**BILLING CODE P**

**DEPARTMENT OF THE INTERIOR**

**Minerals Management Service**

[Docket No. MMS-2009-MRM-0014]

**Termination of Royalty-in-Kind (RIK)  
Eligible Refiner Program**

**AGENCY:** Minerals Management Service,  
Interior.

**ACTION:** Advance notice for the  
termination of the RIK Eligible Refiner  
Program.

**SUMMARY:** On behalf of the Secretary of  
the Interior (Secretary), the Minerals  
Management Service (MMS) has  
conducted a determination of need for  
the RIK Eligible Refiner Program under  
30 CFR 208.4 and has concluded that a  
need for the program no longer exists.

**DATES:** As a result of this determination,  
MMS will discontinue the sales of  
Federal royalty production to eligible  
refiners under the Eligible Refiner  
Program until further notice.

**FOR FURTHER INFORMATION CONTACT:**  
Colin Bosworth, telephone (303) 231-  
3186, FAX (303) 231-3846, or e-mail  
*colin.bosworth@mms.gov*.

**SUPPLEMENTARY INFORMATION:** The  
regulations at 30 CFR 208.4(a) provide  
that the Secretary may evaluate crude  
oil market conditions from time to time.  
The evaluation will include, among  
other things, the availability of crude oil  
and the crude oil requirements of the  
Federal Government, primarily those  
requirements concerning matters of

national interest and defense.

Furthermore, the regulations at 30 CFR  
208.4(b) state that, upon a determination  
by the Secretary under paragraph (a) of  
this section that defined eligible refiners  
do not have access to adequate supplies  
of crude oil at equitable prices, the  
Secretary, at his or her discretion, may  
elect to take in kind some or all of the  
royalty oil accruing to the United States  
from oil and gas leases on Federal lands  
onshore and the Outer Continental Shelf  
for sale to eligible refiners.

On September 16, 2009, the Secretary  
announced a phased-in termination of  
the RIK Program. The termination of the  
RIK Program precludes future sales of  
Federal royalty oil to eligible refiners as  
part of the Eligible Refiner Program. The  
MMS will honor all existing RIK sales  
contracts as defined in the contract  
terms.

The MMS's determination is  
supported by decreased participation in  
the RIK Eligible Refiner Program as well  
as eligible refiners demonstrating a  
successful ability to compete in the  
open market. In 1999, six eligible  
refiners participated in the program,  
compared to only two in 2009. Over the  
past few years, eligible refiners have  
been successfully competing in the RIK  
Unrestricted Oil Sales Program as well  
as in the open market. The RIK  
unrestricted oil sales were open to any  
bidder who met prequalification  
requirements, and bidders included  
many of the major oil companies  
operating in the United States. On  
average, 50 percent of the volumes that  
MMS offered in the RIK Unrestricted Oil  
Sales Program during the past year have  
been awarded to eligible refiners. In the  
most recent unrestricted oil sale, one  
eligible refiner bid successfully on 80  
percent of the volumes that MMS  
offered for sale. The decreased  
participation in the Eligible Refiner  
Program, in conjunction with the  
increased success of eligible refiners in  
the RIK Unrestricted Oil Sales Program,  
clearly demonstrates that an RIK  
Eligible Refiner Program is not needed  
at this time.

Dated: March 18, 2010.
