DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

RIN 2120–AA64

Airworthiness Directives; BAE SYSTEMS (Operations) Limited Model BAe 146 Airplanes and Model Avro 146–RJ Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Supplemental notice of proposed rulemaking (NPRM); reopening of comment period.

SUMMARY: The FAA is revising an earlier NPRM for an airworthiness directive (AD) that applies to all Model BAe 146 airplanes and Model Avro 146–RJ airplanes. The original NPRM would have superseded an existing AD that currently requires revising the Airworthiness Limitations Section [ALS] of the Instructions for Continued Airworthiness to incorporate life limits for certain items and inspections to detect fatigue cracking in certain structures. The original NPRM proposed to require incorporating new and more restrictive life limits for certain items and for certain inspections to detect fatigue cracking in certain structures. The original NPRM resulted from issuance of a later revision to the airworthiness limitations. This new action revises the original NPRM by proposing to require revisions to the airworthiness limitations to include Critical Design Configuration Control Limitations (CDCCL) for the fuel system. We are proposing this supplemental NPRM to ensure that fatigue cracking of certain structural elements is detected and corrected, and to prevent ignition sources in the fuel tanks; fatigue cracking of certain structural elements could adversely affect the structural integrity of these airplanes.

DATES: We must receive comments on this supplemental NPRM by April 5, 2010.

ADDRESSES: You may send comments by any of the following methods:

• Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the instructions for submitting comments.
• Fax: 202–493–2251.
• Mail: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590.

• Hand Delivery: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this AD, contact BAE Regional Aircraft, 13850 McLearen Road, Herndon, Virginia 20171; telephone 703–736–1080; e-mail raebusiness@baesystems.com; Internet http://www.baesystems.com/Businesses/RegionalAircraft/index.htm. You may review copies of the referenced service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington. For information on the availability of this material at the FAA, call 425–227–1221 or 425–227–1152.

Examining the AD Docket

You may examine the AD docket on the Internet at http://www.regulations.gov; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this proposed AD, the regulatory evaluation, any comments received, and other information. The street address for the Docket Office (telephone 800–647–5527) is in the AD docket shortly after receipt.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to send any written relevant data, views, or arguments about this proposed AD. Send your comments to an address listed under the ADDRESSES section. Include “Docket No. FAA–2008–0909; Directorate Identifier 2007–NM–363–AD” at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this proposed AD. We will consider all comments received by the closing date and may amend this proposed AD because of those comments.

We will post all comments we receive, without change, to http://www.regulations.gov, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this proposed AD.

Discussion

The FAA issued a notice of proposed rulemaking (NPRM) (the "original NPRM") to amend 14 CFR part 39 to include an AD that supersedes AD 2005–23–12, amendment 39–14370 (70 FR 70483, November 22, 2005). The existing AD applies to all BAE SYSTEMS (Operations) Limited Model BAe 146 airplanes and Model Avro 146–RJ airplanes. The original NPRM was published in the Federal Register on August 26, 2008 (73 FR 50248). The original NPRM proposed to supersede the existing AD to continue to require revising the Airworthiness Limitations Section (ALS) of the Instructions for Continued Airworthiness to incorporate life limits for certain items and inspections to detect fatigue cracking in certain structures. The original NPRM also proposed to require revising the ALS of the Instructions for Continued Airworthiness to incorporate new and more restrictive life limits for certain items and new and more restrictive inspections to detect fatigue cracking in certain structures.

Actions Since Original NPRM Was Issued

In addition, EASA AD 2009–0020, dated February 5, 2009, states that Sub-chapter 05–20–00, titled “Scheduled Maintenance,” now includes references to the following BAE SYSTEMS (Operations) Limited BAe 146 Series/Avro146–RJ Series support documents: Maintenance Review Board Report (MRBB), Corrosion Prevention and Control Program (CPCP), and Supplemental Structural Inspection
Document (SSID). We have included Notes 2, 3, 4, and 5 of this supplemental NPRM to refer to the sub-chapters and related support documents.

In addition, we have revised paragraph (h) of this supplemental NPRM (paragraph (g) of the original NPRM) to remove reference to Section 05–10 and 05–20 of Chapter 5 of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series AMM. However, we have provided references to certain sub-chapters of Chapter 5 of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series AMM as a source of information for complying with the proposed requirements of paragraph (h) of this supplemental NPRM.

Also, we have revised paragraph (h) of this supplemental NPRM (paragraph (g) of the original NPRM) to refer to “Chapter 5 of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series Aircraft Maintenance Manual,” instead of “the ALS of the Instructions for Continued Airworthiness” as it was referred to in the original NPRM.

