COUNCIL ON ENVIRONMENTAL QUALITY

Draft Principles and Standards Sections of the “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies”; Initiation of Revision and Request for Comments

AGENCY: Council on Environmental Quality.

ACTION: Notice of the extension of comment period.

SUMMARY: This notice extends the comment period on a notice published in the **Federal Register** on December 9, 2009 (74 FR 65102). The original date that the comment period would end was March 5, 2010. That date will now be extended until April 5, 2010.

Section 2031 of the Water Resources Development Act of 2007 (Pub. L. 110-114) directs the Secretary of the Army to revise the “Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies,” (P&G) dated March 10, 1983, consistent with a number of considerations enumerated in the statute. The Administration has initiated the development of uniform planning standards for the development of water resources that would apply to water resources development programs and activities government-wide, to agencies in addition to the traditional water resources development agencies covered under the current Principles and Guidelines: the Army Corps of Engineers, Bureau of Reclamation (Interior), Natural Resources Conservation Service (USDA), and Tennessee Valley Authority. Therefore, the Council on Environmental Quality (CEQ), in coordination with the Office of Management and Budget, has implemented a two phase interagency process revising the planning guidance. The first phase focused on facilitating interagency revisions to the “Principles and Standards” (Chapter I of the existing P&G) of Principles and Guidelines for planning water resources projects. The second phase will address revisions to the Procedures (Chapters II through IV of the 1983 P&G).

Upon approval of the revised “Principles and Standards” and the future revision of the Procedures, the entire revision will apply to Federal water resources implementation studies including project reevaluations and modifications except those commenced prior to the issuance of the revised guidance. The purpose of this notice is
