Background

The SWCD has applied to Reclamation for a Small Reclamation Projects Act loan to help finance construction of a reservoir and related facilities. The SWCD has also requested from Reclamation a right of use of Federal lands as the site for dam construction. Reclamation's release of this SDEIS does not imply either approval or denial of the Small Reclamation Projects Act loan application or the request for authorization to use withdrawn lands. If Reclamation approves the Small Reclamation Projects Act loan and right of use of Federal lands in accordance with Reclamation law, and Congress appropriates the necessary funds, a supplemental water supply would be developed for presently irrigated lands and M&I water users in northern Sanpete County, Utah. Most of the reservoir basin would be located on adjacent, privately-owned land. A dam and reservoir would be constructed on Gooseberry Creek and 5,400 acre-feet of water would be diverted annually through an existing tunnel and a proposed pipeline to Cottonwood Creek; the existing tunnel would be rehabilitated. Pipelines would be constructed to deliver the water to

existing water distribution systems. Recreation facilities would be developed and a 2,500-acre-foot minimum pool for fish habitat would be provided. The resulting water storage and delivery system would be a non-Federal project owned and operated by SWCD.

Mitigation measures would be implemented to offset any identified adverse impacts. Additional water conservation measures would be implemented independent of the proposed action. To be eligible to receive water from the Narrows Project, water users would be required to use, or agree to implement, conservation measures.

The Narrows Project, as defined in the SDEIS, is a non-Federal project that fulfills the intent of the larger Federal Gooseberry Project that was formulated more than 70 years ago, but never completed.

Purpose and Need for Action

The loan application and request for a right of use of Federal lands by SWCD to build the Narrows Project is intended to meet the purpose of developing an irrigation and M&I supply source for water users in northern Sanpete County, Utah. The needs that would be met by the proposed Narrows Project include meeting present and future demand for municipal water, providing an adequate supply of late season irrigation water, and rehabilitating the Narrows Tunnel in Sanpete County to maintain and enhance its dependability and capability to deliver water to Sanpete County users.

Proposed Federal Action

The proposed Federal action is Reclamation's required determination as to whether to recommend approval of SWCD's requested loan pursuant to the Small Reclamation Projects Act, as well as approval for a right of use of Federal lands to build and operate the proposed Narrows Project. Because issuance of a loan and authorization of a right of use of Federal lands would facilitate construction and operation of the Narrows Project, the SDEIS analyzes the effects of that proposed project and alternatives.

Hearing Process Information: The purpose of the public hearings is for Reclamation to receive oral and written comments from the public. Comments received at the public hearings will not be addressed during the public hearings. Oral comments presented at the hearings will be limited to five minutes. The hearing officer may allow any speaker to provide additional oral comments after all persons wishing to

comment have been heard. All comments will be formally recorded. Speakers will sign up at the door as they arrive. Speakers not present when called will lose their privilege in the scheduled order and will be recalled at the end of the scheduled speakers. Speakers are encouraged to provide written versions of their oral comments, and any other additional written materials, for the hearing/administrative record.

Written comments should be received by Reclamation's Provo Area Office using the contact information in the **ADDRESSES** section of this notice no later than Tuesday, June 1, 2010, for inclusion in the hearing/administrative record. Under the NEPA process, written and oral comments, received by the due date, are given the same consideration.

Public Disclosure

Before including your name, address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: February 11, 2010.

NATIONAL TRANSPORTATION SAFETY BOARD

Proposed Information Collection Activity: Submission for OMB Review; Comment Request

AGENCY: National Transportation Safety Board (NTSB).

ACTION: Notice.

SUMMARY: The NTSB is announcing that it is submitting an Information Collection Request (ICR) to the Office of Management and Budget (OMB) for approval, in accordance with the Paperwork Reduction Act. This ICR describes a form that the NTSB proposes to use to obtain information from operators who need to report the occurrence of a resolution advisory (RA) in which an aircraft encountered a risk of collision with another aircraft. The proposed form is shorter than the form in which the NTSB currently receives reports of incidents under 49 CFR 830.5 (NTSB Form 6120.1). This Notice informs the public that they may submit
