SUPPLEMENTARY INFORMATION: In accordance with the December 12, 1988 court order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.), HUD publishes a Notice, on a weekly basis, identifying unutilized, underutilized, excess and surplus Federal buildings and real property that HUD has reviewed for suitability for use to assist the homeless. Today's Notice is for the purpose of announcing that no additional properties have been determined suitable or unsuitable this week.

Dated: February 18, 2010.

Mark R. Johnston,

Deputy Assistant Secretary for Special Needs.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLWO3200000-L1990000.PP0000; OMB Control Number 1004-0114]

Renewal of Approved Information Collection

AGENCY: Bureau of Land Management, Interior.

ACTION: 30-day Notice and request for comments.

SUMMARY: The Bureau of Land Management (BLM) has submitted an information collection request to the Office of Management and Budget (OMB) for a 3-year renewal of OMB Control Number 1004-0114 under the Paperwork Reduction Act. This control number covers paperwork requirements in 43 CFR parts 3832 through 3838, which pertain to mining claims, mill sites, and tunnel sites.

DATES: The OMB is required to respond to this information collection request within 60 days but may respond after 30 days. Therefore, written comments should be received on or before March 29, 2010.

ADDRESSES: You may submit comments directly to the Desk Officer for the Department of the Interior (OMB #1004-0114), Office of Management and Budget, Office of Information and Regulatory Affairs, fax 202-395-5806, or by electronic mail at oir_docket@omb.eop.gov. Please mail a copy of your comments to: Bureau Information Collection Clearance Officer (WO-630), Department of the Interior, 1849 C Street, NW., Mail Stop 401 LS, Washington, DC 20240. You may also

send a copy of your comments by electronic mail to jean_sonneman@blm.gov.

FOR FURTHER INFORMATION CONTACT: You may contact Sonia Santillan, Mineral Leasing Specialist, Bureau of Land Management, Division of Solid Minerals, (202) 452-0398 (Commercial or FTS). Persons who use a telecommunication device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) on 1-800-877-8330, to contact Ms. Santillan.

SUPPLEMENTARY INFORMATION:

Title: Recordation of Location Notices and Mining Claims; Payment of Fees (43 CFR parts 3832-3838).

OMB Control Number: 1004-0114.

Abstract: This notice pertains to information collections that are necessary for the recordation of mining claims, mill sites, and tunnel sites; the annual maintenance of such claims and sites; location and maintenance fee waivers; and the adjudication of mineral rights. The information collections covered by this notice are found at 43 CFR parts 3832 through 3838, and in the following forms:

- Form 3830-2, Maintenance Fee Waiver Certification; and
- Form 3830-3, Notice of Intent to Locate a Lode or Placer Mining Claim(s) and/or a Tunnel Site(s) on Lands Patented under the Stock Raising Homestead Act of 1916, as Amended by the Act of April 16, 1993.

60-Day Notice: As required in 5 CFR 1320.8(d), the BLM published a 60-day notice in the **Federal Register** on July 31, 2009 (74 FR 38215), soliciting comments from the public and other interested parties. The comment period closed on September 29, 2009. The BLM did not receive any comments from the public in response to this notice or unsolicited comments from respondents covered under these regulations.

Type of Review: Revision of a currently approved information collection.

Affected Public: Individuals, associations, and corporations seeking to obtain or maintain interests under the General Mining Law and other mining statutes.

Obligation To Respond: Required to obtain or retain benefits.

Annual Responses: 197,154.

Completion Time per Response: Varies from 20 to 30 minutes.

Annual Burden Hours: 97,658.

Annual Non-hour Burden Cost: \$1,629,025 for document processing fees associated with some of these information collection requirements.

The BLM requests comments on the following subjects:

1. Whether the collection of information is necessary for the proper functioning of the BLM, including whether the information will have practical utility;

2. The accuracy of the BLM's estimate of the burden of collecting the information, including the validity of the methodology and assumptions used;

3. The quality, utility and clarity of the information to be collected; and

4. How to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Please send comments to the addresses listed under **ADDRESSES**. Please refer to OMB control number 1004-0114 in your correspondence. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Jean Sonneman,

Acting Information Collection Clearance Officer.

