**SUPPLEMENTARY INFORMATION:****I. Background**

Section 101(c) of the Federal Mine  
Safety and Health Act of 1977 (Mine  
Act) allows the mine operator or  
representative of miners to file a  
petition to modify the application of any  
mandatory safety standard to a coal or  
other mine if the Secretary determines  
that: (1) An alternative method of  
achieving the result of such standard  
exists which will at all times guarantee  
no less than the same measure of  
protection afforded the miners of such  
mine by such standard; or (2) that the  
application of such standard to such  
mine will result in a diminution of  
safety to the miners in such mine. In  
addition, the regulations at 30 CFR  
44.10 and 44.11 establish the  
requirements and procedures for filing  
petitions for modification.

**II. Petitions for Modification**

The petitioner states that: (1) This  
petition will apply only to trailing  
cables supplying three-phase, 480-volt
