

platform is controlled (e.g., provided by the election jurisdiction); and those where it is not controlled (e.g., the voter uses his own personal computer). Since the EAC plans to have the pilot certification process ready for implementation during the first half of 2010, it was decided that the EAC would focus its efforts on controlled platform architectures servicing multiple jurisdictions. This is a highly secure remote voting solution and the Okaloosa Project provides an implementation example for reference. Defining requirements for this class of system architecture was determined to provide a reasonable test case that could be completed within the available timeframe. In addition, most of the core system processing functions are the same for both types of architectures, so a substantial number of requirements will carry over as this work is expanded to include other methods of remote electronic voting.

The UOCAVA Pilot requirements document contains testable requirements for the following areas:

- (1) Functional Requirements.
- (2) Usability.
- (3) Software.
- (4) Security.
- (5) Quality Assurance.
- (6) Configuration Management.
- (7) Technical Data Package.
- (8) Systems Users Manual.

DATES: Comments must be received on or before 4 p.m. EST on April 15, 2010.

Submission of Comments: The public may submit comments through one of the two different methods provided by the EAC: (1) e-mail submissions to votingsystemguidelines@eac.gov; (2) by mail to Voluntary Voting System Guidelines Comments, U.S. Election Assistance Commission, 1201 New York Ave., NW., Suite 300, Washington, DC 20005.

In order to allow efficient and effective review of comments the EAC requests that:

- (1) Comments refer to the specific section that is the subject of the comment.
- (2) General comments regarding the entire document or comments that refer to more than one section be made as specifically as possible so that EAC can clearly understand to which portion(s) of the documents the comment refers.
- (3) To the extent that a comment suggests a change in the wording of a requirement or section of the guidelines, please provide proposed language for the suggested change.

All comments submitted will be published at the end of the comment period on the EAC's Web site at

<http://www.eac.gov>. This publication and request for comment is not required under the rulemaking, adjudicative, or licensing provisions of the Administrative Procedures Act (APA). It is a voluntary effort by the EAC to gather input from the public on the EAC's administrative procedures for certifying voting systems to be used in pilot projects. Furthermore, this request by the EAC for public comment is not intended to make any of the APA's rulemaking provisions applicable to development of this or future EAC procedural programs.

An electronic copy of the proposed guidance may be found on the EAC's Web site at <http://www.eac.gov>.