We have also added new paragraph (d) to this supplemental NPRM to specify the Air Transport Association (ATA) of America code identifying the subject, and re-identified the subsequent paragraphs accordingly.

Relevant Service Information

BAE SYSTEMS (Operations) Limited has issued Revision 97, dated July 15, 2009, to Sections 05–10, 05–15, and 05–20 of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series AMM, which includes the CDCCLs. The CDCCLs provide instructions to retain critical ignition source prevention features during configuration changes that may be caused by modification, repair, or maintenance actions.

Messier-Dowty has issued Service Bulletin 146–32–171, dated August 11, 2009, which is an optional action to extend the life limits of the main landing gear. We have added paragraph (j) to this supplemental NPRM to specify doing the service bulletin for extending the life limits of the main landing gear from 32,000 landings to 50,000 landings on the main fitting, and re-identified the subsequent paragraphs accordingly.

The EASA mandated the service information and issued Airworthiness Directive 2009–0215, dated October 7, 2009, to ensure the continued airworthiness of these airplanes in the European Union.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701, “General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We have determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that the proposed regulation:
1. Is not a “significant regulatory action” under Executive Order 12866;
2. Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a regulatory evaluation of the estimated costs to comply with this supplemental NPRM and placed it in the AD docket. See the ADDRESSES section for a location to examine the regulatory evaluation.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:
§ 39.13 [Amended]

2. The Federal Aviation Administration (FAA) amends § 39.13 by removing amendment 39–14370 (70 FR 70483, November 22, 2005) and adding the following new airworthiness directive (AD):

Comments Due Date

(a) The FAA must receive comments on this AD action by April 5, 2010.

Affected ADs

(b) This AD supersedes AD 2005–23–12, amendment 39–14370.

Applicability

(c) This AD applies to all BAE SYSTEMS (Operations) Limited Model BAe 146–100A, –200A, and –300A series airplanes; and Model Avro 146–RJ70A, 146–RJ85A, and 146–RJ100A airplanes; certified in any category.

Note 1: This AD requires revisions to certain operator maintenance documents to include new inspections. Compliance with these inspections is required by 14 CFR 91.403(c). For airplanes that have been previously modified, altered, or repaired in the areas addressed by these inspections, the operator may not be able to accomplish the inspections described in the revisions. In this situation, to comply with 14 CFR 91.403(c), the operator must request approval for an alternative method of compliance (AMOC) according to paragraph (k) of this AD. The request should include a description of changes to the required inspections that will ensure the continued operational safety of the airplane.

Subject

(d) Air Transport Association (ATA) of America Code 05.

Unsafe Condition

(e) This AD results from issuance of a later revision to the airworthiness limitations of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series Aircraft Maintenance Manual (AMM), which specifies new inspections and compliance times for inspection and replacement actions. We are issuing this AD to ensure that fatigue cracking of certain structural elements is detected and corrected, and to prevent ignition sources in the fuel tanks; fatigue cracking of certain structural elements could adversely affect the structural integrity of these airplanes.

Compliance

(f) You are responsible for having the actions required by this AD performed within the compliance times specified, unless the actions have already been done.

Restatement of Certain Requirements of AD 2005–23–12

Airworthiness Limitations Revision

(g) Within 30 days after December 27, 2005 (the effective date of AD 2005–23–12), revise the Airworthiness Limitations Section (ALS) of the Instructions for Continued Airworthiness to incorporate new and more restrictive life limits for certain items and new and more restrictive inspections to detect fatigue cracking in certain structures, and to add fuel system Critical Design Configuration Control Limitations (CDCCL) to prevent ignition sources in the fuel tanks, in accordance with a method approved by the Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA; or the European Aviation Safety Agency (EASA) (or its delegated agent). Incorporating the new and more restrictive life limits and inspections into the ALS terminates the requirements of paragraph (g) of this AD, and after incorporation has been done, the limitations required by paragraph (g) of this AD may be removed from the ALS.

Note 2: Guidance on revising Chapter 5 of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series AMM, Revision 97, dated July 15, 2009, can be found in the applicable subchapters listed in Table 1 of this AD.

Note 3: Subchapter 05–15–00 of the BAE SYSTEMS (Operations) Limited BAe146 Series/Avro146–RJ Series AMM, is the CDCCL.

Note 6: Notwithstanding any other maintenance or operational requirements, components that have been identified as airworthy or installed on the affected airplanes before the revision of the ALS, as required by paragraphs (g) of this AD; or before revision of Chapter 5 of the AMM, as required by paragraph (h) of this AD; do not need to be reworked in accordance with the CDCCLs. However, once the ALS or AMM

has been revised, future maintenance actions on these components must be done in accordance with the CDCCs.

