

requests (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. chapter 35). A copy of each ICR, with applicable supporting documentation; including among other things a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King at 202–693–4129 (this is not a toll-free number)/e-mail: DOL_PRA_PUBLIC@dol.gov.

Interested parties are encouraged to send comments to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Department of Labor—Employment and Training Administration (ETA), Office of Management and Budget, Room 10235, Washington, DC 20503, Telephone: 202–395–7316/Fax: 202–395–5806 (these are not toll-free numbers), E-mail:

OIRA_submission@omb.eop.gov within 30 days from the date of this publication in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference the OMB Control Number (see below).

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employment and Training Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Occupational Code Assignment (OCA).

OMB Control Number: 1205–0137.

Agency Form Number: ETA–741.

Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Respondents: 23.

Total Estimated Annual Burden Hours: 12.

Total Estimated Annual Costs Burden (does not include hour costs): \$0.

Description: The Form ETA 741, the Occupational Code Assignment (OCA), is provided as a public service for the states as well as for others who use occupational information. The OCA process is designed to help users relate an occupational specialty or a job title or to an occupational code within the framework of the O*NET–SOC (Occupational Information Network–Standard Occupational Classification) system. For additional information, see related notice published in the **Federal Register** on November 11, 2009 (74 Fed. Reg. 62602).

Agency: Employment and Training Administration.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Worker Profiling and Reemployment Services Activities and Worker Profiling and Reemployment Outcomes.

OMB Control Number: 1205–0353.

Agency Form Numbers: ETA–9048 and ETA–9049.

Affected Public: State, Local, or Tribal Governments.

Total Estimated Number of Respondents: 53.

Total Estimated Annual Burden Hours: 106.

Total Estimated Annual Costs Burden (does not include hour costs): \$0.

Description: The Secretary has interpreted applicable sections of Federal law to require States to identify claimants who are most likely to exhaust their Unemployment Insurance benefits and to provide reemployment services to expedite their return to suitable work. The ETA 9048 report provides a count of the claimants who were referred to Worker Profiling and Reemployment Services (WPRS) and a count of those who completed the services. A second report (ETA 9049) provides the subsequent collection of wage records which is a useful management tool for monitoring the success of the WPRS program in the State. For additional information, see related notice published in the **Federal Register** on December 16, 2009 (74 FR 66679).

Darrin A. King,

Departmental Clearance Officer.

BILLING CODE 4510–FW–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (10–023)]

Notice of Information Collection

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. 3506(c)(2)(A)).

DATES: All comments should be submitted within 30 calendar days from the date of this publication.

ADDRESSES: All comments should be addressed to Brenda Maxwell, National Aeronautics and Space Administration, Washington, DC 20546–0001.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Brenda Maxwell, NASA PRA Officer, NASA Headquarters, 300 E Street, SW., JE000, Washington, DC 20546, (202) 358–1824, Brenda.Maxwell@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The new NASA Explorer Schools (NES) model will focus implementing a “best of” collection of NASA content and curricular support resources. Eight to ten core products or opportunities will be available, representing all NASA Mission Directorates and current NASA missions in Earth and Space Science, mathematics, chemistry, and physics.

II. Method of Collection

The data collection uses web-based surveys, telephone interviews and in person focus groups.

III. Data

Title: NASA Explorer Schools (NES)

OMB Number: 2700–xxxx.

Type of review: New Collection.

Affected Public: State, Local, or Tribal Government.

Number of Respondents: 720.

Responses Per Respondent: 1.

Annual Responses: 720.

Hours Per Request: 0.25–1 hour.

Annual Burden Hours: 1935.

Frequency of Report: Annually.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Brenda Maxwell,
NASA PRA Officer.

BILLING CODE P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (10-021)]

NASA Advisory Council; Science Committee; Earth Science Subcommittee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: The National Aeronautics and Space Administration (NASA) announces a meeting of the Earth Science Subcommittee of the NASA Advisory Council (NAC). This Subcommittee reports to the Science Committee of the NAC. The Meeting will be held for the purpose of soliciting from the scientific community and other persons scientific and technical information relevant to program planning.

