Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. What Information Particularly Interests EPA?

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.

3. Provide copies of any technical information and/or data you used that support your views.

4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.

5. Offer alternative ways to improve the collection activity.

6. Make sure to submit your comments by the deadline identified under **DATES**.

7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

To What Information Collection Activity or ICR Does This Apply?

Docket ID No. EPA-HQ-OAR-2003-0120.

Affected Entities: Entities potentially affected by this action as respondents are manufacturers and importers of automobile refinish coatings and coating components. Manufacturers of automobile refinish coatings and coating components fall within standard industrial classification (SIC) 2851, "Paints, Varnishes, Lacquers, Enamels, and Allied Products" and North American Industry Classification System (NAICS) code 325510, "Paint and Coating Manufacturing." Importers of automobile refinish coatings and coating components fall within SIC 5198, "Wholesale Trade: Paints, Varnishes, and Supplies," NAICS code 422950, "Paint, Varnish and Supplies Wholesalers," and NAICS code 444120, "Paint and Wallpaper Stores."

Title: Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings (40 CFR part 59).

ICR number: EPA ICR Number 1765.07, Office of Management and Budget (OMB) Control Number 2060-0353.

ICR status: This ICR is currently scheduled to expire on June 30, 2010. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9. Under OMB regulations, the

Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are subject to the standards, based on dates of manufacture.

EPA provided notice and sought comments on the previous ICR renewal on July 8, 2003 (68 FR 40654) and January 25, 2007 (72 FR 3387) pursuant to 5 CFR 1320.8(d). The EPA received no comments to that notice.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average four hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 4.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: One or less per year.

Estimated total annual burden hours: 14.

Estimated total annual costs: \$940. This includes an estimated burden cost of \$0 and an estimated cost of \$0 for

capital investment or maintenance and operational costs.

Are There Changes in the Estimates From the Last Approval?

There are no changes being made to the estimates in this ICR from what EPA estimated in the earlier renewal (2007) of this ICR.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: March 15, 2010.

Director, Sector Policies and Programs Division.

FEDERAL MARITIME COMMISSION

Fact Finding Investigation No. 26; Vessel Capacity and Equipment Availability in the United States Export and Import Liner Trades; Order of Investigation

March 17, 2010.

Pursuant to the Shipping Act of 1984, 46 U.S.C. 40101 *et seq.* ("Shipping Act"), the Federal Maritime Commission ("FMC" or "Commission") is charged with regulating the common carriage of goods by water in the foreign commerce of the United States ("liner service"). In doing so, the Commission must be mindful of the statutory purpose of its regulation. Those purposes include a non-discriminatory regulatory process, an efficient and economic transportation system, and promotion of the growth and development of U.S. exports. 46 U.S.C. 40101.

Like many sectors of the global economy, in 2009 shippers and ocean carriers experienced one of the worst years in the more than fifty-year history of international containerized shipping.
