The areas described aggregate 702.25 acres in Shasta County.

The BLM's petition has been approved by the Assistant Secretary for Land and Minerals Management. Therefore, it constitutes a withdrawal proposal of the Assistant Secretary (43 CFR 2310.1-3(e)).

The purpose of the proposed withdrawal would be to protect the unique natural, scenic, cultural, and recreational values along the Sacramento River between Shasta Dam and the City of Redding.

The use of a right-of-way, interagency agreement, cooperative agreement or surface management under 43 CFR part 3809 regulations would not adequately constrain nondiscretionary uses that could irrevocably affect the use of the lands for recreational purposes.

No water rights would be needed to fulfill the purpose of the requested withdrawal.

A preliminary identification of mineral resources in the subject area indicates low to moderate potential for mineral development. Placer and lode gold are the only locatable minerals of interest in the area, which may have low to moderate potential for occurrence. There are no known active producing mines within the area.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the Field Manager, Redding Field Office, BLM, 355 Hemsted Drive, Redding, California 96002. Comments, including names and street addresses for respondents, will be available for public review at the BLM's Redding Field Office, during regular business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. Individual respondents may request confidentiality. Before including your address, telephone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organization or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be

made available for public inspection in their entirety.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the Field Manager, Redding Office, BLM, 355 Hemsted Drive, Redding, California 96002, within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of time and place will be published in the **Federal Register** and a local newspaper at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR part 2300.

For a period of 2 years from February 26, 2010, the public lands will be segregated from location and entry under the United States mining laws (30 U.S.C. 22 *et seq.*) as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date.

Licenses, permits, cooperative agreement, or discretionary land use authorizations of a temporary nature which will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of BLM during the segregative period.

Authority: 43 CFR 2310.3-1(a).

Dated: February 22, 2010.

Background Information:

Section 7A of the Clayton Act ("Act"), 15 U.S.C. 18a, as amended by the Hart-Scott-Rodino Antitrust Improvements Act of 1976, Pub. L. 94-435, 90 Stat. 1390, requires all persons contemplating certain mergers or acquisitions to file notification with the Commission and the Assistant Attorney General and to wait a designated period of time before consummating such transactions. Congress empowered the Commission, with the concurrence of the Assistant Attorney General, to require "that the notification . . . be in such form and contain such documentary material and information . . . as is necessary and appropriate" to enable the agencies "to determine whether such acquisitions may, if consummated, violate the antitrust laws." 15 U.S.C. 18a(d). Congress similarly granted rulemaking authority to, *inter alia*, "prescribe such other rules as may be necessary and appropriate to carry out the purposes of this section." *Id.*

Pursuant to that section, the Commission, with the concurrence of the Assistant Attorney General, developed the HSR Rules and the corresponding Notification and Report Form. The following discussion presents the FTC's PRA burden analysis regarding completion of the Notification and Report Form.

Burden statement:

Estimated total annual hours burden: 33,298 hours

The following burden estimates are primarily based on FTC data concerning the number of HSR filings and staff's informal consultations with leading HSR counsel.

In the FTC's 2007 PRA submission to OMB regarding the HSR Rules and the Notification and Report Form, FTC staff estimated that there were 32 "index filings" under Clayton Act Sections 7A(c)(6) and 7A(c)(8)² that required 2 hours per filing, and 3,966 non-index filings that required, on average, approximately 39 hours per filing.³ Moreover, staff estimated that approximately 91 non-index transactions would require an additional 40 hours of burden due to the need for a more precise valuation of transactions that are near a filing fee threshold.⁴

In fiscal year 2009 there were 1,411 non-index filings and 24 index filings. Based on an average decrease of 40.4% in fiscal year 2007 - fiscal year 2009 in the number of non-index filings, staff projects a total of 841 non-index filings for fiscal year 2010. Likewise, based on an average decrease of 18.4% in index filings over the same time period, staff projects a total of 20 index filings for fiscal year 2010. Retaining the FTC's prior assumptions, staff estimates that non-index filings require approximately 39 burden hours per filing and index filings require an average of 2 hours per filing. Moreover, staff estimates that for fiscal year 2010 approximately 22 non-index transactions will require an additional 40 hours of burden due to the need for more precise valuation of transactions that are near a filing fee threshold.⁵ Thus, the total estimated

² Clayton Act Sections 7A(c)(6) and (c)(8) exempt from the requirements of the premerger notification program certain transactions that are subject to the approval of other agencies (the so-called "index filings"), but only if copies of the information submitted to these other agencies are also submitted to the FTC and the Assistant Attorney General. Thus, parties must submit copies of these filings, which are included in the totals shown, but completing the task requires significantly less time than non-exempt transactions.

