If you have any questions regarding the applicability of this action to a particular entity, consult the person listed at the end of the pesticide petition summary of interest.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the

disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have a typical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What Action is the Agency Taking?

EPA is announcing its receipt of several pesticide petitions filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C.

346a, proposing the establishment or modification of regulations in 40 CFR part 174 or part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petitions described in this notice contain the data or information prescribed in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the pesticide petitions. Additional data may be needed before EPA can make a final determination on these pesticide petitions.

Pursuant to 40 CFR 180.7(f), a summary of each of the petitions that are the subject of this notice, prepared by the petitioner, is included in a docket EPA has created for each rulemaking. The docket for each of the petitions is available on-line at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), (21 U.S.C. 346a(d)(3)), EPA is publishing notice of the petition so that the public has an opportunity to comment on this request for the establishment or modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

Adequate enforcement methods are available for analysis of residues of glyphosate and its metabolite AMPA in or on plant and livestock commodities. These methods include: Gas liquid chromatography (GLC) — Method I in PAM II, 0.05 ppm LOD; HPLC with fluorometric detection, 0.0005 ppm LOD; and GC/MS in crops validated by EPA's Analytical Chemistry Laboratory (ACL). There are two adequate methods listed in FDA's Pesticide Analytical Manual (PAM Vol. II) for purposes of data collection and enforcement of tolerances for residues of amitraz and its metabolites containing the 2,4-DMA moiety. Methods I (designed for animal tissues and milk) and II (designed for plant commodities) are both gas liquid chromatography (GLC) methods with electron capture detection (ECD), and convert residues of amitraz to 2,4-DMA by acid and base hydrolysis, respectively. The LOD are 0.01 ppm for milk and 0.05 ppm for plant and other animal commodities. Amitraz, and its metabolites containing the 2,4-DMA moiety have been tested using the Food and Drug Administration's (FDA's) Multi-residue Method Protocol D; the metabolite BTS-27919 was the only compound which could be analyzed by this protocol. Amended Tolerance

PP 9F7644. (EPA-HQ-OPP-2009-0988). Monsanto Company, 1300 I St., NW., Suite 450 East, Washington, DC 20052, proposes to amend the tolerances in 40 CFR 180.364 for residues of the herbicide glyphosate, N-(phosphonomethyl) glycine, in or on corn, sweet, kernels plus cob with husk be removed at 3 ppm; and correction of the glyphosate tolerance in the commodity poultry, meat from 4 ppm to 0.1 ppm. Adequate enforcement methods are available for analysis of residues of glyphosate and its metabolite AMPA in or on plant and livestock commodities. These methods include: GLC - Method I in PAM II, 0.05 ppm LOD; HPLC with fluorometric detection, 0.0005 ppm LOD; and GC/MS in crops validated by EPA's Analytical Chemistry Laboratory (ACL).