DATES: Tuesday, March 16, 2010, 8:30 a.m. to 4:30 p.m., and Wednesday, March 17, 8:30 a.m. to 1:30 p.m. EST.

ADDRESSES: NASA Headquarters, 300 E Street, SW., Room 8R40 (March 16, 2010) and Room 3H46 (March 17, 2010), Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Marian Norris, Science Mission Directorate, NASA Headquarters, Washington, DC 20546, (202) 358-4452, fax (202) 358-4118, or mnorris@nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The agenda for the meeting includes the following topics:

—Earth Science Division Budget Update

—Science Mission Directorate Science Plan Update

—Climate Initiative Plan

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Attendees will be requested to sign a register and to comply with NASA security requirements, including the presentation of a valid picture ID, before receiving an access badge. Foreign nationals attending this meeting will be required to provide a copy of their passport, visa, or green card in addition to providing the following information no less than 10 working days prior to the meeting: full name; gender; date/place of birth; citizenship; visa/green card information (number, type, expiration date); passport information (number, country, expiration date); employer/affiliation information (name of institution, address, country, telephone); title/position of attendee. To expedite admittance, attendees with U.S. citizenship can provide identifying information 3 working days in advance by contacting Marian Norris via e-mail at mnorris@nasa.gov or by telephone at (202) 358-4452.

Dated: February 17, 2010.

P. Diane Rausch,
Advisory Committee Management Officer,
National Aeronautics and Space Administration.

[Notice (10-022)]

National Environmental Policy Act; Wallops Flight Facility Shoreline Restoration and Infrastructure Protection Program

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of availability of the Draft Programmatic Environmental Impact Statement (PEIS) for the Wallops Flight Facility (WFF) Shoreline Restoration and Infrastructure Protection Program (SRIPP).

SUMMARY: Pursuant to the National Environmental Policy Act, as amended, (NEPA) (42 U.S.C. 4321 *et seq.*), the

Council on Environmental Quality Regulations for Implementing the Procedural Provisions of NEPA (40 CFR parts 1500-1508), and NASA's NEPA policy and procedures (14 CFR part 1216, subpart 1216.3), NASA has prepared and issued the Draft PEIS for the proposed SRIPP at WFF. The U.S. Department of the Interior, Minerals Management Service (MMS), and the U.S. Army Corps of Engineers have served as Cooperating Agencies in preparing the Draft PEIS.

NASA is proposing to implement a fifty-year design life storm damage reduction project at its WFF on Wallops Island, Virginia. The project would be implemented to reduce the potential for storm-induced physical damage to the over \$1 billion in Federal and State assets on Wallops Island. The Draft PEIS examines in detail three project alternatives, each expected to provide substantial damage reduction from storms with intensities ranging up to approximately the 100-year return interval storm. Although some reduction in flooding can be expected under each alternative, the primary purpose of the proposal is not flood protection, rather it is moving destructive wave energy further away from the Wallops Island shoreline and the infrastructure behind it.

Alternative One, NASA's preferred alternative, would include extending the existing Wallops Island seawall up to a maximum of 1,400 meters (m) (4,600 feet [ft]) south and placing an estimated 2.5 million cubic meters (MCM) (3.2 million cubic yards [MCY]) of sand along the shoreline. Alternative Two would include the same seawall extension as Alternative One; however the sand placed along the shoreline would be less, at approximately 2.2 MCM (2.9 MCY). Under this alternative, NASA would also construct a groin perpendicular to the shoreline at the south end of the project site to limit the volume of nearshore sand being transported from the restored Wallops Island beach to the south. Alternative Three would entail the same seawall extension as in Alternatives One and Two; however, sand placement would be the least of the Alternatives at approximately 2.1 MCM (2.8 MCY). NASA would construct a single detached breakwater parallel to the shoreline at the south end of the project site to retain sand under Alternative Three. Under all three project alternatives, NASA would obtain the sand required for its initial beach nourishment from an unnamed shoal (referred to as Shoal A) located in Federal waters approximately 23 kilometers (km) (14 miles [mi]) east of
