**SUPPLEMENTARY INFORMATION:**

#### I. Abstract

The scale and catch weighing requirements address performance standards designed to ensure that all catch delivered to the processor is accurately weighed and accounted for. Scale and catch-weighing monitoring is required for Western Alaska Community Development Quota Program (CDQ) catcher/processors, American Fisheries Act (AFA) catcher/processors, AFA motherships, AFA shoreside processors and stationary floating processors, non-AFA trawl catcher/processors regulated under the annual Groundfish Retention Standard, and Crab Rationalization crab catcher/processors and Registered Crab Receivers.

National Marine Fisheries Service (NMFS) has identified three primary objectives for monitoring catch. First, monitoring must ensure independent verification of catch weight, species composition, and location data for every delivery by a catcher vessel or every pot by a catcher/processor. Second, all catch must be weighed accurately using NMFS-approved scales to determine the weight of total catch. Third, the system must provide a verifiable record of the weight of each delivery. In addition, operators of these vessels must ensure that each haul is observed by a NMFS-

approved observer for verification that all fish are weighed. To effectively manage fisheries, NMFS must have data that will provide reliable independent estimates of the total catch.

The catch weighing and monitoring system developed by NMFS for catcher/processors and motherships is based on the vessel meeting a series of design criteria. Because of the wide variations in factory layout for inshore processors, NMFS requires a performance-based catch monitoring system for inshore processors.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Northeast Regional Ocean Council (NROC) is a State and Federal partnership with the goal of engaging in regional protection and balanced use of ocean and coastal resources. NROC's coordinated approach reaches across State boundaries to find and implement solutions to the region's most pressing ocean and coastal issues. NROC's membership includes New England coastal State agencies and Federal agencies.

The work of the Council focuses primarily on coastal hazards resilience and ocean energy planning and management. NROC's members come from varied expertise and work on these issues in many capacities. A social network analysis will serve to identify the network of people working on NROC's key issues, both within and outside of the organization.

NROC members will be queried regarding their communications on NROC issues and value derived from membership. The resulting information can be used to evaluate the efficiency of the network, where gaps may exist, and additional partnerships that would benefit the Council's work.

**Atlantic Coastal Fisheries Cooperative Management Act Provisions; Coastal Sharks Fishery**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of non-compliance referral.

**SUMMARY:** NMFS announces that on February 4, 2010, the Atlantic States Marine Fisheries Commission (Commission) found the State of New Jersey out of compliance with the Commission's Interstate Fishery Management Plan (ISFMP) for Coastal Sharks. Subsequently, the Commission referred the matter to NMFS, under delegation of authority from the Secretary of Commerce, for federal non-compliance review under the provisions of the Atlantic Coastal Fisheries Cooperative Management Act (Atlantic Coastal Act). The Atlantic Coastal Act mandates that NMFS must review the Commission's non-compliance referral and make specific findings within 30 days after receiving the referral. If NMFS determines that New Jersey failed to carry out its responsibilities under the Coastal Sharks ISFMP, and if the measures it failed to implement are necessary for conservation, then, according to the Atlantic Coastal Act, NMFS must declare a moratorium on fishing for coastal sharks in New Jersey waters.

**DATES:** NMFS intends to make a determination on this matter by March 10, 2010, and will publish its findings in the **Federal Register** immediately thereafter.

**ADDRESSES:** Written comments should be sent to Alan Risenhoover, Director,
