II. Description of New Chemical

EPA received an application from the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (USDA, APHIS), Environmental Services Unit 149, 4700 River Road, Riverdale, MD 20737, to register the pesticide product, Gonacon Immunocontraceptive Vaccine, contraceptive (EPA File Symbol 56228-

GN), containing 1.0 milliliter doses in pre-packaged syringes at .03% active ingredient. This product was not previously registered.

III. Regulatory Conclusions

The application was approved on September 29, 2009, as Gonacon Immunocontraceptive Vaccine (EPA Registration Number 56228-40) for contraception of white-tailed deer. The Agency approved the application after considering all required data on risks associated with the proposed use of Mammalian Gonadotropin Releasing Hormone (GnRH), and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency concluded the determinations made pursuant to FIFRA section 3(c)(5) require registration of GnRH.

IV. Missing Data

Conditional data required for GonaCon consists of:

- OPPTS Harmonized Test Guideline 830.1700—Validating the method of analysis of the formulation and additional preliminary analysis.
- OPPTS Harmonized Test Guideline 830.1750—Certified Limits.

V. Response to Comments

EPA published a notice of receipt in the **Federal Register** of May 1, 2009 (74 FR 20298) (FRL-8404-9), which announced that the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (USDA, APHIS), Environmental Services Unit 149, 4700 River Road, Riverdale, MD 20737, had submitted an application to register the pesticide product, Gonacon Immunocontraceptive Vaccine contraceptive. During the public comment period for this active ingredient one comment was received from a private citizen who did not oppose the manufacturing or selling of this product, but rather the hunting of animals, therefore no response was necessary.
