

in January 2009. Each affected firm is required to complete the filing for and submit their fee payment by January 15 of each year.

Annually, the Agency provides registrants a list of the registered products currently registered with the Agency. Registrants are provided the opportunity to review the list, determine its accuracy, and remit payment of the maintenance fee. The list of products has space identified for marking those products to be supported and those products that are to be canceled. The registrants are also instructed to identify any products on the list which they believe to be transferred to another company, and to add to the list any products which the company believes to be registered that are not on the Agency-provided list. The failure to pay the required fee for a product will result in cancellation of that product's registration.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.96 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 1,720.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1,645 hours.

Estimated total annual costs: \$129,088.

Changes in the estimates from the last approval: The renewal of this ICR will result in an overall increase of \$3,288 in the total estimated respondent cost identified in the currently approved ICR. This change of increase in cost is merely because of the labor cost increase since the last renewal.

V. What is the Next Step in the Process for these ICRs?

EPA will consider the comments received and amend the individual ICRs as appropriate. The final ICR packages will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of these ICRs to OMB and the opportunity for the public to submit additional comments for OMB consideration. If you have any questions about any of these ICRs or the approval process in general, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

Weekly receipt of Environmental Impact Statements Filed 02/23/2010 Through 02/23/2010 Pursuant to 40 CFR 1506.9;

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA has met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the Federal Register. Since February 2008, EPA has been including its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, after March 31, 2010, EPA will discontinue the publication of this notice of availability of EPA comments in the **Federal Register**.

Notice of Filing of a Pesticide Petition for Residues of a *Aspergillus flavus* AF36 on Corn Food/Feed Commodities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the Agency's receipt of an initial filing of a pesticide petition proposing the modification of regulations for residues of a pesticide chemical in or on various commodities.

DATES: Comments must be received on or before April 2, 2010.

ADDRESSES: Submit your comments, identified by docket identification (ID) number and the pesticide petition number (PP) as shown in the body of this document, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

- **Mail:** Office of Pesticide Programs (OPP) Regulatory Public Docket (7502P), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001.

- **Delivery:** OPP Regulatory Public Docket (7502P), Environmental Protection Agency, Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. Deliveries are only accepted during the Docket Facility's normal hours of operation (8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays). Special arrangements should be made for deliveries of boxed information. The Docket Facility telephone number is (703) 305-5805.

Instructions: Direct your comments to the docket ID number EPA-HQ-OPP-2010-0111 and the pesticide petition number (PP) as shown in the body of this document. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through www.regulations.gov or e-mail. The www.regulations.gov website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you

provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index available at <http://www.regulations.gov>. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the OPP Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).

- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed at the end of the pesticide petition summary.

B. What Should I Consider as I Prepare My Comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date, and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

3. **Environmental justice.** EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticide discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is announcing its receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, proposing the modification of regulations in 40 CFR part 180 for residues of a pesticide chemical in or on various food commodities. EPA has determined that the pesticide petition described in this notice contains the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petition. Additional data may be needed before EPA can make a final determination on this pesticide petition.

In accordance with 40 CFR 180.7(f), a summary of the petition that is the subject of this notice, prepared by the petitioner, is included in the docket EPA has created for this rulemaking. The docket for the petition is available on-line at <http://www.regulations.gov>. As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the modification of regulations for residues of a pesticide in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

III. Amended Tolerance Exemption

PP 9E7662. (EPA-HQ-OPP-2010-0101). Arizona Cotton Research and Protection Council, 3721 East Wier Avenue, Phoenix, AZ 85040-2933, proposes to amend an exemption from the requirement of a tolerance in 40 CFR 180.1206 for residues of the antifungal

agent, *Aspergillus flavus* AF36, in or on corn food and feed commodities. The petitioner believes no analytical method is needed because the pesticide occurs naturally and would be present irrespective of treatment, and there are no residues of toxicological concern.
