I. Notice of Expansion Application

The Occupational Safety and Health Administration (OSHA) is providing notice that FM Approvals LLC (FM) applied for expansion of its current recognition as a Nationally Recognized Testing Laboratory (NRTL). FM's expansion request covers the use of additional test standards.

OSHA recognition of an NRTL signifies that the organization meets the legal requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition, and is not a delegation or grant of government authority. As a result of recognition, employers may use products approved by the NRTL to meet OSHA standards that require testing and certification.

The Agency processes applications by an NRTL for initial recognition, or for an expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding, and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational Web page for each NRTL that details its scope of recognition. These pages can be accessed from the Web site at <http://www.osha.gov/dts/otpca/nrtl/index.html>. Each NRTL's scope of recognition has three elements: (1) The type of products the NRTL may test, with each type specified by its applicable test standard; (2) the recognized site(s) that have the technical capability to perform the testing and certification activities for test standards within the NRTL's scope; and (3) the supplemental program(s) that the NRTL may use, each of which allows the NRTL to rely on other parties to perform activities necessary for testing and certification.

The current address of the FM facilities (sites) recognized by OSHA are: FM Approvals, 1151 Boston-Providence Turnpike, Norwood, Massachusetts 02062, and FM Approvals, 743 Reynolds Road, West Gloucester, Rhode Island 02814.
