Agency: Bureau of Labor Statistics.

Type of Review: Revision of a currently approved collection.

Title of Collection: National Longitudinal Survey of Youth 1997.

OMB Control Number: 1220-0157.

Affected Public: Individuals or households.

Total Estimated Number of Respondents: 7,620.

Total Estimated Annual Burden Hours: 8,317.

Total Estimated Annual Costs Burden (Operation and Maintenance): \$0.

Description: The National Longitudinal Survey of Youth 1997 (NLSY97) includes 8,984 respondents who were born in the years 1980 through 1984 and lived in the United States when the survey began in 1997. The primary objective of the survey is to study the transition from full-time schooling to the establishment of careers and families. The longitudinal focus of the survey requires information to be collected about the same individuals over many years in order to trace their education, training, work experience,

fertility, income, and program participation. One of the goals of the Department of Labor is to produce and disseminate timely, accurate, and relevant information about the U.S. labor force. The Bureau of Labor Statistics contributes to this goal by gathering information about the labor force and labor market and disseminating it to policymakers and the public so that participants in those markets can make more informed, and thus more efficient, choices. Research based on the NLSY97 contributes to the formation of national policy in the areas of education, training, employment programs, and school-to-work transitions. For additional information, see related notice published in the **Federal Register** on January 5, 2010 (Vol. 75, page 450).
