

### Scoping Process

The scoping period for this EIS was formally initiated on December 30, 2002 when the original Notice of Intent for this project was published in the **Federal Register** (Volume 67, Number 250). While no additional scoping periods are planned prior to the release of the Draft SEIS, those wishing to submit comments may do so at the address listed above for Vernon Keller, NEPA Coordinator. The Forest Service will use a mailing of information to notify interested parties of the preparation of the SEIS. Public involvement will be ongoing throughout the analysis process and at certain times public input will be specifically requested.

It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the Environmental Impact Statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

**Authority:** 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, Section 21.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

NOAA supplies the nation with information, products and services that are essential public goods used in public and private sectors, science institutions and households around the world. Because NOAA's information, products and services are important to both the nation as a whole and to the daily lives of U.S. citizens, NOAA's Science Advisory Board (SAB) has identified a need for more effective two-way communication between its programs and the customers and clients it serves. This survey instrument will be used by NOAA's Office of Education and the Gulf of Mexico Regional Collaboration Team to obtain information used to assess NOAA's accessibility, responsiveness and respect for partners. These parameters are three of the seven parameters included in the Kellogg Engagement Test, which the SAB recommended NOAA use for assessing engagement with constituents. One objective of the survey is to collect responses to provide NOAA with information and feedback from its constituents that will lead to greater emphasis placed on the needs of NOAA partners, techniques to improve NOAA's products and services, and general improvement in the accessibility and responsiveness of NOAA to constituents. A longer term objective is for this survey to become a standard NOAA tool accessing engagement with constituents.

**II. Method of Collection**

Primarily, respondents will be asked to complete the survey online through the web-based survey tool "Survey Monkey" (<http://www.surveymonkey.com>). Alternatively, a print version of the survey will be made available upon request, which can be returned by mail or facsimile.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

Amendment 80 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area primarily allocates several Bering Sea and Aleutian Islands Management Area non-pollock trawl groundfish fisheries among fishing sectors, and facilitates the formation of harvesting cooperatives in the catcher/processor sector of the non-American Fisheries Act (non-AFA) Trawl Catcher/processor Cooperative Program (Program). The Program established a limited access privilege program for the non-AFA trawl catcher/processor sector.

The Amendment 80 economic data report (EDR) collects cost, revenue, ownership, and employment data on an annual basis and provides information unavailable through other means to review the Program. The purpose of the EDR is to understand the economic effects of the Amendment 80 program on vessels or entities regulated by the Program, and to inform future management actions. Data collected through the EDR is mandatory for all Amendment 80 quota share (QS) holders.

**II. Method of Collection**

EDR forms are available in fillable PDF format through the Internet on the NMFS Alaska Region Web site at <http://alaskafisheries.noaa.gov>. Pacific States Marine Fisheries Commission (PSMFC) was designated by NMFS to be the Data Collection Agent for the Amendment 80 EDR Program. PSMFC mails EDR announcements and filing instructions to Amendment 80 QS permit holders by April 1 of each year. Methods of submittal include mail and facsimile transmission of paper forms.
