Supplementary Information

Background

On February 6, 2006, the Agency published a final rule for protection of human subjects of research (71 FR 24 6138) that called for creating a new, independent human studies review board (*i.e.*, HSRB). The HSRB is a Federal advisory committee operating in accordance with the Federal Advisory Committee Act (FACA) 5 U.S.C. App. 2 § 9. The HSRB provides advice, information, and recommendations to EPA on issues related to scientific and ethical aspects of human subjects research. The major objectives of the

HSRB are to provide advice and recommendations on: (1) Research proposals and protocols; (2) reports of completed research with human subjects; and (3) how to strengthen EPA's programs for protection of human subjects of research. The HSRB reports to the EPA Administrator through EPA's Science Advisor.

This notice solicits nominations of individuals with expertise in bioethics, biostatistics, human health risk assessment and/or human toxicology to fill anticipated vacancies on the Board. General information concerning the HSRB, including its charter, current membership, and activities can be found on the EPA Web site at <http://www.epa.gov/osa/hsrb/>.

Process and Deadline for Submitting Nominations

Any interested person or organization may nominate someone to be considered as prospective nominees for the HSRB. Additional avenues and resources may be utilized in the solicitation of nominees to encourage a broad pool of expertise. Nominees should be experts who have sufficient professional qualifications, by training and experience, to provide expert comment on the ethical and scientific issues that may come before the HSRB. Responsibilities of HSRB members include reviewing extensive background materials between meetings of the Board, preparing draft responses to Agency charge questions, attending Board meetings, participating in the discussion and deliberations at these meetings, drafting assigned sections of meeting reports, and reviewing and helping to finalize Board reports.

EPA seeks nominees who are nationally recognized experts in one or more of the following areas:

- *Bioethics:* expertise in the ethics of research with human subjects.
- *Biostatistics:* expertise in statistical design and analysis of research with human subjects, especially research with small sample sizes.
- *Human health risk assessment:* expertise in epidemiology, exposure analysis, public health or human research regulations.
- *Human toxicology:* expertise in toxicity of environmental substances, mechanisms of toxicity and/or clinical studies.

All nominations should include: (1) A current curriculum vitae (C.V.) providing the nominee's educational background, qualifications, leadership positions in national associations or professional societies, relevant research experience and publications; and (2) a

summary of the above in a one-page biographical sketch.

The qualifications of nominees for membership on the HSRB will be assessed in terms of the specific expertise sought for the HSRB. Qualified nominees who agree to be considered further will be included in a smaller "Short List". The Short List of nominees' names and biographical sketches will be posted for 14 calendar days for public comment on the EPA Web site at <http://www.epa.gov/osa/index.htm>. The public will be encouraged to provide additional information about the nominees that EPA should consider. At the completion of this comment period, EPA will select new Board members from the Short List. Candidates not selected for HSRB membership at this time may be considered for HSRB membership as vacancies arise in the future, or for service as consultants to the HSRB. The Agency estimates that the names of Short List candidates will be posted in March 2010. However, please be advised that this is an approximate time frame and the date could change. Thus, if you have any questions concerning posting of Short List candidates on the OSA Web site, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

Interested candidates who are employees of a Federal department or agency (other than EPA) or are members of another federal advisory committee are eligible to serve on the HSRB, and their nominations are welcome. Other factors that will be considered include: Availability to participate in the Board's scheduled meetings, absence of any conflicts of interest and absence of an appearance of a lack of impartiality, and independence with respect to the matters likely to come under HSRB review. Though financial conflicts of interest or the appearance of a lack of impartiality, lack of independence, or bias may lead to nonselection, the absence of such concerns does not ensure that a candidate will be selected to serve on the HSRB. Numerous qualified candidates are likely to be identified. Selection decisions will involve careful weighing of many factors, including, but not limited to, the candidates' areas of expertise and professional qualifications, and responses to the Short List in achieving the overall balance of different perspectives and areas of expertise on the Board.

Members of the HSRB are subject to the provisions of 5 CFR part 2634, Executive Branch Financial Disclosure, as supplemented by the EPA in 5 CFR part 6401. In anticipation of this requirement, each nominee will be

asked to submit confidential financial information which shall fully disclose, among other financial interests, the candidate's employment, stocks and bonds, and where applicable, sources of research support. The information provided is confidential and will not be disclosed to the public. Before a candidate is considered further for service on the HSRB, EPA will evaluate each candidate to assess whether there is any conflict of financial interest, appearance of a lack of impartiality, or prior involvement with matters likely to be reviewed by the Board.

Nominations should be submitted by one of the methods listed under **ADDRESSES**. The Agency will consider all nominations received on or before *March 22, 2010*. Final selection of members is a discretionary function of the Agency and will be announced on the EPA Web site at <http://www.epa.gov/osa/hsrb> as soon as they are made.

Dated: March 2, 2010.

Paul T. Anastas,
Science Advisor.
