

sustainable levels. According to the Act, these measures must be adopted by 2011. Amendment 5 will also include revised biological and management reference points to bring the FMP into compliance with revised National Standard 1 Guidelines. Further, Amendment 5 will specify total allowable catch targets and associated days-at-sea (DAS) and trip limits for the directed fishery to supplant the current specifications that it adopted for the 2007–2009 fishing years along with an extension provision which will apply for the 2010 fishing year. Amendment 5 contains proposals to make modifications to the FMP to improve the Research Set-Aside (RSA) Program, to minimize bycatch resulting from trip limit overages, to accommodate those vessels fishing in groundfish sectors who would no longer be required to use their allocated groundfish DAS, to require all limited access monkfish vessels to use a VMS when on a monkfish DAS, and to allow the landing of monkfish heads.

The public hearing document, as well as the draft Amendment 5 document incorporating an Environmental Assessment, is available on the Monkfish page of the Council's website (www.nefmc.org) or from the Council office.

After the close of the public comment period, the Monkfish Oversight Committee and Industry Advisory Panel will review the comments and develop recommendations to the New England and Mid-Atlantic Fishery Management Councils on the measures to be submitted as final action for Amendment 5. The Councils will make their decisions in April, 2010 for submission to the National Marine Fisheries Service (NMFS). If approved by NMFS, Amendment 5 will take effect at the start of the 2011 fishing year.

The disclosure is limited to information necessary to establish the identity of the individual, including name, address, and taxpayer identification number (TIN) or Social Security Number (SSN), the amount, status, and history of the claim; and the agency or program under which the claim arose for the sole purpose of allowing the consumer reporting agency to prepare a commercial credit report.

accessible only to authorized personnel. Central Processing Units are located in a physically controlled access area requiring either a badge or card swipe for entry. Workstations are controlled via Common Access Cards (CAC) with application specific generated forced password change protocols if the application itself is not CAC enabled. Passwords are tested for strength at the time of selection. Users are warned of the consequences of improperly accessing restricted databases and data misuse at each login, during staff meetings, and during separate Information Assurance and Privacy Act training.
