CFR 117.189(a). Navigation on the waterway is commercial and recreational.

The drawspan will be secured in the closed-to-navigation position from 8 a.m. to 6 p.m. on March 30, 2010, to allow the bridge owner to remove and replace the oil in the operating machinery for the drawspan. This temporary deviation has been coordinated with waterway users. There are no scheduled river boat cruises or anticipated levee maintenance during this deviation period. No objections to the proposed temporary deviation were raised. The drawspan can be opened with 2 hours advance notice for emergencies requiring the passage of waterway traffic.

Vessels that can transit the bridge, while in the closed-to-navigation position, may continue to do so at any time.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

S. P. Metruck, 
Captain, U. S. Coast Guard, Acting Commander, Eleventh Coast Guard District.

33 CFR Part 117

[Docket No. USCG–2009–0686]

RIN 1625–AA09

Drawbridge Operation Regulation; Lower Grand River, Iberville Parish, LA

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is changing the regulation governing the operation of the LA 75 pontoon bridge, mile 38.4, in Iberville Parish, Louisiana. The Iberville Parish School Board requested that the operating regulation of the LA 75 pontoon bridge be changed to add an additional 30 minutes to the end of the morning scheduled closure period to provide more time for school buses to transit across the bridge. The additional time is needed as a result of school redistricting.

DATES: This rule is effective April 30, 2010.

ADDRESS: Comments and related materials received from the public, as well as documents mentioned in this preamble as being available in the docket, are part of docket USCG–2009–0686 and are available online by going to http://www.regulations.gov, inserting USCG–2009–0686 in the “Keyword” box, and then clicking “Search.” This material is also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On November 10, 2009, we published a notice of proposed rulemaking (NPRM) entitled Drawbridge Operation Regulations; Lower Grand River, Iberville Parish, LA in the Federal Register (74 FR 57884). We received one comment on the proposed rule. No public meeting was requested, and none was held.

Background and Purpose

The Iberville Parish School Board requested a change in the operation regulation for the LA 75 pontoon and the LA 77 swing bridge across the Lower Grand River, mile 38.4 and 47.0, respectively, in Iberville Parish, Louisiana. The change would add an additional 30 minutes to the end of each scheduled closure period to provide more time for school buses to transit across the bridge. Extra time is now needed because one of Iberville Parish’s high schools has been closed. School bus lines have been rerouted, creating the need to have more time to transit the students over the bridges.

Presently, 33 CFR 117.478(a) and (b) states: The draw of the LA 75 bridge, mile 38.4 (Alternate Route) at Bayou Sorrel and the draw of the LA 77 bridge, mile 47.0 (Alternate Route) at Grosse Tete, shall open on signal; except that, from about August 15 to about June 5 (the school year), the draw of the LA 75 bridge need not be opened from 6 a.m. to 7:30 a.m. and from 3 p.m. to 4:30 p.m. and the draw of the LA 77 bridge need not be opened from 6 a.m. to 8 a.m. and from 2:30 p.m. to 4:30 p.m., Monday through Friday except Federal holidays. The draws shall open on signal at any time for an emergency aboard the vessel.

Concurrent with the publication of the notice of proposed rulemaking, a test deviation [USCG–2009–0686] was issued to allow the Iberville Parish School Board to test the proposed schedule and to obtain data and public comments. The test deviation allowed the bridges to operate as follows: The draw of the LA 75 bridge, mile 38.4 (Alternate Route) at Bayou Sorrel and the draw of the LA 77 bridge, mile 47.0 (Alternate Route) at Grosse Tete, shall open on signal; except that, from about August 15 to about June 5 (the school year), the draw of the LA 75 bridge need not be opened from 6 a.m. to 8 a.m. and from 3 p.m. to 5 p.m. and the draw of the LA 77 bridge need not be opened from 6 a.m. to 8 a.m. and from 3 p.m. to 5 p.m. Monday through Friday except Federal holidays. The draws shall open on signal at any time for an emergency aboard the vessel.

The test period was in effect from November 25, 2009 until December 28, 2009.

One comment was received on November 11, 2009, before the test deviation went into effect, from a mariner expressing concern about the curbew changes. He is concerned because he believes there is already a congestion problem on the waterway during the closure periods and the additional 30 minutes would make the congestion worse. We did not receive any comments during or after the test deviation.

The Coast Guard has reviewed bridge tender logs from before, during, and after the test deviation became effective. The logs do not indicate an appreciable difference in the number of openings with the additional 30 minute closure period. The Coast Guard also reviewed the school buses crossing the bridges during the test deviation. The report indicated that the only time extension needed for the school buses is the morning closure for LA 75 pontoon bridge at Bayou Sorrel. Based on the research and data that was reviewed and the comment that was received, the Coast Guard has determined that the permanent change to the operating regulation for the Bayou Sorrel, LA 75 pontoon bridge morning closure period is warranted. The LA 75 pontoon bridge at Bayou Sorrel afternoon bridge closure and the LA 77 swing bridge at Grosse Tete morning and afternoon closures will remain as they are presently regulated.

