#### SUPPLEMENTARY INFORMATION:

##### I. Background

Section 2835(d) of the Housing and Economic Reform Act of 2008 (Pub. L. 110-289, approved July 30, 2008) (HERA) amends Title I of the U.S. Housing Act of 1937 (42 U.S.C. 1437 *et seq.*) (1937 Act) to add a new section 36 (to be codified as 42 U.S.C. 1437z-8) that requires each State agency administering tax credits under section 42 of the Internal Revenue Code of 1986 (low-income housing tax credits or LIHTC) to furnish HUD, not less than annually, information concerning the race, ethnicity, family composition, age, income, use of rental assistance under section 8(o) of the 1937 Act or other similar assistance, disability status, and

monthly rental payments of households residing in each property receiving such credits through such agency. New section 36 of the 1937 Act further provides that to the extent feasible, collect such information through existing reporting processes and in a manner that minimizes burden on property owners.

New section 36 requires HUD to establish standards and definitions for the information to be collected by State agencies and to provide States with technical assistance in establishing systems to compile and submit such information and, in coordination with other Federal agencies administering housing programs, establish procedures to minimize duplicative reporting requirements for properties assisted under multiple housing programs.

On March 30, 2009, HUD published a notice at 74 FR 14149 seeking early input from State agencies and other interested stakeholders on a methodology or approach to meet the statutory requirement to furnish HUD the required information. HUD received approximately 25 comments on this notice by the comment due date of May 29, 2009, from entities including State housing finance and tax credit agencies; tax credit property managers; housing trade associations; research institutes; and nonprofit organizations. The following summary of public comments addresses the significant issues raised and the approach HUD is taking in response. Additionally, interested members of the public may view and respond to the notice of information collection published in the **Federal Register** (75 FR 8392); however, there is no need to resubmit comments HUD already received in connection with the March 30, 2009 notice.

#### II. Public Comments

##### 1. Tenant Data Collection

*Comment:* A number of commenters supported the general idea of using the National Council of State Housing Agencies (NCSHA) Tenant Income Certification (TIC) for tenant data collection, but also suggested that States retain flexibility to make modifications. It was suggested that a separate page be added to collect racial, ethnic, and disability status data, along with a statement that responding is voluntary. Other commenters opposed the use of these forms on various grounds. Other commenters stated that Housing Finance Agencies (HFAs) should be given the flexibility to design their own forms, but use the NCSHA TIC to obtain uniform definitions of the required data, which can be adapted.
