

Reactor Security Requirements, 74 FR 13926 (March 27, 2009)].

The licensee currently maintains a security system acceptable to the NRC and will continue to provide acceptable physical protection of Palisades in lieu of the new requirements in 10 CFR Part 73. Therefore, the extension of the implementation date of the new requirements of 10 CFR Part 73 to August 31, 2010, would not have any significant environmental impacts.

The NRC staff's safety evaluation will be provided in the exemption that will be issued as part of the letter to the licensee approving the exemption to the regulation, if granted.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed actions, the NRC staff considered denial of the proposed actions (*i.e.*, the "no-action" alternative). Denial of the exemption request would result in no change in current environmental impacts. If the proposed action was denied, the licensee would have to comply with the March 31, 2010, implementation deadline. The environmental impacts of the proposed exemption and the "no action" alternative are similar.

Alternative Use of Resources

The action does not involve the use of any different resources than those considered in the Final Environmental Statement for the Palisades, dated February 1978, supplemented by NUREG-1437, Supplement 27, "Generic Environmental Impact Statement for License Renewal of Nuclear Plants," dated October 12, 2006.

Agencies and Persons Consulted

In accordance with its stated policy, March 8, 2010, the NRC staff consulted with the Michigan State official, Mr. Ken Yale, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated January 14, 2010, as supplemented by letter dated February 16, 2010. Portions of January 14, 2010, and February 16, 2010, submittals contain security related information

and, accordingly, are not available to the public. Other parts of these documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Room O-1F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852. Publicly available records will be accessible electronically from the Agencywide Document Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site: <http://www.nrc.gov/reading-rm/adams.html>.

- III. Ordering Paragraphs

I. Introduction

On March 18, 2010, the Postal Service filed a notice announcing that it has entered into three additional Global Expedited Package Services 2 (GEPS 2) contracts.¹ The Postal Service believes the instant contracts are functionally equivalent to previously submitted GEPS 2 contracts, and are supported by Governors' Decision No. 08-7, attached to the Notice and originally filed in Docket No. CP2008-4. *Id.* at 1, Attachment 3. The Notice also explains that Order No. 86, which established GEPS 1 as a product, also authorized functionally equivalent agreements to be included within the product, provided that they meet the requirements of 39 U.S.C. 3633. *Id.* at 1. In Order No. 290, the Commission approved the GEPS 2 product.²

The instant contracts. The Postal Service filed the instant contracts pursuant to 39 CFR 3015.5. In addition, the Postal Service contends that each contract is in accordance with Order No. 86. The term of each contract is 1 year from the date the Postal Service notifies the customer that all necessary regulatory approvals have been received. Notice at 2-3.

In support of its Notice, the Postal Service filed four attachments as follows:

¹ Notice of United States Postal Service Filing of Three Functionally Equivalent Global Expedited Package Services 2 Negotiated Service Agreements and Application for Non-Public Treatment of Materials Filed Under Seal, March 18, 2010 (Notice).

² Docket No. CP2009-50, Order Granting Clarification and Adding Global Expedited Package Services 2 to the Competitive Product List, August 28, 2009 (Order No. 290).

1. Attachments 1A, 1B and 1C—redacted copies of the three contracts and applicable annexes;

2. Attachments 2A, 2B and 2C—a certified statement required by 39 CFR 3015.5(c)(2) for each of the three contracts;

3. Attachment 3—a redacted copy of Governors' Decision No. 08-7 which establishes prices and classifications for GEPS contracts, a description of applicable GEPS contracts, formulas for prices, an analysis and certification of the formulas and certification of the Governors' vote; and

4. Attachment 4—an application for non-public treatment of materials to maintain redacted portions of the contracts and supporting documents under seal.

The Notice advances reasons why the instant GEPS 2 contracts fit within the Mail Classification Schedule language for GEPS 2. The Postal Service identifies customer specific information, general contract terms and other differences that distinguish the instant contracts from the baseline GEPS 2 agreement, all of which are highlighted in the Notice. *Id.* at 3-6. These modifications as described in the Postal Service's Notice apply to each of the instant contracts.

The Postal Service contends that the instant contracts are functionally equivalent to the GEPS 2 contracts filed previously notwithstanding these differences. *Id.* at 6-7.

The Postal Service asserts that several factors demonstrate the contracts' functional equivalence with previous GEPS 2 contracts, including the product being offered, the market in which it is offered, and its cost characteristics. *Id.* at 3. The Postal Service concludes that because the GEPS agreements "incorporate the same cost attributes and methodology, the relevant cost and market characteristics are similar, if not the same..." despite any incidental differences. *Id.* at 6.

The Postal Service contends that its filings demonstrate that each of the new GEPS 2 contracts comply with the requirements of 39 U.S.C. 3633 and is functionally equivalent to previous GEPS 2 contracts. It also requests that the contracts be included within the GEPS 2 product. *Id.* at 7.

II. Notice of Filing

The Commission establishes Docket Nos. CP2010-27, CP2010-28 and CP2010-29 for consideration of matters related to the contracts identified in the Postal Service's Notice.

Interested persons may submit comments on whether the Postal Service's contract is consistent with the policies of 39 U.S.C. 3632, 3622 or 3642.
