The NPRM is being withdrawn so that the revocation of the existing Class C airspace at Columbus Metropolitan Airport will coincide with the establishment of the Class D airspace in Columbus, GA.

DATES: Effective March 23, 2010. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On Thursday, March 11, 2010, a Notice of Proposed Rulemaking was published in the **Federal Register** to establish Class D airspace and modify existing Class E airspace at Columbus, GA. Due to a decrease in air traffic volume at Columbus Metropolitan Airport a less restrictive Class D airspace would be established with specific dates and times established in advance by a Notice to Airmen. The existing Class E surface area would be modified to be coincident with the newly established Class D airspace.

In consideration of the need for the effective dates to coincide for the revocation of Class C airspace and the establishment of Class D airspace at Columbus Metropolitan Airport, Columbus, GA, action is being taken to withdraw the aforementioned legislative mandate. Therefore, action to establish Class D airspace in Columbus, GA, is premature and unnecessary at this time.

Customs Broker Recordkeeping Requirements Regarding Location and Method of Record Retention

AGENCY: Customs and Border Protection, Department of Homeland Security; Department of the Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document proposes amendments to title 19 of the Code of Federal Regulations regarding customs broker recordkeeping requirements as they pertain to the location and method of record retention. Specifically, Customs and Border Protection (CBP) proposes to amend the CBP regulations to permit a licensed customs broker to store records relating to his customs transactions at any location within the customs territory of the United States, so long as the broker's designated recordkeeping contact, identified in the broker's permit application, makes all records available to CBP within a reasonable period of time from request at the broker district that covers the CBP port to which the records relate. This document also proposes to remove the requirement, as it currently applies to brokers who maintain separate electronic records, that certain entry records must be retained in their original format for the 120-day period after the release or conditional release of imported merchandise. The changes proposed in this document are intended to conform CBP's recordkeeping requirements to reflect modern business practices whereby documents are often generated, stored and transmitted in an electronic format. The proposed changes serve to remove duplicative recordkeeping requirements and streamline recordkeeping procedures for brokers who maintain electronic recordkeeping systems without

compromising the agency's ability to monitor and enforce recordkeeping compliance.

DATES: Comments must be received on or before May 24, 2010.

ADDRESSES: You may submit comments, identified by *USCBP docket number*, by one of the following methods:

Public Participation

Interested persons are invited to participate in this rulemaking by submitting written data, views, or arguments on all aspects of the proposed rule. Customs and Border Protection (CBP) also invites comments that relate to the economic, environmental, or federalism effects that might result from this proposed rule. If appropriate to a specific comment, the commenter should reference the specific portion of the proposed rule, explain the reason for any recommended change,

and include data, information, or authority that support such recommended change.

Background

This document proposes amendments to title 19 of the Code of Federal Regulations (19 CFR) regarding broker recordkeeping requirements as they pertain to the location and method of record retention.

Many recordkeeping requirements that were once deemed necessary to ensure CBP's ability to monitor broker compliance and enforce the regulations were promulgated at a time when most records existed in a paper format. New technologies in data processing have served to streamline business operations and have drastically changed or rendered obsolete many long-standing business practices.

Location of Stored Records

As the trade operates in an increasingly paperless environment, this document proposes amendments to the CBP regulations that would permit a licensed customs broker to store records relating to its customs transactions at any location within the customs territory of the United States, so long as the designated recordkeeping contact identified in the broker's applicable permit application makes all records available to CBP within a reasonable period of time from request at the broker district that covers the CBP port to which the records relate. These amendments serve to modernize the CBP regulations to reflect the automated commercial environment in which most documents are generated, stored and transmitted electronically, while preserving the agency's ability to monitor and enforce recordkeeping compliance.

Method of Entry Record Storage During Prescribed 120-Day Period From Release or Conditional Release of Imported Merchandise

The recordkeeping provisions set forth in part 163 of title 19 of the CFR require the retention of records for a 5-year period either in their original format (*i.e.*, as created or received by the person responsible for maintenance) or in an alternative format (*i.e.*, electronic formats that are in compliance with generally accepted business standards), unless the records are entry documents (excluding packing lists) in which case they must be retained in their original formats for the prescribed 120-day period from release or conditional release of the imported merchandise.

Currently, all records relating to a broker's customs business, even if

originally submitted in paper, are typically stored in an electronic format as the broker receives them and/or at the time the broker files the entry summary in satisfaction of the general 5-year record retention requirement. In situations where the "original" entry documents are in an electronic format, there is no undue hardship in electronically retaining the records for the prescribed 120-day period inasmuch as it runs concurrently with the requisite 5-year document retention period. However, where the "original" entry documents are in a paper format, the broker currently must keep the "original" paper entry records for the prescribed 120-day period regardless of the fact that these same records have already been stored electronically. In these situations, a broker will end up retaining two sets of records (one paper and one electronic) for the same document. Moreover, because the period of retention for original entry documents varies depending on the extent of the "conditional release" period and/or whether a redelivery notice has been issued, a broker is precluded from establishing a reliable schedule for the systematic destruction of these types of documents. In most cases, a broker ends up maintaining both sets of records for the entire 5-year recordkeeping period.

