

vessels were never accessioned. The unassociated funerary objects are two ceramic vessels.

The two unassociated funerary objects were determined to be affiliated with the Caddo Nation of Oklahoma. The style of the ceramic vessels is Caddo and dates to A.D. 1400–1600.

Officials of the Stephen F. Austin State University also have determined that, pursuant to 25 U.S.C. 3001 (3)(B), the 32 objects described are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Officials of the Stephen F. Austin State University also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary objects and the Caddo Nation of Oklahoma.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the unassociated funerary objects should contact Dr. Jerry Williams, Stephen F. Austin State University, P.O. Box 13047, SFA Station, Nacogdoches, TX 75962, telephone (936) 468–2306, before March 29, 2010. Repatriation of the unassociated funerary objects to the Caddo Nation of Oklahoma may proceed after that date if no additional claimants come forward.

Stephen F. Austin State University is responsible for notifying the Caddo Nation of Oklahoma that this notice has been published.

Dated: January 22, 2010

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: Stephen F. Austin State University, Nacogdoches, TX

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the control of Stephen F. Austin State University, Nacogdoches, TX. The human remains and associated funerary objects were removed from

Nacogdoches, Smith, and Titus Counties, TX.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains and associated funerary objects was made by the professional staff of Archeological & Environmental Consultants, LLC, under a sub-contract with the Historic Preservation Program of the Caddo Nation of Oklahoma, which was under contract with Stephen F. Austin State University.

In the early 1900s, human remains representing a minimum of one individual were recovered from Washington Square, now the Thomas Jefferson Rusk Elementary School, in Nacogdoches, Nacogdoches County, TX, by Captain H.H. Cooper, a private citizen. This area is now designated as the Washington Square Site (41NA49). In 1930, the human remains were donated to the Stone Fort Museum on the Stephen F. Austin State University campus, and moved to the repository of the anthropology lab some time after 1975. No known individual was identified. No associated funerary objects are present.

The human remains were determined to be affiliated with the Caddo Nation of Oklahoma because they were recovered from a large Caddo occupation site dating to approximately A.D. 1200–1400. The Washington Square Site (41NA49) is located on Mound Street in Nacogdoches, so named because of the numerous Caddo mounds that were at that location. In 1889, a Nacogdoches newspaper article states that, “. . . the bones of human beings are being found in almost every cart load of dirt . . .” (Star News Nacogdoches, May 31, 1889, vol. 14, no. 19).

Prior to 1990, human remains representing a minimum of one individual were removed from an airport west of Tyler in Smith County, TX, by “Red” McFarland, a private citizen. McFarland noted that two ceramic vessels were associated with the skull, however, currently the whereabouts of the two ceramic vessels is unknown. The human remains are located in the repository of the Stephen F. Austin State University anthropology lab. No known individual was identified. No associated funerary objects are present.

The human remains are determined to be affiliated with the Caddo Nation of Oklahoma based on the description of the associated ceramic vessels.

Prior to 1990, human remains representing a minimum of one individual were removed from two miles north of Troup on the south bank of the Kickapoo River, Smith County, TX, by “Red” McFarland, a private citizen. The human remains are located in the repository of the Stephen F. Austin State University anthropology lab. No known individual was identified. No associated funerary objects are present.

The human remains are determined to be affiliated with the Caddo Nation of Oklahoma based on provenience. The human remains were removed from a part of Texas that was occupied by the Caddo before and after European contact.

Prior to 1990, human remains representing a minimum of one individual were removed from an unknown location in Smith County, TX, by an unknown individual. The human remains are located in the repository of the Stephen F. Austin State University anthropology lab. No known individual was identified. No associated funerary objects are present.

The human remains are determined to be affiliated with the Caddo Nation of Oklahoma based on provenience. The human remains were removed from a part of Texas that was occupied by the Caddo before and after European contact.

In 1985, human remains representing a minimum of three individuals were removed from two burials at the Washington Square Site (41NA49), in Nacogdoches, Nacogdoches County, TX, during excavations under the direction of Dr. James Corbin, Stephen F. Austin State University archeologist. The human remains are located in the repository of the Stephen F. Austin State University anthropology lab. No known individuals were identified. The 122 associated funerary objects are 49 ceramic vessels; 47 marine shell beads and fragments; 1 fragmented marine shell pendant; 3 deer teeth; 9 pigment samples; 2 charred organic debris samples; and a cache of lithic debris with 9 chert flakes, 1 chert core, and 1 flake tool.