³ These are long-standing estimates that have been repeatedly vetted through the PRA comment process. See, e.g., 59 FR 30588 (June 14, 1994); 69 FR 7225, 7226 (Feb. 13, 2004); 72 FR 18251, 18252 (Apr. 11, 2007).

⁴ See 72 FR 18252.

⁵ This number is based on the volume of fiscal year 2009 non-index transactions, 716, reduced by transactions involving an acquisition of 50% or more of an entity's assets or voting securities. The rationale for this exclusion is that the remainder, 38 transactions, reflects incremental acquisitions that fell between notification and filing fee thresholds and thus would likely need more precise valuation to determine which side of a threshold the

hours burden before adjustments is 33,719 hours [(841 non-index filings x 39 hours) + (20 index filings x 2 hours) + (22 acquiring person non-index filings requiring more precise valuation⁶ x 40 hours)].

As in the past, however, staff further estimates that half of those submitting non-index filings will incorporate Item 4(a) and Item 4(b) documents by reference to an Internet link, and that doing so will reduce individual burden by one hour. Accordingly, the cumulative reduction to the above total would be 421 hours (841 non-index filings x 1/2 = 421, multiplied by 1 hour), resulting in net estimated burden for fiscal year 2010 of 33,298 hours.

This estimate is conservative. In estimating PRA burden, staff considered "the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency." 5 CFR 1320.3(b)(1). This includes "developing, acquiring, installing, and utilizing technology and systems for the purpose of disclosing and providing information." 5 CFR 1320.3(b)(1)(iv). Although not expressly stated in the OMB definitions regulation implementing the PRA, the definition of burden arguably includes upgrading and maintaining computer and other systems used to comply with a rule's requirements. Conversely, to the extent that these systems are customarily used in the ordinary course of business independent of the Rule, their associated upkeep would fall outside the realm of PRA "burden." See 5 CFR 1320.3(b)(2).

Industry has been subject to the basic provisions of the HSR Rules since 1978. Thus, businesses have had several years (and some have had decades) to integrate compliance systems into their business procedures. Accordingly, most companies now maintain records and provide updated order information of the kind required by the HSR Rules in

transaction falls upon. The resulting fiscal year 2009 total, 38, is then used to project the fiscal year 2010 volume of such transactions. To do this, we first calculated the proportion this net figure represents in relation to the total fiscal year 2009 non-index transactions: $38 \div 716 = 5.3\%$.

This percentage is then applied to the projected number of fiscal year 2010 non-index transactions in order to estimate the proportion of them that will require more precise valuation. Assuming that half the projected number of fiscal year 2010 non-index filings will constitute the number of associated transactions, that would result in approximately 421 non-index transactions (841 ÷ 2). To this we then carry over and apply the above 5.3% apportionment to arrive at an estimate of 22 non-index transactions in fiscal year 2010 that will require more precise measurement.

⁶ Only the acquiring person is subject to a filing fee; thus, this specific focus.

their ordinary course of business. Nevertheless, staff conservatively assumes that the time devoted to compliance with the Rule by existing and new companies remains unchanged from its preceding estimate.

Estimated labor costs: \$15,317,080

Using the burden hours estimated above and applying an estimated average of \$460/hour for executive and attorney wages,⁷ staff estimates that the total labor cost associated with the HSR Rules and the Notification and Report Form is approximately \$15,317,080 (33,298 hours x \$460/hour).

Estimated annual non-labor cost burden: \$0 or minimal

The applicable requirements impose minimal start-up costs, as businesses subject to the HSR Rules generally have or obtain necessary equipment for other business purposes. Staff believes that the above requirements necessitate ongoing, regular training so that covered entities stay current and have a clear understanding of federal mandates, but that this would be a small portion of and subsumed within the ordinary training that employees receive apart from that associated with the information collected under the HSR Rules and the corresponding Notification and Report Form.
