SUPPLEMENTARY INFORMATION:

I. Background

The Occupational Employment Statistics (OES) survey is a Federal/State establishment survey of wage and salary workers designed to produce data on current occupational employment and

wages. OES survey data assist in the development of employment and training programs established by the 1998 Workforce Investment Act (WIA) and the Perkins Vocational Education Act of 1998.

The OES program operates a periodic mail survey of a sample of non-farm establishments conducted by all fifty States, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. Over three-year periods, data on occupational employment and wages are collected by industry at the four- and five-digit North American Industry Classification System (NAICS) levels. The Department of Labor uses OES data in the administration of the Foreign Labor Certification process under the Immigration Act of 1990.

II. Current Action

Office of Management and Budget clearance is being sought for the Occupational Employment Statistics (OES) program. Occupational employment data obtained by the OES survey are used to develop information regarding current and projected employment needs and job opportunities. These data assist in the development of State vocational education plans. OES wage data provide a significant source of information to support a number of different Federal, State, and local efforts.

As part of an ongoing effort to reduce respondent burden, OES has several electronic submission options which are available to respondents. Respondents have the ability to submit data by e-mail, or fillable online forms. In many cases, a respondent can submit existing payroll records and would not need to submit a survey form.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: Extension of a currently approved collection.

Agency: Bureau of Labor Statistics.

Title: Report on Occupational Employment and Wages.

OMB Number: 1220-0042.

Affected Public: Business or other for-profit, Not-for-profit institutions, Federal Government, State, Local, or Tribal Government.

Average Time per Response: 45 minutes.

Estimated Total Burden Hours: 236,925.

Total Burden Cost (capital/startup): \$00.00.

Total Burden Cost (operating/maintenance): \$00.00.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 26th day of February, 2010.

Kimberley D. Hill,

SUPPLEMENTARY INFORMATION:

I. Background

The VETS/USERRA/VP Form 1010 (VETS-1010 Form) is used to file complaints with the Department of Labor's Veterans' Employment and Training Service (VETS) under either the Uniformed Services Employment and Reemployment Rights Act (USERRA) or laws/regulations related to Veterans' Preference (VP) in Federal employment.

On October 13, 1994, the Uniformed Services Employment and Reemployment Rights Act (USERRA), Public Law 103-353, 108 Stat. 3150 was signed into law. Contained in Title 38, U.S.C., Sections 4301-4335, USERRA is the replacement for the Veterans' Reemployment Rights (VRR) law. The purpose of USERRA laws and regulations for this information collection requirement include: to protect and facilitate the prompt reemployment of members of the uniformed services (to include National Guard and Reserves); to minimize disruption to the lives of persons who perform service in the uniformed services and their employers; and to encourage individuals to participate in non-career uniformed service. Also, to prohibit discrimination in employment and acts of reprisal against persons because of their obligations in the uniformed services, prior service, intention to join the uniformed services, filing of a USERRA claim, seeking assistance concerning an alleged violation, testifying in a proceeding, or otherwise assisting in an investigation.

The Veterans Employment Opportunities Act (VEOA) of 1998, Public Law 105-339, 112 Stat. 3182, contained in Title 5 U.S.C. 3330a-3330(b), authorizes the Secretary of Labor to provide assistance to preference eligible individuals who believe their rights under the veterans preference laws have been violated. The regulations for this information collection requirement include: to provide preference for certain Veterans (preference eligibles) over others in Federal hiring from competitive lists of applicants; to allow access and open up Federal job opportunities to Veterans that might otherwise be closed to the public; to provide preference eligibles with preference over others in retention during reductions in force in Federal agencies.

Two new questions are included in the VETS-1010 Form, but have no significant impact on the burden hours needed to complete the form. The Veterans' Benefits Improvement Act of 2008 requires VETS to include in its USERRA Annual Report to Congress the