Discussion of Comments and Changes

The Coast Guard received one comment from a mariner on November 11, 2009. Although he recognizes the importance of getting children to school at the proper times, he is worried about the increase in the duration of time that the bridges would be closed because it would add to a current congestion issue during those periods. The Coast Guard has analyzed the data and research on the impact of the time
adjustment on vessel traffic and has concluded that there is not a significant impact. Furthermore, the Coast Guard has analyzed the data and research on the impact the time adjustment has made on school bus traffic and has concluded that the only bridge closure in need of the time adjustment is the morning closure at the LA 75 pontoon bridge at Bayou Sorrel. Therefore, this is the only closure that will be permanently changed in the regulatory text.

Regulatory Analyses
We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review
This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation is unnecessary. The changes have a minimal impact on maritime traffic transiting the bridge. Mariners can plan their trips in accordance with the scheduled bridge openings. The changes to the regulatory text published in the NPRM will be less restrictive than what was published. The afternoon closure at the LA 75 pontoon bridge at Bayou Sorrel and both the morning and afternoon closures at the LA 77 swing bridge at Grosse Tete will remain unchanged to what is currently published in the operating regulations.

Small Entities
Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which might be small entities: The owners or operators of vessels that would be transiting the bridge during that 30 minute increment of time. Because the amount of time that would be added to the current bridge closure period is minimal, this rule will not affect a substantial number of small entities and therefore will not have a substantial economic impact.

Assistance for Small Entities
Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), in the NPRM (SNPRM) we offered to assist small entities in understanding the rule so that they could better evaluate its effects on them and participate in the rulemaking process.

Collection of Information
This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism
A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act
The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property
This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform
This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children
We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments
This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects
We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards
The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed and adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment
We have analyzed this rule under Department of Homeland Security
Management Directive 023–01 and Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2–1, paragraph (32)(e), of the Instruction.

Under figure 2–1, paragraph (32)(e), of the Instruction, an environmental analysis checklist and a categorical exclusion determination are not required for this rule.

List of Subjects in 33 CFR Part 117

- Bridges.
- For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

2. In §117.478 paragraph (a) is revised to read as follows:

§117.478 Lower Grand River.

(a) The draw of the LA 75 bridge, mile 38.4 (Alternate Route) at Bayou Sorrel, shall open on signal; except that from about August 15 to about June 5 (the school year), the draw need not be opened from 6 a.m. to 8 a.m. and from 3 p.m. to 4:30 p.m.; Monday through Friday except holidays. The draw shall open on signal at any time for an emergency aboard a vessel.

33 CFR Part 117

[Docket No. USCG–2010–0167]

Drawbridge Operation Regulations; Acushnet River, New Bedford and Fairhaven, MA, Event—Road Race

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Route 6 New Bedford Fairhaven Bridge across the Acushnet River, mile 0.0, between New Bedford and Fairhaven, Massachusetts. This temporary deviation is necessary to facilitate a public event, the Greater New Bedford Community Health Center 5K Road Race, by allowing the bridge to remain in the closed position for two hours during the running of the 5K Road Race.

DATES: This deviation is effective from 10 a.m. through 12 p.m. on May 30, 2010.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCGL–2010–0167 and are available online at http://www.regulations.gov, inserting USCGL–2009–0001 in the “Keyword” and then clicking “Search”. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or e-mail Mr. John McDonald, Project Officer, First Coast Guard District, telephone (617) 223–8364, john.w.mcdonald@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION:
The Route 6 New Bedford Fairhaven Bridge, across the Acushnet River at mile 0.0, between New Bedford and Fairhaven, Massachusetts, has a vertical clearance in the closed position of 6 feet at mean high water and 10 feet at mean low water. The Drawbridge Operation Regulations are listed at 33 CFR 117.585. The bridge opens on the hour from 6 a.m. through 10 a.m. and at a quarter past the hour between 11:15 a.m. and 6:15 p.m. The bridge opens on signal at all other times.

The owner of the bridge, Massachusetts Department of Transportation, requested this temporary deviation to facilitate a public event, the Greater New Bedford Community Health Center 5K Road Race.

Under this deviation, the Route 6 New Bedford Fairhaven Bridge may remain in the closed position between 10 a.m. and 12 p.m. on May 30, 2010. The 10 a.m. and 11:15 a.m. openings will be missed as a result of this temporary deviation. Vessels able to pass under the closed draw may do so at any time.

In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Gary Kassof, Bridge Program Manager, First Coast Guard District.

33 CFR Part 117

[USCG–2010–0029]

Drawbridge Operation Regulations; Hackensack River, Jersey City, NJ, Maintenance

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Route 1 & 9 (Lincoln Highway) Bridge, mile 1.8, across the Hackensack River at Jersey City, New Jersey. This deviation allows the bridge owner to require a two hour advance notice for bridge openings April through September and several bridge closures to facilitate bridge painting operations. Vessels that can pass under the draw without a bridge opening may do so at all times.

DATES: This deviation is effective from April 1, 2010 through September 15, 2010.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCGL–2010–0029 and are available online at http://www.regulations.gov. They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays, and the First Coast Guard District, Bridge Branch Office, 408 Atlantic Avenue, Boston,