This document proposes to remove this duplicative record retention requirement as it currently applies to brokers who maintain separate electronic records. While importers still must retain entry records in their original format for the 120-day period after the release or conditional release of imported merchandise, brokers who are not serving as the importer of record are exempted from this requirement so long as they retain all records electronically for 5 years. In addition, this exemption does not apply to brokers who do not maintain electronic records (that is, all brokers who only transmit paper documents to CBP). Also, this exemption does not apply to any document that is required by law to be maintained as a paper record, such as some softwood lumber documents.

Explanation of Amendments

For the reasons described above, it is proposed to amend §§ 111.23 and 163.5 of title 19 of the CFR (19 CFR 111.23 and 163.5) regarding broker recordkeeping requirements as they pertain to the location and method of record retention. It is also proposed to amend § 163.12 (19 CFR 163.12) to reflect address changes. A more detailed explanation of the proposed amendments, other than those involving

technical corrections or minor wording and editorial changes, is set forth below.

Section 111.23: Retention of Records

Section 111.23 sets forth entry record retention requirements. Paragraph (a)(1) of this section describes where records must be kept. Paragraph (a)(2) provides, in pertinent part, that the records described in paragraph (a)(1) of this section, other than powers of attorney, must be retained for at least 5 years after the date of entry. Paragraph (b) prescribes the manner by which brokers may exercise the option to store records on a consolidated system. This provision requires a broker to submit written notice to CBP providing each address at which the broker intends to maintain the consolidated records, a detailed statement describing all the records to be maintained at each location and the methodology of storage, as well as an agreement that there will be no change in the records or their method of storage without first notifying Regulatory Audit.

As CBP proposes to permit a licensed customs broker to store records relating to its customs transactions at any location within the customs territory of the United States, and to remove the requirement that the records must be retained within the specified broker district, a separate consolidated system of record retention as prescribed by existing § 111.23(b) is no longer necessary. Accordingly, CBP proposes to remove current paragraph (b) in § 111.23 and to restructure § 111.23 to set forth the new standards applicable to the location of record storage in paragraph (a), and to redesignate existing paragraph (a)(2), which pertains to the period of record retention, as paragraph (b).

Section 163.5: Methods for Storage of Records

Section 163.5 of title 19 of the CFR prescribes the manner by which records must be stored. Within § 163.5, paragraph (a) sets forth the storage requirements applicable to original records and provides that all persons listed in § 163.2 (*i.e.*, owners, importers, consignees, importers of record, entry filers, or other persons) must maintain all records required by law and regulation for the required retention periods and as original records, whether paper or electronic, unless alternative storage methods have been adopted.

Paragraph (b) prescribes the standards applicable to "alternative methods of storage" and states that any record, other than those that are specifically required by law to be maintained as original, may be stored in an alternative format.

Section 163.5(b)(2)(iii) identifies entry records, other than packing lists, as among the types of records that must be stored “in their original formats” for a prescribed time period. It is proposed to amend § 163.5(b)(2)(iii) to provide that the requirement to store entry records in their original format for the prescribed time period is limited to importers, brokers who are serving as importers of records, and brokers who only maintain paper records.

Section 163.5(b)(5) sets forth the manner by which CBP will address a failure to comply with alternative storage requirements. This provision currently states that if a person uses an alternative storage method for records that is not in compliance with the regulations, the appropriate CBP office may instruct the person in writing to immediately discontinue the use of such method. The instruction to discontinue the alternative storage method, per the regulations, is effective upon receipt. This document proposes to amend § 163.5(b)(5) to provide that, prior to a discontinuance of the alternative storage method, CBP will provide the recordkeeper with 30-days written prior notice that describes the facts giving rise to the action. If, within that 30-day period, the recordkeeper provides written notice to CBP that establishes, to CBP’s satisfaction, that compliance has been achieved, the alternative storage method may continue. Failure to timely respond to CBP will result in CBP requiring discontinuance of the alternative storage method.

The Regulatory Flexibility Act and Executive Order 12866

Because these proposed amendments liberalize broker recordkeeping requirements, and place no new regulatory requirements on small entities to change their business practices, pursuant to the provisions of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, it is certified that, if adopted, the proposed amendments will not have a significant economic impact on a substantial number of small entities. Further, these proposed amendments do not meet the criteria for a “significant regulatory action” as specified in E.O. 12866.

Paperwork Reduction Act

The information collections contained in this proposed rule have been previously submitted and approved by the Office of Management and Budget (OMB) and assigned OMB control numbers 1651–0076 and 1651–0034. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it

displays a valid control number assigned by OMB.