BILLING CODE 4310-84-P

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Draft Supplemental Environmental Impact Statement for the Proposed Campo Regional Landfill Project on the Campo Indian Reservation, San Diego County, CA

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Availability.

SUMMARY: This notice announces the availability for public comment of a Draft Supplemental Environmental Impact Statement (DSEIS) for an amended lease and sublease for the proposed Campo Regional Landfill Project (proposed action) on the Campo Indian Reservation in San Diego County, California. A Final Environmental Impact Statement (FEIS) for the proposed action was issued in November 1992 and a Record of Decision (ROD) was executed in April 1993. This notice also announces the dates, times and locations of the public

hearings to receive comments on the DSEIS. The DSEIS was prepared by the Bureau of Indian Affairs (BIA) as lead agency, in cooperation with the Campo Band of Mission Indians (Campo Band), Campo Environmental Protection Agency (CEPA) and the U.S. Environmental Protection Agency (EPA).

DATES: The DSEIS will be available for public comment beginning February 26, 2010. Written comments on this notice must arrive by May 12, 2010, at the address provided below. Two public hearings have been scheduled to receive oral and written comments on the DSEIS:

- Tuesday, April 13, 2010, 6–9 p.m., Campo Indian Reservation, California.
- Wednesday, April 14, 2010, 6–9 p.m., Buckman Springs, California.

ADDRESSES: You may mail or hand carry written comments to Dale Risling, Acting Regional Director, Pacific Regional Office, Bureau of Indian Affairs, 2800 Cottage Way, Sacramento, California 95825. The public hearings will be held at the following locations:

- Campo Tribal Center, 36190 Church Road, Campo, CA.
- Mountain Empire High School, 3305 Buckman Springs Road, Buckman Springs, CA.

See **SUPPLEMENTARY INFORMATION** for locations where the DEIS/EIR will be available for review and instructions for submitting comments.

FOR FURTHER INFORMATION CONTACT: John Rydzik, (916) 978–6051.

SUPPLEMENTARY INFORMATION: The purpose of the proposed action is to address the socio-economic needs of the Campo Band of Mission Indians through the development and diversification of the tribal economy. A brief description and history of the proposed action, alternatives, location, and areas of environmental concern are provided below. This notice provides a 75-day public comment period and thereby grants an automatic 30-day extension to the normal 45-day public comment period.

Background

The Campo Indian Reservation consists of approximately 16,000 acres in southeastern San Diego County, just north of the United States/Mexico border, approximately 45 miles inland from the Pacific Ocean. The proposed action is to approve an amended lease and amended sublease to allow a 1,150-acre portion of the Campo Indian Reservation to be used for the purpose of constructing and operating a solid waste disposal facility. The solid waste disposal facility would consist of a

landfill waste disposal area, a well field area, an access road and other support facilities. The proposed Class III (non-hazardous) solid waste landfill would occupy approximately 400 acres of the 1,150 acre lease area. An additional approximately 200 acres would be developed to support the landfill. Supporting developments include the site entrance facilities, screening berms, utilities, surface recharge basins, and leachate storage lagoons. The remaining 550 acres of the lease area that surround the proposed solid waste landfill facility would serve as an undeveloped buffer area.

