is delegated the authority to regulate natural gas imports and exports under section 3 of the Natural Gas Act of 1938, 15 U.S.C. 717b. In order to carry out its delegated responsibility, FE requires those persons seeking to import or export natural gas to file an application containing the basic information about the scope and nature of the proposed import/export activity. Historically, FE has collected information on a quarterly and monthly basis regarding import and export transactions. That information has been used to ensure compliance with the terms and conditions of the authorizations. In addition, the data are used to monitor North American gas trade, which, in turn, enables the Federal government to perform market and regulatory analyses; improve the capability of industry and the government to respond to any future energy-related supply problems; and keep the general public informed of international natural gas trade.

7. Business or other for-profit (or other appropriate type of respondents).
8. There are 12,110 total burden hours, and 325 total respondents. Short-term and long term applications are filed annually, and applicants who hold authorizations file a monthly report.