All human remains and associated funerary objects from the Washington Square Site (41NA49) were determined to be affiliated with the Caddo Nation of Oklahoma. The ceramic styles are identified as Caddo, which date approximately from A.D. 1200 to 1400.

In 1983, human remains representing a minimum of one individual were

excavated at 41TT135 (no site name) near Lake Monticello in Titus County, TX, during excavations by Espey Huston & Associates, Inc. In 1984, the human remains were placed in the repository of Stephen F. Austin State University anthropology lab. No known individual was identified. The one associated funerary object is a broken ceramic vessel.

The human remains and associated funerary object recovered from 41TT135 have been determined to be affiliated with the Caddo Nation of Oklahoma. The broken vessel is plain, but other artifacts from the site, which are not funerary objects, indicate a Caddo occupation which may pre-date A.D. 1200.

Officials of Stephen F. Austin State University have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains described above represent the physical remains of eight individuals of Native American ancestry. Officials of Stephen F. Austin State University also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 123 objects described are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of the Stephen F. Austin State University have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Caddo Nation of Oklahoma.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Dr. Jerry Williams, Stephen F. Austin State University, P.O. Box 13047, SFA Station, Nacogdoches, TX 75962, telephone (936) 468–2306, before March 29, 2010. Repatriation of the human remains and associated funerary objects to the Caddo Nation of Oklahoma may proceed after that date if no additional claimants come forward.

Stephen F. Austin State University is responsible for notifying the Caddo Nation of Oklahoma that this notice has been published.

DEPARTMENT OF THE INTERIOR

National Park Service

Concessions Management Advisory Board; Notice of Public Meeting

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given that the 21st meeting of the Concessions Management Advisory Board will be held at 1 p.m. on March 9, 2010, and 9 a.m. on March 10, 2010, at the Doubletree Hotel, 1515 Rhode Island Avenue, NW., Washington, DC 20005.

ADDRESSES: Doubletree Hotel, State Room, 1515 Rhode Island Avenue, NW., Washington, DC 20005; Phone number: 202–232–7000.

FOR FURTHER INFORMATION CONTACT: National Park Service, Commercial Services Program, 1201 Eye Street, NW., Washington, DC 20005, Telephone: 202/513–7156.

SUPPLEMENTARY INFORMATION: The Board was established by Title IV, Section 409 of the National Parks Omnibus Management Act of 1998, November 13, 1998 (Pub. L. 105–391). The purpose of the Board is to advise the Secretary and the National Park Service on matters relating to management of concessions in the National Park System. The members of the Advisory Board are: Dr. James J. Eyster, Ms. Ramona Sakiestewa, Mr. Richard Linford, and Mr. Phil Voorhees.

Topics that will be presented during the meeting include:

- Concession Contracting Status Update.
- Regional Reports.
- Standards, Evaluations, and Rate Approval Project Update.
- Update on Professionalization of Commercial Services Program—Human Capital Strategy.
- New business.

The meeting will be open to the public, however, facilities and space for accommodating members of the public are limited, and persons will be accommodated on a first-come-first-served basis. Efforts have been made locally to ensure that the interested public is aware of the meeting dates. An unprecedented weather-related 4-day Federal Government closure has resulted in the publication of this notice less than 15 days before the date of the meeting. Rescheduling the meeting would create an unnecessary burden for members of the public who have already arranged their schedules around that date.

Assistance to Individuals With Disabilities at the Public Meeting

The meeting site is accessible to individuals with disabilities. If you plan to attend and will require an auxiliary aid or service to participate in the meeting (e.g., interpreting service, assistive listening device, or materials in an alternate format), notify the contact person listed in this notice at least 2 weeks before the scheduled meeting date. Attempts will be made to meet any request(s) we receive after that date, however, we may not be able to make the requested auxiliary aid or service available because of insufficient time to arrange for it.

Anyone may file with the Board a written statement concerning matters to be discussed. The Board may also permit attendees to address the Board, but may restrict the length of the presentations, as necessary to allow the Board to complete its agenda within the allotted time. Such requests should be made to the Director, National Park Service, Attention: Chief, Commercial Services Program, at least 7 days prior to the meeting. Draft minutes of the meeting will be available for public inspection approximately 6 weeks after the meeting, at the Commercial Services Program office located at 1201 Eye Street, NW., 11th Floor, Washington, DC.

Dated: February 19, 2010.

Daniel N. Wenk,

Deputy Director.