In the 1980s, the Campo Band entered into a lease agreement with Muht-Hei, Inc. (MHI), the Band's economic development corporation, pursuant to which MHI would lease a portion of the Campo Indian Reservation for the purpose of constructing and operating a solid waste landfill, recycling facility, and composting facility. In 1989, the Campo Band authorized MHI to enter into a sublease with Mid-American Waste Systems, Inc. (MAWS) for the development of that project. The Campo Band requested that the BIA approve the lease and sublease for the proposed project. An Environmental Impact Statement was prepared by BIA in accordance with the requirements of the National Environmental Policy Act (NEPA) to evaluate the environmental impacts of the proposed project prior to determining whether the proposed leases should be approved. An FEIS was released on November 24, 1992. The U.S. Department of the Interior issued a ROD on April 27, 1993, approving the lease between the Campo Band and MHI and sublease between MHI and MAWS for the proposed solid waste facility. On April 5, 1994, CEPA issued a Final Authority to Construct Permit (ATC) to MHI and MAWS to construct the proposed solid waste landfill subject to the conditions of the ROD and the ATC. Subsequently, MAWS failed to proceed with construction of the project and MHI found MAWS in default of the sublease terms. In early 2003, MHI began negotiations with BLT Enterprises, Inc. (BLT), of Oxnard, CA, on the terms of a sublease to develop the solid waste landfill described in the FEIS. Those negotiations were successfully concluded and the Campo Band authorized MHI to enter into a sublease with BLT on December 12, 2004.

The Campo Band requested the BIA approve the amended lease between the Band and MHI and the amended sublease between MHI and BLT for the proposed action. The BIA, in consultation with the Campo Band,

prepared this DSEIS to address changes in the proposed action, relevant information that has become available, and circumstances that have changed in the years since the FEIS was issued. The FEIS included five alternatives to the proposed action as follows: (1) Alternative site 1; (2) Alternative site 2; (3) Reduced waste stream at the proposed site; (4) Reduced area of disturbance at the proposed site; and (5) the No-action alternative. For each of the alternatives, the FEIS addressed land resources, water resources, air quality, living resources, cultural resources, socioeconomic, transportation, land use, resource use patterns, noise and other values. The DSEIS discusses aspects of the proposed action, relevant information that has subsequently become available, and circumstances that have changed since the FEIS was released in 1992 and any change in environmental impacts associated with those changes.

The proposed project would be required to comply with 40 CFR part 258 (Criteria for Municipal Solid Waste Landfills). Because the project proposes to use alternative landfill design and cover, it requires a site-specific flexibility determination to ensure that alternative designs and cover meet the requirements of 40 CFR part 258. For municipal solid waste landfills in Indian Country, the EPA must make site-specific flexibility determinations. EPA will hold a separate public hearing on its proposed site-specific flexibility determination after it receives and reviews a complete application.

Directions for Submitting Public Comments

Please include your name, return address, and the caption "DSEIS, Campo Solid Waste Management Project," on the first page of your written comments. You may also submit comments at the public hearings.

Public Availability of the DEIS

The DSEIS will be available for review at the Alpine Public Library, 2130 Arnold Way, Alpine, CA 91901 and the Pine Valley Public Library, 28804 Old Highway 80, Pine Valley, CA 91962. General information for the Alpine Public Library can be obtained by calling (619) 445–4221 and for the Pine Valley Public Library by calling (619) 473–8022. An electronic version of the DSEIS can be viewed at <http://www.CampoDSEIS.com>.

To obtain a compact disk copy of the DSEIS, please write John Rydzik, Chief of the Division of Environmental, Cultural Resource Management and Safety, Pacific Region, Bureau of Indian

Affairs, 2800 Cottage Way, Room W-2820, Sacramento, CA 95825, or call Mr. Rydzik at (916) 978-6051. Individual paper copies of the DSEIS can be provided upon payment of the applicable printing cost for the number of paper copies requested.

Public Availability of Comments

Comments, including names and addresses of respondents, will be available for public review at the BIA address shown in the **ADDRESSES** section, during business hours, 8 a.m. to 4:30 p.m., Monday through Friday, except holidays.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

This notice is published in accordance with sections 1502.9, 1503.1 and 1506.6 of the Council of Environmental Quality Regulations (40 CFR parts 1500 through 1508) implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4371 *et seq.*), Department of the Interior Manual (516 DM 1-6), and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.1.

Dated February 1, 2010.

Larry Echo Hawk,

Assistant Secretary—Indian Affairs.

BILLING CODE 4310-W7-P

DEPARTMENT OF THE INTERIOR

Environmental Impact Statements; Availability

AGENCY: National Park Service.

