of the proposed action (i.e., the “no-action” alternative). Denial of the exemption request would result in no change in current environmental impacts. If the proposed action was denied, the licensee would have to comply with the March 31, 2010, implementation deadline. The environmental impacts of the proposed exemption and the “no action” alternative are similar.

**Alternative Use of Resources**

The action does not involve the use of any different resources than those considered in the Final Environmental Statement for the Virgil C. Summer Nuclear Station, Unit No. 1, NUREG–0719, dated May 1981 (ADAMS Accession No. ML072750234) and the Generic Environmental Impact Statement for License Renewal of Nuclear Plants, NUREG–1437, Supplement 15, dated February 2004 (ADAMS Accession No. ML040540718).

**Agencies and Persons Consulted**

In accordance with its stated policy, on December 17, 2009, the NRC staff consulted with the South Carolina State official, Ms. Susan Jenkins of the South Carolina Department of Health and Environmental Control, regarding the environmental impact of the proposed action. The State official had no comments.

**Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee’s letter dated December 11, 2009 (RC–09–0154). The licensee’s letter RC–09–0148, dated December 11, 2009, contains security-related information and, accordingly, is not available to the public pursuant to 10 CFR 2.390. The licensee’s letter RC–09–0154 may be examined, and/or copied for a fee, at the NRC’s Public Document Room (PDR), located at One White Flint North, Public File Area O–1F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. I. Introduction
On February 18, 2010, the Postal Service filed a notice announcing that it has entered into an additional Global Expedited Package Services 2 (GEPS 2) contract. The Postal Service believes the instant contract is functionally equivalent to previously submitted GEPS 2 contracts, and is supported by Governors’ Decision No. 08–7, attached to the Notice and originally filed in Docket No. CP2008–4. Id. at 1. Attachment 2. The Notice also explains that Order No. 86, which established GEPS 1 as a product, also authorized functionally equivalent agreements to be included within the product, provided that they meet the requirements of 39 U.S.C. 3633. Id. at 1. In Order No. 290, the Commission approved the GEPS 2 product.2

The instant contract. The Postal Service filed the instant contract pursuant to 39 CFR 3015.5. In addition, the Postal Service contends that the contract is in accordance with Order No. 86. The Postal Service submitted the contract and supporting materials under seal along with an application for non-public treatment as Attachment 1, and attached a redacted copy of the contract and a certified statement required by 39 CFR 3015.5(c)(2) to the Notice as Attachments 3 and 4, respectively. Id. at 1–2. The term of the contract is 1 year from the date the Postal Service notifies the customer that all necessary regulatory approvals have been received.

The Notice advances reasons why the instant GEPS 2 contract fits within the Mail Classification Schedule language for GEPS 2. The Postal Service contends that the instant contract is functionally equivalent to the GEPS 2 contracts filed previously, despite minor differences in both the general language and for customer-specific information, all of which are highlighted in the Notice. Id. at 3–7.

The Postal Service contends that several factors demonstrate the contract’s functional equivalence with previous GEPS 2 contracts, including the general terms of the contract, the market to which it is being offered, and its cost characteristics. Id. at 3. The Postal Service concludes that because the “GEPS agreements incorporate the same cost attributes and methodology, the relevant cost and market characteristics are similar, if not the same...”2 despite any incidental differences. Id. at 6.

The Postal Service contends that its filings demonstrate that this new GEPS 2 contract is established in compliance with the requirements of 39 U.S.C. 3633, is functionally equivalent to previous GEPS 2 contracts, and requests that this contract be included within the GEPS 2 product. Id. at 7.
