

must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). [Project No. 606-027-CA]

#### Kilarc-Cow Creek Hydroelectric Project; Notice of Intention To Prepare an Environmental Impact Statement

February 19, 2010.

The Federal Energy Regulatory Commission (FERC) has received an application for surrender of license for the Kilarc-Cow Creek Hydroelectric Project, FERC No. 606. The project contains two developments and is located on Old Cow Creek and South Cow Creek in Shasta County, northern California.

In the March 13, 2009 application, Pacific Gas and Electric Company (licensee) proposes to surrender the license, decommission and remove project facilities, as described in its proposed decommissioning plan. In general, (1) diversion dams would be removed to stop water diversions and to allow for free passage of fish and sediment; (2) some diversion dam abutments and foundations would be left in place to protect stream banks and provide grade control; (3) both powerhouse structures would be secured and left in place during decommissioning and an option for future reuse of the powerhouse structures would be preserved; (4) electric generators, turbines and other equipment would be removed; (5) both forebays would be graded and filled; and (6) canal segments would be left in place, breached, or filled in consultation with affected landowners, and metal and wood flume structures would be removed. The licensee consulted with federal, state, local agencies, and other parties with potential interest, during the license surrender application process.

As a result of the public scoping process and environmental site review, the FERC staff has determined that the proposed license surrender would constitute a major federal action significantly affecting the quality of the human environment. Therefore, the staff intends to prepare an environmental impact statement (EIS) on the surrendering of the hydroelectric project