(i) Except as specified in paragraph (k) of this AD: After the actions specified in paragraph (g) or (h) of this AD have been accomplished, no alternative inspections or inspection intervals may be approved for the structural elements specified in the documents listed in paragraph (g) or (h) of this AD.

(ii) Modifying the main fittings of the main landing gear in accordance with Messier-Dowty Service Bulletin 146–32–171, dated August 11, 2009, extends the safe limit of the main landing gear main fitting from 32,000 landings to 50,000 landings on the main fitting.

Alternative Methods of Compliance (AMOCs)

(k) The Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: Todd Thompson, Aerospace Engineer, International Branch, ANM–116, FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington 98057–4056; telephone (425) 227–1175; fax (425) 227–1149. Before using any approved AMOC on any airplane to which the AMOC applies, notify your principal maintenance inspector (PMI) or principal avionics inspector (PAI), as appropriate, or lacking aprincipal inspector, your local Flight Standards District Office. The AMOC approval letter must specifically reference this AD.

Related Information

(l) EASA Airworthiness Directive 2009–0215, dated October 7, 2009; and Messier-Dowty Service Bulletin 146–32–171, dated August 11, 2009; also address the subject of this AD.

Issued in Renton, Washington, on March 2, 2010.

Suzanne Masterson,
Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[Docket No. 0908131235–0060–01]
RIN 0691–AA73

International Services Surveys: BE–180, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Foreign Persons

AGENCY: Bureau of Economic Analysis, Commerce.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would amend regulations of the Bureau of Economic Analysis, Department of Commerce (BEA) to set forth the reporting requirements for the BE–180, Benchmark Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons. The BE–180 would replace a similar but more limited survey, the BE–80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons. The agency form number and survey title are being changed because the survey would include the collection of data on transactions with affiliated foreigners and unaffiliated foreigners using the same survey instrument. If adopted the BE–180 survey would be conducted once every five years beginning with fiscal year 2009.

The proposed BE–180 survey is intended to cover financial services transactions with foreign persons. In nonbenchmark years, the universe estimates covering these transactions would be derived from the sample data reported on BEA’s follow-on survey (BE–185, Quarterly Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons).

The data will be used by BEA to estimate the financial services component of the U.S. International Transactions Accounts and other economic accounts compiled by BEA. The data also are needed by the government to monitor U.S. exports and imports of financial services; analyze their impact on the U.S. and foreign economies; support U.S. international trade policy on financial services; and assess and promote U.S. competitiveness in international trade in services. In addition, they will improve the ability of U.S. businesses to identify and evaluate market opportunities.

DATES: Comments on this proposed rule will receive consideration if submitted in writing on or before 5 p.m. May 10, 2010.

addresses: You may submit comments by any of the following methods:

• Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments. For agency, select “Commerce Department—all.”
• E-mail: Christopher.Emond@bea.gov.
• Fax: (202) 606–9826.

Public Inspection: All comments received are a part of the public record and will generally be posted to http://www.regulations.gov without change. All personal identifying information (for example, name, address, etc.) voluntarily submitted by the commentator may be publicly accessible. Do not submit confidential business information or otherwise sensitive or protected information. BEA will accept anonymous comments.

• Hand Delivery/Courier: Chris Emond, Chief, Special Surveys Branch, Balance of Payments Division, U.S. Department of Commerce, Bureau of Economic Analysis, BE–50, Shipping and Receiving Section, M100, 1441 L Street, NW., Washington, DC 20005.

Please include in your comment a reference to RIN 0691–AA73 in the subject line. Written comments regarding the burden-hour estimates or other aspects of the collection-of-information requirements contained in the proposed rule should be sent both to BEA, through any of the methods listed above, and to the Office of Management and Budget, O.I.R.A., Paperwork Reduction Project, Attention PRA Desk Officer for BEA, via e-mail at pbugg@omb.eop.gov, or by FAX at 202–395–7245.

SUPPLEMENTARY INFORMATION: This proposed rule would amend 15 CFR Part 801 to set forth the reporting requirements for the BE–180, Benchmark Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons. The BE–180 would replace a similar but more limited survey, the BE–80, Benchmark Survey of Financial Services Transactions Between U.S. Financial Services Providers and Unaffiliated Foreign Persons, and would include the collection of data on transactions with affiliated foreigners and unaffiliated foreigners. The proposed BE–180 survey is intended to cover financial services transactions with foreign persons. In nonbenchmark years, the universe estimates covering these transactions would be derived from the sample data reported on BEA’s follow-on survey (BE–185, Quarterly Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons).
