A small business guide on compiling with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: http://www.ams.usda.gov/AMSv1.0/amsfetchTemplateData.do?template=TemplateN&page=MarketingOrdersSmallBusinessGuide. Any questions about the compliance guide should be sent to Antoinette Carter at the previously mentioned address in the FOR FURTHER INFORMATION CONTACT section.

Comments from many of those attending the May 14th meeting indicated that a mandatory change in size and pack requirements would not be well received by the industry at this time, and that the less restrictive recommendation subsequently made should adequately solve the current marketing problem. This rule would not impose any additional reporting or recordkeeping requirements on either small or large sweet cherry handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies. In addition, USDA has not identified any relevant Federal rules that duplicate, overlap or conflict with this rule.

AMS is committed to complying with the E-Government Act, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes. Further, the Committee meeting was widely publicized throughout the Washington cherry industry and all interested persons were invited to attend the meeting and participate in the deliberations. Like all Committee meetings, the May 14, 2009, meeting was a public meeting and all entities, both large and small, were able to express their views on this issue. Finally, interested persons are invited to submit comments on this interim final rule, including the regulatory and informational impacts of this action on small businesses.
