imaging modalities. The deadline for submitting comments related to this public meeting is April 15, 2010.

Regardless of attendance at the public meeting, interested persons may submit written or electronic comments. Submit written comments to the Division of Dockets Management (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852.