ACTION: Notice of availability for the Record of Decision on the Final Environmental Impact Statement, disposition of Bureau of Mines property, Twin Cities Research Center Main Campus, Hennepin County, Minnesota.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(C)), the National Park Service (NPS) announces the availability of the Record of Decision (ROD) for the final

Environmental Impact Statement (EIS) for the disposition of the Bureau of Mines property, Twin Cities Research Center Main Campus (Center), Hennepin County, Minnesota. On January 15, 2010, the Midwest Regional Director approved the ROD for the project. As soon as practicable, the NPS will begin to implement the preferred alternative contained in the final EIS.

The Department of the Interior (Department) selected Alternative D (Modification of Land, Structures, or Other Improvements by the Federal Government Prior to Conveyance or Retention of the Center), the preferred alternative, as described in the final EIS for the disposition of the Center issued in December 2009.

Under Alternative D, the Federal Government will manage and bear the cost of modification for all or part of the land, structures, or other improvements prior to conveyance or retention of the Center. Following completion of the modifications, the Federal Government will dispose of the Center property through a transfer to a university or nonfederal government entity without conditions, or a transfer to a university or nonfederal government entity with conditions, or will retain the property. The Department also selected the open space/park land use scenario that will convert the Center property to open space and natural areas where the focus will be on restoration and use of the natural environment. This will be accomplished by removing some or all buildings, structures, and roadways. Nonnative plant species will be identified and removed. Native vegetation will be planted and the site naturalized to recreate the historic characteristics of an open oak savanna, prairie-type setting typical to this vicinity.

The Department—after consideration of the findings of the EIS, the review of responses received on the request for proposals for future use of the Center property, and the fact that the Center property is located within the Mississippi National River and Recreation Area (MNRRA) boundary—determined that future management authority will be transferred to the NPS.

The ROD includes a statement of the decision made, synopses of other alternatives considered, the basis for the decision, a description of the environmentally preferable alternative, a finding on impairment of park resources and values, and an overview of public involvement in the decisionmaking process.

FOR FURTHER INFORMATION CONTACT: Superintendent Paul Labovitz, MNRRA,

Suite 105, 111 Kellogg Boulevard, East St. Paul, Minnesota 55101; telephone 651-290-4160. You may also view the document via the Internet through the NPS Planning, Environment, and Public Comment Web site (<http://parkplanning.nps.gov>); simply click on the link to the MNRRA.

Dated: January 15, 2010.

Ernest Quintana,

Regional Director, Midwest Region.

BILLING CODE P

DEPARTMENT OF THE INTERIOR

National Park Service

Final Environmental Impact Statement; Yosemite Institute Environmental Education Campus; Yosemite National Park; Mariposa and Tuolumne Counties, CA; Notice of Availability

SUMMARY: Pursuant to § 102(2)(C) of the National Environmental Policy Act of 1969 (Pub. L. 91-190, as amended), and the Council on Environmental Quality Regulations (40 CFR part 1500-1508), the Department of the Interior, National Park Service, has prepared a Final Environmental Impact Statement (Final EIS) identifying and evaluating three alternatives for redeveloping the Yosemite Institute Environmental Education Campus in Yosemite National Park, California. Yosemite Institute (YI) is a non-profit park partner which has provided environmental education in Yosemite since 1971, and since 1973 has been based at the former Civilian Conservation Corps (CCC) camp at Crane Flat. The Final EIS for the proposed new campus identifies and analyzes two “action” alternatives and a “no-action” alternative. The full spectrums of foreseeable environmental consequences are assessed and suitable mitigation strategies are considered; an “environmentally preferred” course of action is also identified. Concurrently, completion of the EIS process will fulfill public review requirements of § 106 of the National Historic Preservation Act.

Range of Alternatives: Under Alternative 1 (No Action), there would be no change in the environmental education program, location, or conditions at the Crane Flat campus. Necessary maintenance and repairs would continue, but no major improvements, rehabilitation of facilities, or construction of new buildings would occur. There would be no change in the number of overnight accommodations at Crane Flat (76 student bunks and 8 staff beds). The overall number of students in the park
