 EPA hereby makes a tentative affirmative determination that adequate

facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of the New York State Canal System, including the 524 linear miles of navigable waterways within Erie, Oswego, Champlain, and Cayuga-Seneca canal segments, and including Onondaga, Oneida, and Cross Lakes. A 30-day period for public comment has been opened on this matter which may result in a prohibition of all sewage discharges from vessels in the above-described NYS Canal System in New York.

Dated: March 4, 2010.
