

CFR 351.214(i)(1) require the Department to issue the preliminary results of a new shipper review within 180 days after the date on which the new shipper review was initiated and the final results of a review within 90 days after the date on which the preliminary results were issued. The Department may, however, extend the deadline for completion of the final results of a new shipper review to 150 days if it determines that the case is extraordinarily complicated. See section 751(a)(2)(B)(iv) of the Act, and 19 CFR 351.214(i)(2).

The Department has determined that the review is extraordinarily complicated because of issues related to surrogate valuation and other calculation-related issues. In addition, based on the Department's extension of the briefing schedule and the additional information that must be analyzed, the final results of this new shipper review cannot be completed within the statutory time limit of 90 days. Accordingly, the Department is extending the time limit for the completion of the final results by 60 days until June 14, 2010, in accordance with section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(i)(2).

This notice is issued and published in accordance with section 751(a)(1) of the Act and 19 CFR 351.214(i)(2).

Dated: March 19, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.
