(FAR case 2008–027)**This final rule adopts, with changes,
the proposed rule published in the
Federal Register on September 3, 2009
(74 FR 45579); and amends the FAR to
implement section 872 of the Duncan
Hunter National Defense Authorization
Act for Fiscal Year 2009. Section 872
requires the establishment of a data
system, Federal Awardee Performance
and Integrity Information System
(FAPIIS), containing specific
information on the integrity and
performance of covered Federal agency
contractors and grantees. FAPIIS is
available for use in award decisions at
www.ppirs.gov. Government input to
FAPIIS is accomplished at
www.cpars.csd.disa.mil.FAPIIS is intended to significantly
enhance the scope of information
available to contracting officers as they
evaluate the integrity and performance
of prospective contractors competing for
Federal contracts and to protect
taxpayers from doing business withcontractors that are not responsible
sources. This final rule impacts
Government contracting officers and
contractors. The Government
contracting officers will be required to—

- Check the FAPIIS website, available
at www.ppirs.gov, before awarding a
contract over the simplified acquisition
threshold, consider all the information
in FAPIIS and PPIRS when making a
responsibility determination, and notify
the agency official responsible for
initiating debarment or suspension
action if the information appears
appropriate for the official's
consideration; and

- Enter a non-responsibility
determination into FAPIIS.

The contractor will be required to:

1. Confirm, at the time of offer
submission, information pertaining to
criminal, civil and administrative
proceedings through which a requisite
determination of fault was made, and
report this information into FAPIIS; and

2. Update the information in FAPIIS
on a semi-annual basis, throughout the
life of the contract, by entering the
required information into FAPIIS via the
Central Contractor Registration
database, available at [http://
www.ccr.gov](http://www.ccr.gov).
