

determination; no use of Section 4(f) properties; and a Finding of No Significant Impact (FONSI) signed February 17, 2010. *Supporting documentation:* Environmental Assessment dated December 2009.

5. *Project name and location:* Three Infill Stations for the Central Corridor Light Rail Transit Project, St. Paul, MN. *Project sponsor:* Metropolitan Council. *Project description:* The project will construct three infill stations on the Central Corridor Light Rail Transit Project that will connect downtown Minneapolis and St. Paul, Minnesota. Previously, in August 2009, a Record of Decision was issued by FTA for constructing the original 10.9 mile light rail project that included only the below-grade infrastructure for the infill stations but did not include the above-grade stations. After the ROD was issued, however, a decision was made to construct the three above-ground infill stations in the Midway East section of the rail corridor. The Midway East section contains both residential and commercial properties. *Final agency actions:* Section 106 finding of no adverse effect; project-level air quality conformity determination; no use of Section 4(f) properties; and a Finding of No Significant Impact (FONSI) signed February 26, 2010. *Supporting documentation:* Environmental Assessment dated January 2010.
