

research in Central California. At that time, NMFS determined that conducting the seabird research would not have a significant impact on the quality of the human environment and issued a Finding of No Significant Impact (FONSI) and, therefore, it was not necessary to prepare an environmental impact statement for the issuance of an IHA to PRBO for this activity. In 2008, NMFS prepared a supplemental EA (SEA) titled "Supplemental Environmental Assessment For The Issuance Of An Incidental Harassment Authorization To Take Marine Mammals By Harassment Incidental To Conducting Seabird And Pinniped Research In Central California And Environmental Assessment For The Continuation Of Scientific Research On Pinnipeds In California Under Scientific Research Permit 373-1868-00," to address new available information regarding the effects of PRBO's seabird and pinniped research activities that may have cumulative impacts to the physical and biological environment. At that time, NMFS concluded that issuance of an IHA for the December 2008 through 2009 season would not significantly affect the quality of the human environment and issued a FONSI for the 2008 SEA regarding PRBO's activities. In conjunction with this year's application, NMFS has again reviewed the 2007 EA and the 2008 SEA and determined that there are no new direct, indirect or cumulative impacts to the human and natural environment associated with the IHA requiring evaluation in a supplemental EA and NMFS, therefore, reaffirms the 2008 FONSI. A copy of the EA, SEA, and the NMFS FONSI for this activity is available upon request (see ADDRESSES).

#### Authorization

As a result of these determinations, NMFS has issued an IHA to PRBO to conduct seabird and pinniped research on Southeast Farallon Island, West End Island, Año Nuevo Island, and Point Reyes National Seashore in central California from February 19, 2010 through February 18, 2011, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

**FOR FURTHER INFORMATION CONTACT:**

Dated: February 19, 2010.

**Mitchell S. Bryman,**

*Alternate OSD Federal Register Liaison Officer, Department of Defense.*

**Rule 21(b)**

*A. Remove the first sentence of existing Rule 21(b) which currently reads:*

(b) The supplement to the petition shall be filed in accordance with the applicable time limit set forth in Rule 19(a)(5)(A) or (B), shall include an Appendix containing a copy of the decision of the Court of Criminal Appeals, unpublished opinions cited in the brief, relevant extracts of rules and regulations, and shall conform to the provisions of Rules 24(b), 35A, and 37.

*B. Add the following to Rule 21(b) in its place:*

(b) The supplement to the petition shall be filed in accordance with the applicable time limit set forth in Rule 19(a)(5)(A) or (B), shall include an Appendix containing a copy of the decision of the Court of Criminal Appeals, unpublished opinions cited in the brief, relevant extracts of rules and regulations, and shall conform to the provisions of Rules 35A and 37. Unless authorized by order of the Court or by motion of a party granted by the Court, the supplement and any answer thereto shall not exceed 25 pages, except that a supplement or answer containing no more than 9,000 words or 900 lines of text is also acceptable. Any reply to the answer shall not exceed 10 pages except that a reply containing 4,000 words or 400 lines of text is also acceptable.

*C. The remainder of Rule 21(b) is unchanged except as noted below regarding Rule 21(b)(5)(G).*

*Comment:* The proposal to reduce the length of supplements, answers and replies would follow the practice at the Supreme Court of the United States where different limits apply to petitions for certiorari (9,000 words) and briefs following a grant of certiorari (15,000

words). In exceptional cases, counsel would still be able to request to exceed the limit by motion under Rule 30.

**Rule 21(b)(5)(G)**

*A. Rule 21(b)(5)(G) currently reads:*

(b) \* \* \* The supplement shall contain:

\* \* \* (5) A direct and concise argument showing why there is good cause to grant the petition, demonstrating with particularity why the errors assigned are materially prejudicial to the substantial rights of the appellant. Where applicable, the supplement to the petition shall also indicate whether the court below has:

\* \* \* (G) taken inadequate corrective action after remand by the Court subsequent to grant of an earlier petition in the same case and that appellant wishes to seek review from the Supreme Court of the United States; \* \* \*

B. The proposed change is to remove subparagraph (G) and replace it with the following new subparagraph (G):

\* \* \* (G) taken inadequate corrective action after remand by the Court subsequent to grant of an earlier petition in the same case and that appellant wishes to seek review in the Supreme Court of the United States specifying the issue or issues on which certiorari review would be sought, whether related to the remand or to the original decision by this Court; \* \* \*

*Comment:* The recent practice of the Court has been to grant petitions for grant of review in cases that have been previously remanded to the convening authority or the Court of Criminal Appeals for corrective action and are returned to the Court on a second petition. The grant of review is intended to protect the right to seek certiorari review at the Supreme Court, and may be accompanied by a summary order of affirmance. The proposed change to the Rule would add a requirement that appellate defense counsel specify the issue or issues on which certiorari review would be sought, related to either the remand or the original decision of the Court. The amendment will make it clear that there is no right to further review in this Court in all remanded cases, and also provide a more orderly process for identifying the issues that are being preserved for review on petition for certiorari. The Court can then decide whether to grant and affirm or take other action it deems appropriate.

**Rule 21A**

Adopt new Rule 21A as follows:

*Rule 21A. Submissions Under United States v. Grostefon*

(a) Issues raised pursuant to *United States v. Grostefon*, 12 M.J. 431 (C.M.A. 1982), shall be presented in a separate Appendix to the supplement not to exceed 15 pages.

(b) Grostefon issues shall be identified by counsel with particularity, substantially in the following form:

**Grostefon Issue Appendix**

Pursuant to *United States v. Grostefon*, 12 M.J. 431 (C.M.A. 1982), appellant, through appellate defense counsel, personally requests that this Court consider the following matters:

[List issues and any argument for each issue.]

(c) Grostefon issues raised within 30 days of the filing of the supplement under Rule 19(a)(5)(C) are subject to and included within the 15-page limit in this Rule.

*Comment:* This new Rule is designed to fill a gap that currently exists in the Rules regarding page limits for submissions of personally asserted matters under Grostefon. The new Rule will allow counsel more than enough space to identify issues that the appellant wishes to raise and to attach any reasonably sized written submission that the appellant prepared. The 15-page limit is all-inclusive, *i.e.*, all stated issues, argument, and written submissions from the appellant must not exceed a total of 15 pages. The Rule is consistent with Grostefon and allows counsel to describe the issues the appellant wants to raise, without needlessly burdening the Court with voluminous filings of material that would never be permitted for filings by counsel.
